6. Purify **3.6 spoonful of vessel mixture "soot"** with the purifier.
7. Put **3.6 spoonful of purified vessel mixture "soot"** into the vessel.
8. Pour out the mixture from the vessel to get the **5.17 spoonful of vessel mixture "purified vessel mixture "soot""**.
9. Dump the **1 purified chimney** and **5.17 spoonful of vessel mixture "purified vessel mixture "soot""** into a pile on the floor.
10. Wait until they magically transform into an **ashes**.

14 An atmosphere

How to make an **atmosphere** in 9 easy steps:

14.1 Materials

- 10 borders
- 28 surrounding
- 33.55 spoonful of aura
- 2.16 ounces of ozone

14.2 Tools

- Purifier
- Saw
- Centrifuge
- Fountain pen

14.3 Instructions

1. Purify **10 borders** with the purifier.
2. Use the saw to slice **33.55 spoonful of aura** into bits.
3. Put **10 purified borders** into the rotating centrifuge.
4. Put **28 surrounding** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **1.02 ounces of centrifuged mixture "purified border and surroundings"**.
6. Draw a magic circle on the floor using the fountain pen.
7. Draw a triangle into the circle and place **33.55 spoonful of sliced aura, 2.16 ounces of ozone and 1.02 ounces of centrifuged mixture "purified border and surroundings"** on each corner.
8. Whisper the following spell: "Galbaccentum!"
9. Suddenly, an **atmosphere** will appear inside the circle.

15 An attic

How to make an **attic** in 11 easy steps:

15.1 Materials

- 84 junks
- 16.73 spoonful of storage
- 8.17 spoonful of loft
- 2 basements

15.2 Tools

- Vessel
- Centrifuge
- Familiar unicorn

15.3 Instructions

1. Put **2 basements** into the vessel.
2. Heat the vessel.
3. Let your familiar unicorn sniff at **16.73 spoonful of storage**.
4. Let your familiar unicorn lick **8.17 spoonful of loft**.
5. Put **8.17 spoonful of licked loft** into the rotating centrifuge.
6. Heat the vessel.
7. Let your familiar unicorn sniff at **16.73 spoonful of storage**.
8. Pour out the mixture from the vessel to get the **2.23 ounces of vessel mixture "basement"**.
9. Stop the centrifuge and retrieve the **3.8 ounces of centrifuged mixture "licked loft"**.
10. Fold the **84 junks, 16.73 spoonful of storage, 2.23 ounces of vessel mixture "basement"** and **3.8 ounces of centrifuged mixture "licked loft"** together using advanced origami techniques.
11. If you've done it correctly, it could result in an **attic**.

16 An aunt

How to make an **aunt** in 3 easy steps:

16.1 Materials

- 3 graces
- 7.33 ounces of niece
- 6.91 spoonful of ancestor
- 19 relations

16.2 Tools

- Cauldron
- Tape

16.3 Instructions

1. Wait.
2. Stir the cauldron.
3. Use tape to join the **3 graces**, **7.33 ounces of niece**, **6.91 spoonful of ancestor** and **19 relations** together into the shape of a passable **aunt**.

17 An award

How to make an **award** in 13 easy steps:

17.1 Materials

- 93 merits
- 6.73 ounces of plaque
- 7.68 spoonful of achievement
- 6 clear concepts of being outstanding

17.2 Tools

- Purifier
- Vessel

17.3 Instructions

1. Wait.
2. Let the vessel cool down.
3. Stir the vessel.
4. Put **6 clear concepts of being outstanding** into the vessel.
5. Heat the vessel.
6. Stir the vessel.
7. Purify **93 merits** with the purifier.
8. Let the vessel cool down.
9. Wait for an hour.
10. Put **7.68 spoonful of achievement** into the vessel.
11. Pour out the mixture from the vessel to get the **6.35 spoonful of vessel mixture "being outstanding and achievement"**.
12. Dump the **93 purified merits, 6.73 ounces of plaque and 6.35 spoonful of vessel mixture "being outstanding and achievement"** into a pile on the floor.
13. Wait until they magically transform into an **award**.

18 An away

How to make an **away** in 9 easy steps:

18.1 Materials

- 12 clear concepts of throw
- 8 ideas of being distant
- 7 clear concepts of being stray
- 49.41 spoonful of tow

18.2 Tools

- Fireplace
- Purifier
- Centrifuge
- Mortar
- Electric paint

18.3 Instructions

1. Purify **12 clear concepts of throw** with the purifier.
2. Crack **12 purified clear concepts of throw** with the mortar.
3. Put **12 purified and cracked clear concepts of throw** into the rotating centrifuge.
4. Fan the flames of the fireplace.
5. Stop the centrifuge and retrieve the **10.86 spoonful of centrifuged mixture "purified and cracked throw"**.
6. Draw a magic circle on the floor using the electric paint.
7. Draw a square into the circle and place **8 ideas of being distant, 7 clear concepts of being stray, 49.41 spoonful of tow and 10.86 spoonful of centrifuged mixture "purified and cracked throw"** on each corner.
8. Intone the following spell: "Caprolor!"
9. Slowly, an **away** will appear inside the circle.

19 A banquet

How to make a **banquet** in 8 easy steps:

19.1 Materials

- 33.18 ounces of feast
- 19 ideas of being annual

19.2 Tools

- Hammer
- Bucket with ionised liquid
- Cauldron
- Purifier
- Screws

19.3 Instructions

1. Purify **19 ideas of being annual** with the purifier.
2. Smash **19 purified ideas of being annual** with the hammer.
3. Dip **33.18 ounces of feast** into the bucket with ionised liquid.
4. Put **19 purified and smashed ideas of being annual** into the cauldron.
5. Pour out the mixture from the cauldron to get the **19.7 ounces of cauldron mixture "purified and smashed being annual"**.
6. Stir the cauldron.
7. Let the cauldron cool down.
8. Use screws to join the **33.18 ounces of wet feast** and **19.7 ounces of cauldron mixture "purified and smashed being annual"** together into the form of a usable **banquet**.

20 A baptist

How to make a **baptist** in 12 easy steps:

20.1 Materials

- 7 southernnesses
- 3 ideas of being catholic
- 21.99 ounces of revival
- 3 vague notions of being methodist

20.2 Tools

- Bucket with clean water
- Mortar
- Centrifuge

20.3 Instructions

1. Wait for a minute.
2. Dip **3 vague notions of being methodist** into the bucket with clean water.
3. Crack **21.99 ounces of revival** with the mortar.
4. Put **7 southernnesses** into the rotating centrifuge.
5. Dip **3 wet vague notions of being methodist** into the bucket with clean water.
6. Put **3 very wet vague notions of being methodist** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Put **21.99 ounces of cracked revival** into the rotating centrifuge.
9. Crack **3 ideas of being catholic** with the mortar.
10. Stop the centrifuge and retrieve the **7.36 ounces of centrifuged mixture "southernness, very wet being methodist and cracked revival"**.
11. Fold the **3 cracked ideas of being catholic** and **7.36 ounces of centrifuged mixture "southernness, very wet being methodist and cracked revival"** together using advanced origami techniques.
12. If you've done it correctly, it should result in a **baptist**.

21 Beauty

How to make **beauty** in 9 easy steps:

21.1 Materials

- 9.3 spoonful of vanity
- 49.5 spoonful of essence
- 14 ideas of rose
- 19.07 ounces of grace

21.2 Tools

- Cauldron
- Fireplace
- Saw
- Glue

21.3 Instructions

1. Fan the flames of the fireplace.
2. Wait for a day.
3. Use the saw to slice **9.3 spoonful of vanity** into bits.
4. Hold **19.07 ounces of grace** briefly into the fireplace to burn them a bit.
5. Put **19.07 ounces of slightly burned grace** into the fireplace.
6. Let the cauldron cool down.
7. Wait for an hour.
8. Retrieve the **4.2 ounces of ashes of "slightly burned grace"** from the fireplace.
9. Use glue to join the **9.3 spoonful of sliced vanity**, **49.5 spoonful of essence**, **14 ideas of rose** and **4.2 ounces of ashes of "slightly burned grace"** together into the form of a beautiful **beauty**.

22 A belly

How to make a **belly** in 11 easy steps:

22.1 Materials

- 15.92 spoonful of dancer
- 11.78 ounces of stomach
- 48.2 spoonful of abdomen
- 8.39 spoonful of ache

22.2 Tools

- Saw
- Hammer
- Purifier
- Container
- Nails

22.3 Instructions

1. Stir the container.
2. Heat the container.
3. Purify **8.39 spoonful of ache** with the purifier.
4. Use the saw to slice **15.92 spoonful of dancer** into bits.
5. Put **48.2 spoonful of abdomen** into the container.
6. Let the container cool down.
7. Crack **15.92 spoonful of sliced dancer** with the hammer.
8. Heat the container.
9. Purify **15.92 spoonful of sliced and cracked dancer** with the purifier.
10. Pour out the mixture from the container to get the **17.64 ounces of container mixture "abdomen"**.
11. Use nails to join the **15.92 spoonful of sliced, cracked and purified dancer, 11.78 ounces of stomach, 8.39 spoonful of purified ache and 17.64 ounces of container mixture "abdomen"** together into the form of a passable **belly**.

23 A bible

How to make a **bible** in 11 easy steps:

23.1 Materials

- 15 ideas of pray
- 39 books
- 41.32 spoonful of revival
- 4 maries

23.2 Tools

- Saw
- Mortar
- Purifier
- Bonfire
- Vessel
- Bucket with ice-cold liquid
- Centrifuge
- Glue

23.3 Instructions

1. Purify **15 ideas of pray** with the purifier.
2. Hold **41.32 spoonful of revival** briefly into the bonfire to burn them a bit.
3. Put **39 books** into the rotating centrifuge.
4. Let the vessel cool down.
5. Dip **4 maries** into the bucket with ice-cold liquid.
6. Use the saw to slice **41.32 spoonful of slightly burned revival** into bits.
7. Smash **15 purified ideas of pray** with the mortar.
8. Fan the flames of the bonfire.
9. Put **4 wet maries** into the rotating centrifuge.

10. Stop the centrifuge and retrieve the **25.45 spoonful of centrifuged mixture "book and wet mary"**.
11. Use glue to join the **15 purified and smashed ideas of pray, 41.32 spoonful of slightly burned and sliced revival** and **25.45 spoonful of centrifuged mixture "book and wet mary"** together into the shape of a perfectly functional **bible**.

24 A bondage

How to make a **bondage** in 7 easy steps:

24.1 Materials

- 34 releases
- 19.17 spoonful of freedom

24.2 Tools

- Fireplace

24.3 Instructions

1. Put **34 releases** into the fireplace.
2. Fan the flames of the fireplace.
3. Wait.
4. Retrieve the **6.76 spoonful of ashes of "release"** from the fireplace.
5. Put **19.17 spoonful of freedom** into the fireplace.
6. Fold the **6.76 spoonful of ashes of "release"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **bondage**.

25 A book

How to make a **book** in 10 easy steps:

25.1 Materials

- 10.42 ounces of rule
- 6.45 ounces of return
- 4 binders
- 13 diaries

25.2 Tools

- Cauldron
- Centrifuge
- Tape

25.3 Instructions

1. Stir the cauldron.
2. Put **6.45 ounces of return** into the rotating centrifuge.
3. Wait for a rather long time.
4. Eat **13 diaries**.
5. Heat the cauldron.
6. Put **4 binders** into the cauldron.
7. Let the cauldron cool down.
8. Pour out the mixture from the cauldron to get the **4.71 ounces of cauldron mixture "binder"**.
9. Stop the centrifuge and retrieve the **24.46 spoonful of centrifuged mixture "return"**.
10. Use tape to join the **10.42 ounces of rule**, **4.71 ounces of cauldron mixture "binder"** and **24.46 spoonful of centrifuged mixture "return"** together into the shape of a perfectly functional **book**.

26 A bounce

How to make a **bounce** in 8 easy steps:

26.1 Materials

- 2 jolts
- 16 balls
- 9 swoops
- 4.71 spoonful of checkbook

26.2 Tools

- Cauldron
- Bonfire
- Purifier
- Pet hummingbird

26.3 Instructions

1. Wait.
2. Let your pet hummingbird lick **2 jolts**.
3. Let the cauldron cool down.
4. Purify **9 swoops** with the purifier.
5. Pet your pet hummingbird.
6. Fan the flames of the bonfire.
7. Fold the **2 licked jolts**, **16 balls**, **9 purified swoops** and **4.71 spoonful of checkbook** together using advanced origami techniques.
8. If you've done it correctly, it should result in a **bounce**.

27 A bouquet

How to make a **bouquet** in 13 easy steps:

27.1 Materials

- 10 flower

27.2 Tools

- Cauldron
- Bonfire
- Familiar cat
- Fountain pen

27.3 Instructions

1. Hold **10 flower** briefly into the bonfire to burn them a bit.
2. Heat the cauldron.
3. Hold **10 slightly burned flower** briefly into the bonfire to burn them a bit.
4. Put **10 burned flower** into the cauldron.
5. Pet your familiar cat.
6. Let the cauldron cool down.
7. Wait for a rather long time.
8. Fan the flames of the bonfire.
9. Pour out the mixture from the cauldron to get the **8.07 ounces of cauldron mixture "burned flowers"**.
10. Draw a magic circle on the floor using the fountain pen.
11. Place **8.07 ounces of cauldron mixture "burned flowers"** into the circle.
12. Whisper the following spell: "Conconsero ethodictal dexico! Cratus!"
13. Reluctantly, a **bouquet** will appear inside the circle.

28 A boxing

How to make a **boxing** in 11 easy steps:

28.1 Materials

- 8.43 ounces of fighter
- 9 clear concepts of wrestling
- 6 hockeys
- 3.04 ounces of event

28.2 Tools

- Purifier
- Centrifuge
- Cauldron
- Mortar
- Crayon

28.3 Instructions

1. Heat the cauldron.
2. Let the cauldron cool down.
3. Stir the cauldron.
4. Put **6 hockeys** into the rotating centrifuge.
5. Smash **9 clear concepts of wrestling** with the mortar.
6. Purify **8.43 ounces of fighter** with the purifier.
7. Stop the centrifuge and retrieve the **3.31 ounces of centrifuged mixture "hockey"**.
8. Draw a magic circle on the floor using the crayon.
9. Draw a square into the circle and place **8.43 ounces of purified fighter, 9 smashed clear concepts of wrestling, 3.04 ounces of event and 3.31 ounces of centrifuged mixture "hockey"** on each corner.
10. Chant the following spell: "Luctio! Bro lythos!"
11. Suddendly, a **boxing** will appear inside the circle.

29 A bran

How to make a **bran** in 13 easy steps:

29.1 Materials

- 6.28 ounces of cereal
- 1.25 spoonful of oatmeal
- 15.84 ounces of muffin
- 6.9 spoonful of fiber

29.2 Tools

- Cauldron
- Bonfire
- Hammer
- Saw
- Glue

29.3 Instructions

1. Use the saw to slice **6.9 spoonful of fiber** into bits.
2. Put **6.9 spoonful of sliced fiber** into the bonfire.
3. Hold **1.25 spoonful of oatmeal** briefly into the bonfire to burn them a bit.
4. Crack **15.84 ounces of muffin** with the hammer.
5. Put **1.25 spoonful of slightly burned oatmeal** into the bonfire.
6. Put **15.84 ounces of cracked muffin** into the bonfire.
7. Fan the flames of the bonfire.
8. Heat the cauldron.
9. Put **6.28 ounces of cereal** into the cauldron.
10. Wait for a rather short time.
11. Pour out the mixture from the cauldron to get the **5.47 spoonful of cauldron mixture "cereal"**.

12. Retrieve the **3.4 ounces of ashes of "sliced fiber, slightly burned oatmeal and cracked muffin"** from the bonfire.
13. Use glue to join the **5.47 spoonful of cauldron mixture "cereal"** and **3.4 ounces of ashes of "sliced fiber, slightly burned oatmeal and cracked muffin"** together into the shape of a beautiful **bran**.

30 Bread

How to make **bread** in 9 easy steps:

30.1 Materials

- 4.82 spoonful of biscuit
- 34 clear concepts of baked
- 7.62 spoonful of dough
- 7.41 ounces of baker

30.2 Tools

- Hammer
- Freezer
- Ballpoint pen

30.3 Instructions

1. Smash **34 clear concepts of baked** with the hammer.
2. Crack **7.62 spoonful of dough** with the hammer.
3. Wait.
4. Smash **7.41 ounces of baker** with the hammer.
5. Put **7.41 ounces of smashed baker** into the freezer for a while.
6. Draw a magic circle on the floor using the ballpoint pen.
7. Draw a cross into the circle and place **4.82 spoonful of biscuit, 34 smashed clear concepts of baked, 7.62 spoonful of cracked dough** and **7.41 ounces of smashed and cooled baker** on each corner.
8. Whisper the following spell: "Dico citas!"
9. Reluctantly, **bread** will appear inside the circle.

31 A brown

How to make a **brown** in 14 easy steps:

31.1 Materials

- 28.98 spoonful of pantyhose
- 17.75 ounces of eyes
- 4.71 spoonful of rust
- 6.98 ounces of mole

31.2 Tools

- Purifier
- Mortar
- Saw
- Cauldron
- Familiar dog
- Bucket with water
- Freezer
- Electric paint

31.3 Instructions

1. Purify **4.71 spoonful of rust** with the purifier.
2. Use the saw to slice **28.98 spoonful of pantyhose** into bits.
3. Feed **6.98 ounces of mole** to your familiar dog.
4. Put **17.75 ounces of eyes** into the freezer for a while.
5. Let your familiar dog lick **28.98 spoonful of sliced pantyhose**.
6. Throw **28.98 spoonful of sliced and licked pantyhose** away.
7. Dip **17.75 ounces of cooled eyes** into the bucket with water.
8. Crack **4.71 spoonful of purified rust** with the mortar.
9. Stir the cauldron.

10. Wait until your familiar dog poops. Receive **8.09 ounces of a very dirty pile of "mole"**.
11. Draw a magic circle on the floor using the electric paint.
12. Draw a triangle into the circle and place **17.75 ounces of cooled and wet eyes, 4.71 spoonful of purified and cracked rust** and **8.09 ounces of a very dirty pile of "mole"** on each corner.
13. Chant the following spell: "Pera! Alam vitrecatrix!"
14. Suddendly, a **brown** will appear inside the circle.

32 A bruise

How to make a **bruise** in 11 easy steps:

32.1 Materials

- 9.18 spoonful of ouch
- 5.66 spoonful of pinch
- 16 vague notions of bump
- 1 bandaid

32.2 Tools

- Bonfire
- Centrifuge
- Vessel
- Pet ape

32.3 Instructions

1. Let the vessel cool down.
2. Let your pet ape lick **5.66 spoonful of pinch**.
3. Put **1 bandaid** into the vessel.
4. Put **5.66 spoonful of licked pinch** into the rotating centrifuge.
5. Put **9.18 spoonful of ouch** into the rotating centrifuge.
6. Let your pet ape lick **16 vague notions of bump**.
7. Fan the flames of the bonfire.
8. Stop the centrifuge and retrieve the **1.9 spoonful of centrifuged mixture "licked pinch and ouch"**.
9. Pour out the mixture from the vessel to get the **4.84 ounces of vessel mixture "bandaid"**.
10. Dump the **16 licked vague notions of bump, 1.9 spoonful of centrifuged mixture "licked pinch and ouch"** and **4.84 ounces of vessel mixture "bandaid"** into a pile on the floor.
11. Wait until they magically transform into a **bruise**.

33 A buggy

How to make a **buggy** in 7 easy steps:

33.1 Materials

- 3 whips
- 2.33 spoonful of carriage
- 6 dunes

33.2 Tools

- Cauldron
- Stone
- Centrifuge

33.3 Instructions

1. Put **2.33 spoonful of carriage** into the rotating centrifuge.
2. Smash **6 dunes** with the stone.
3. Put **3 whips** into the rotating centrifuge.
4. Let the cauldron cool down.
5. Stop the centrifuge and retrieve the **8.8 spoonful of centrifuged mixture "carriage and whip"**.
6. Fold the **6 smashed dunes** and **8.8 spoonful of centrifuged mixture "carriage and whip"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **buggy**.

34 A building

How to make a **building** in 5 easy steps:

34.1 Materials

- 2 contractors
- 8.54 ounces of agency
- 9.41 ounces of demolition
- 4 towers

34.2 Tools

- Stone
- Centrifuge

34.3 Instructions

1. Smash **4 towers** with the stone.
2. Put **8.54 ounces of agency** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **3.67 ounces of centrifuged mixture "agency"**.
4. Dump the **2 contractors, 9.41 ounces of demolition, 4 smashed towers** and **3.67 ounces of centrifuged mixture "agency"** into a pile on the floor.
5. Wait until they magically transform into a **building**.

35 A bury

How to make a **bury** in 9 easy steps:

35.1 Materials

- 10 ideas of die
- 42 ideas of dig
- 1 clear concept of being dead
- 6 hatchets

35.2 Tools

- Mortar
- Centrifuge
- Fireplace
- Electric paint

35.3 Instructions

1. Put **1 clear concept of being dead** into the rotating centrifuge.
2. Smash **10 ideas of die** with the mortar.
3. Fan the flames of the fireplace.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **6.05 spoonful of centrifuged mixture "being dead"**.
6. Draw a magic circle on the floor using the electric paint.
7. Draw a square into the circle and place **10 smashed ideas of die, 42 ideas of dig, 6 hatchets** and **6.05 spoonful of centrifuged mixture "being dead"** on each corner.
8. Whisper the following spell: "Carceo crotideoror inge servabilium, ubella auxilirus cosus!"
9. Suddendly, a **bury** will appear inside the circle.

36 A buy

How to make a **buy** in 12 easy steps:

36.1 Materials

- 5.23 spoonful of replacement
- 9 clear concepts of sell
- 150.46 ounces of value
- 108.8 ounces of acquirer

36.2 Tools

- Cauldron
- Centrifuge
- Stone
- Freezer
- Fountain pen

36.3 Instructions

1. Put **5.23 spoonful of replacement** into the freezer for a while.
2. Stir the cauldron.
3. Put **150.46 ounces of value** into the rotating centrifuge.
4. Speed up the centrifuge.
5. Smash **5.23 spoonful of cooled replacement** with the stone.
6. Heat the cauldron.
7. Stir the cauldron.
8. Stop the centrifuge and retrieve the **5.82 spoonful of centrifuged mixture "value"**.
9. Draw a magic circle on the floor using the fountain pen.
10. Draw a square into the circle and place **5.23 spoonful of cooled and smashed replacement, 9 clear concepts of sell, 108.8 ounces of acquirer and 5.82 spoonful of centrifuged mixture "value"** on each corner.
11. Intone the following spell: "Gentianus bicativus!"
12. Reluctantly, a **buy** will appear inside the circle.

37 A cabinet

How to make a **cabinet** in 8 easy steps:

37.1 Materials

- 19 medicines
- 8 files
- 9 kitchens
- 1.65 spoonful of dresser

37.2 Tools

- Purifier
- Cauldron
- Stone

37.3 Instructions

1. Purify **1.65 spoonful of dresser** with the purifier.
2. Wait for 3 minutes.
3. Crack **1.65 spoonful of purified dresser** with the stone.
4. Stir the cauldron.
5. Put **19 medicines** into the cauldron.
6. Pour out the mixture from the cauldron to get the **16.86 spoonful of cauldron mixture "medicine"**.
7. Dump the **8 files, 9 kitchens, 1.65 spoonful of purified and cracked dresser** and **16.86 spoonful of cauldron mixture "medicine"** into a pile on the floor.
8. Wait until they magically transform into a **cabinet**.

38 A calories

How to make a **calories** in 12 easy steps:

38.1 Materials

- 8.35 spoonful of yogurt
- 3 vague notions of being fake
- 4 pastries
- 21 doughnuts

38.2 Tools

- Saw
- Bucket with hot water
- Freezer
- Hammer
- Bonfire

38.3 Instructions

1. Put **8.35 spoonful of yogurt** into the bonfire.
2. Hold **3 vague notions of being fake** briefly into the bonfire to burn them a bit.
3. Dip **4 pastries** into the bucket with hot water.
4. Hold **21 doughnuts** briefly into the bonfire to burn them a bit.
5. Wait for a very long time.
6. Retrieve the **6.53 ounces of ashes of "yogurt"** from the bonfire.
7. Use the saw to slice **3 slightly burned vague notions of being fake** into bits.
8. Crack **4 wet pastries** with the hammer.
9. Put **3 slightly burned and sliced vague notions of being fake** into the freezer for a while.
10. Fan the flames of the bonfire.

11. Fold the **3 slightly burned, sliced and cooled vague notions of being fake, 4 wet and cracked pastries, 21 slightly burned doughnuts and 6.53 ounces of ashes of "yogurt"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **calories**.

39 A canary

How to make a **canary** in 9 easy steps:

39.1 Materials

- 28 birds

39.2 Tools

- Centrifuge
- Bonfire

39.3 Instructions

1. Wait.
2. Put **28 birds** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **33.33 ounces of centrifuged mixture "bird"**.
4. Fan the flames of the bonfire.
5. Put **33.33 ounces of centrifuged mixture "bird"** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **9.55 ounces of centrifuged mixture "centrifuged mixture "bird""**.
8. Fold the **9.55 ounces of centrifuged mixture "centrifuged mixture "bird""** together using advanced origami techniques.
9. If you've done it correctly, it might result in a **canary**.

40 A carton

How to make a **carton** in 12 easy steps:

40.1 Materials

- 19 boxes

40.2 Tools

- Familiar dog
- Bonfire
- Centrifuge
- Cauldron

40.3 Instructions

1. Put **19 boxes** into the cauldron.
2. Wait for a second.
3. Pour out the mixture from the cauldron to get the **2.24 spoonful of cauldron mixture "box"**.
4. Let your familiar dog sniff at **2.24 spoonful of cauldron mixture "box"**.
5. Put **2.24 spoonful of cauldron mixture "box"** into the rotating centrifuge.
6. Stir the cauldron.
7. Let the cauldron cool down.
8. Fan the flames of the bonfire.
9. Wait for a short time.
10. Stop the centrifuge and retrieve the **24.17 spoonful of centrifuged mixture "cauldron mixture "box" "**.
11. Fold the **24.17 spoonful of centrifuged mixture "cauldron mixture "box" "** together using advanced origami techniques.
12. If you've done it correctly, it could result in a **carton**.

41 A celebration

How to make a **celebration** in 9 easy steps:

41.1 Materials

- 6.49 spoonful of birthday
- 1.72 spoonful of new year
- 9.21 spoonful of holiday
- 25.38 spoonful of graduate

41.2 Tools

- Stone
- Fireplace
- Ballpoint pen

41.3 Instructions

1. Crack **9.21 spoonful of holiday** with the stone.
2. Put **9.21 spoonful of cracked holiday** into the fireplace.
3. Smash **25.38 spoonful of graduate** with the stone.
4. Fan the flames of the fireplace.
5. Retrieve the **7.49 spoonful of ashes of "cracked holiday"** from the fireplace.
6. Draw a magic circle on the floor using the ballpoint pen.
7. Draw a square into the circle and place **6.49 spoonful of birthday**, **1.72 spoonful of new year**, **25.38 spoonful of smashed graduate** and **7.49 spoonful of ashes of "cracked holiday"** on each corner.
8. Whisper the following spell: "Ango ammadicarius chordatarius obridum imprectarido! Trammodion avarius coacatio, erum!"
9. Slowly, a **celebration** will appear inside the circle.

42 A chamber

How to make a **chamber** in 8 easy steps:

42.1 Materials

- 9.5 spoonful of torture

42.2 Tools

- Stone
- Bucket with water
- Saw

42.3 Instructions

1. Wait.
2. Smash **9.5 spoonful of torture** with the stone.
3. Dip **9.5 spoonful of smashed torture** into the bucket with water.
4. Crack **9.5 spoonful of smashed and wet torture** with the stone.
5. Use the saw to slice **9.5 spoonful of smashed, wet and cracked torture** into bits.
6. Wait.
7. Dump the **9.5 spoonful of smashed, wet, cracked and sliced torture** into a pile on the floor.
8. Wait until they magically transform into a **chamber**.

43 A cheat

How to make a **cheat** in 10 easy steps:

43.1 Materials

- 349.96 spoonful of dishonorableness
- 3.35 spoonful of unfairness
- 13.01 spoonful of honesty
- 8.86 spoonful of con

43.2 Tools

- Mortar
- Cauldron
- Freezer
- Centrifuge
- Saw

43.3 Instructions

1. Crack **349.96 spoonful of dishonorableness** with the mortar.
2. Put **3.35 spoonful of unfairness** into the freezer for a while.
3. Put **8.86 spoonful of con** into the cauldron.
4. Use the saw to slice **349.96 spoonful of cracked dishonorableness** into bits.
5. Put **3.35 spoonful of cooled unfairness** into the freezer for a while.
6. Put **13.01 spoonful of honesty** into the rotating centrifuge.
7. Pour out the mixture from the cauldron to get the **9.06 spoonful of cauldron mixture "con"**.
8. Stop the centrifuge and retrieve the **7.39 ounces of centrifuged mixture "honesty"**.
9. Fold the **349.96 spoonful of cracked and sliced dishonorableness**, **3.35 spoonful of frozen unfairness**, **9.06 spoonful of cauldron mixture "con"** and **7.39 ounces of centrifuged mixture "honesty"** together using advanced origami techniques.
10. If you've done it correctly, it should result in a **cheat**.

44 A cheer

How to make a **cheer** in 8 easy steps:

44.1 Materials

- 8.71 spoonful of spirit
- 1.33 ounces of yell
- 2 audiences
- 6.85 ounces of fan

44.2 Tools

- Centrifuge
- Fireplace
- Cauldron

44.3 Instructions

1. Put **6.85 ounces of fan** into the rotating centrifuge.
2. Let the cauldron cool down.
3. Hold **8.71 spoonful of spirit** briefly into the fireplace to burn them a bit.
4. Heat the cauldron.
5. Fan the flames of the fireplace.
6. Stop the centrifuge and retrieve the **49.58 ounces of centrifuged mixture "fan"**.
7. Dump the **8.71 spoonful of slightly burned spirit**, **1.33 ounces of yell**, **2 audiences** and **49.58 ounces of centrifuged mixture "fan"** into a pile on the floor.
8. Wait until they magically transform into a **cheer**.

45 A chuck

How to make a **chuck** in 6 easy steps:

45.1 Materials

- 7.23 ounces of throw up

45.2 Tools

- Container
- Fireplace

45.3 Instructions

1. Throw **7.23 ounces of throw up** away.
2. Fan the flames of the fireplace.
3. Heat the container.
4. Let the container cool down.
5. Fan the flames of the fireplace.
6. Buy a **chuck** on eBay.

46 A citizen

How to make a **citizen** in 16 easy steps:

46.1 Materials

- 9.34 ounces of patriot
- 5 vague notions of being american
- 79.66 spoonful of model
- 8.84 spoonful of patriotism

46.2 Tools

- Hammer
- Saw
- Fireplace
- Purifier
- Vessel
- Silverpoint pen

46.3 Instructions

1. Fan the flames of the fireplace.
2. Purify **8.84 spoonful of patriotism** with the purifier.
3. Let the vessel cool down.
4. Hold **79.66 spoonful of model** briefly into the fireplace to burn them a bit.
5. Put **9.34 ounces of patriot** into the fireplace.
6. Let the vessel cool down.
7. Use the saw to slice **8.84 spoonful of purified patriotism** into bits.
8. Stir the vessel.
9. Smash **5 vague notions of being american** with the hammer.
10. Put **5 smashed vague notions of being american** into the vessel.
11. Retrieve the **1.53 ounces of ashes of "patriot"** from the fireplace.

12. Pour out the mixture from the vessel to get the **8.01 ounces of vessel mixture "smashed being american"**.
13. Draw a magic circle on the floor using the silverpoint pen.
14. Draw a square into the circle and place **79.66 spoonful of slightly burned model, 8.84 spoonful of purified and sliced patriotism, 1.53 ounces of ashes of "patriot"** and **8.01 ounces of vessel mixture "smashed being american"** on each corner.
15. Whisper the following spell: "Dia auriolarius!"
16. Reluctantly, a **citizen** will appear inside the circle.

47 A cleaning

How to make a **cleaning** in 4 easy steps:

47.1 Materials

- 15 clear concepts of cooking

47.2 Tools

- Centrifuge

47.3 Instructions

1. Put **15 clear concepts of cooking** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **4.36 ounces of centrifuged mixture "cooking"**.
3. Fold the **4.36 ounces of centrifuged mixture "cooking"** together using advanced origami techniques.
4. If you've done it correctly, it might result in a **cleaning**.

48 A clerk

How to make a **clerk** in 13 easy steps:

48.1 Materials

- 10.8 spoonful of desk
- 2 cashiers
- 5.81 spoonful of receptionist
- 2.01 spoonful of sales

48.2 Tools

- Purifier
- Cauldron
- Charcoal pencil

48.3 Instructions

1. Let the cauldron cool down.
2. Put **2.01 spoonful of sales** into the cauldron.
3. Heat the cauldron.
4. Wait.
5. Purify **10.8 spoonful of desk** with the purifier.
6. Heat the cauldron.
7. Let the cauldron cool down.
8. Pour out the mixture from the cauldron to get the **11.37 spoonful of cauldron mixture "sales"**.
9. Stir the cauldron.
10. Draw a magic circle on the floor using the charcoal pencil.
11. Draw a square into the circle and place **10.8 spoonful of purified desk**, **2 cashiers**, **5.81 spoonful of receptionist** and **11.37 spoonful of cauldron mixture "sales"** on each corner.
12. Intone the following spell: "Absor sonosco! Incoralicio mero illosus! Vanuplex adminarius aca tellex, phiclaurius!"
13. Slowly, a **clerk** will appear inside the circle.

49 A climax

How to make a **climax** in 12 easy steps:

49.1 Materials

- 2.83 spoonful of apex
- 2 peaks

49.2 Tools

- Bonfire
- Freezer
- Centrifuge
- Container
- Purifier

49.3 Instructions

1. Let the container cool down.
2. Heat the container.
3. Fan the flames of the bonfire.
4. Put **2.83 spoonful of apex** into the rotating centrifuge.
5. Purify **2 peaks** with the purifier.
6. Put **2 purified peaks** into the freezer for a while.
7. Speed up the centrifuge.
8. Put **2 purified and cooled peaks** into the bonfire.
9. Retrieve the **32.98 ounces of ashes of "purified and cooled peak"** from the bonfire.
10. Stop the centrifuge and retrieve the **4.98 spoonful of centrifuged mixture "apex"**.
11. Dump the **32.98 ounces of ashes of "purified and cooled peak"** and **4.98 spoonful of centrifuged mixture "apex"** into a pile on the floor.
12. Wait until they magically transform into a **climax**.

50 A clove

How to make a **clove** in 8 easy steps:

50.1 Materials

- 3.26 spoonful of garlic

50.2 Tools

- Cauldron

50.3 Instructions

1. Heat the cauldron.
2. Stir the cauldron.
3. Wait for 10 days.
4. Throw **3.26 spoonful of garlic** away.
5. Let the cauldron cool down.
6. Heat the cauldron.
7. Stir the cauldron.
8. Turn around. You will find that a **clove** was there all along.

51 A coleslaw

How to make a **coleslaw** in 7 easy steps:

51.1 Materials

- 4.92 ounces of cabbage

51.2 Tools

- Cauldron
- Fireplace
- Purifier
- Hammer

51.3 Instructions

1. Smash **4.92 ounces of cabbage** with the hammer.
2. Crack **4.92 ounces of smashed cabbage** with the hammer.
3. Let the cauldron cool down.
4. Hold **4.92 ounces of smashed and cracked cabbage** briefly into the fireplace to burn them a bit.
5. Purify **4.92 ounces of smashed, cracked and slightly burned cabbage** with the purifier.
6. Fold the **4.92 ounces of smashed, cracked, slightly burned and purified cabbage** together using advanced origami techniques.
7. If you've done it correctly, it should result in a **coleslaw**.

52 A comedian

How to make a **comedian** in 12 easy steps:

52.1 Materials

- 5 vague notions of being funny
- 10 copies
- 10 actors
- 3.68 spoonful of amateur

52.2 Tools

- Centrifuge
- Mortar
- Freezer
- Glue

52.3 Instructions

1. Put **3.68 spoonful of amateur** into the rotating centrifuge.
2. Put **10 copies** into the freezer for a while.
3. Put **5 vague notions of being funny** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **3.49 ounces of centrifuged mixture "amateur and being funny"**.
5. Put **3.49 ounces of centrifuged mixture "amateur and being funny"** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **9.71 ounces of centrifuged mixture "centrifuged mixture "amateur and being funny""**.
8. Put **9.71 ounces of centrifuged mixture "centrifuged mixture "amateur and being funny""** into the rotating centrifuge.
9. Wait.
10. Crack **10 cooled copies** with the mortar.

11. Stop the centrifuge and retrieve the **2.74 spoonful of centrifuged mixture "centrifuged mixture "centrifuged mixture "amateur and being funny""**.
12. Use glue to join the **10 cooled and cracked copies, 10 actors** and **2.74 spoonful of centrifuged mixture "centrifuged mixture "centrifuged mixture "amateur and being funny""** together into the form of a perfectly functional **comedian**.

53 A components

How to make a **components** in 12 easy steps:

53.1 Materials

- 3 stereos
- 3 element

53.2 Tools

- Centrifuge
- Container
- Bonfire
- Pet unicorn

53.3 Instructions

1. Put **3 stereos** into the bonfire.
2. Put **3 element** into the rotating centrifuge.
3. Retrieve the **4.43 ounces of ashes of "stereo"** from the bonfire.
4. Heat the container.
5. Let your pet unicorn lick **4.43 ounces of ashes of "stereo"**.
6. Feed **4.43 ounces of licked ashes of "stereo"** to your pet unicorn.
7. Speed up the centrifuge.
8. Fan the flames of the bonfire.
9. Stop the centrifuge and retrieve the **286.93 spoonful of centrifuged mixture "elements"**.
10. Wait until your pet unicorn poops. Receive **4.43 spoonful of a very dirty pile of "licked ashes of "stereo""**.
11. Fold the **286.93 spoonful of centrifuged mixture "elements"** and **4.43 spoonful of a very dirty pile of "licked ashes of "stereo""** together using advanced origami techniques.
12. If you've done it correctly, it could result in a **components**.

54 A conditioner

How to make a **conditioner** in 6 easy steps:

54.1 Materials

- 5 shampoos

54.2 Tools

- Stone
- Container
- Purifier
- Centrifuge
- Tape

54.3 Instructions

1. Purify **5 shampoos** with the purifier.
2. Smash **5 purified shampoos** with the stone.
3. Put **5 purified and smashed shampoos** into the rotating centrifuge.
4. Let the container cool down.
5. Stop the centrifuge and retrieve the **8.08 ounces of centrifuged mixture "purified and smashed shampoo"**.
6. Use tape to join the **8.08 ounces of centrifuged mixture "purified and smashed shampoo"** together into the shape of a usable **conditioner**.

55 A cook

How to make a **cook** in 11 easy steps:

55.1 Materials

- 8 ideas of being chief
- 11 vague notions of boil
- 20.77 spoonful of cookbook
- 23.09 spoonful of gourmet

55.2 Tools

- Container
- Centrifuge
- Fireplace
- Glue

55.3 Instructions

1. Stir the container.
2. Let the container cool down.
3. Put **11 vague notions of boil** into the rotating centrifuge.
4. Put **23.09 spoonful of gourmet** into the container.
5. Let the container cool down.
6. Pour out the mixture from the container to get the **2.19 spoonful of container mixture "gourmet"**.
7. Fan the flames of the fireplace.
8. Put **8 ideas of being chief** into the fireplace.
9. Stop the centrifuge and retrieve the **6.86 spoonful of centrifuged mixture "boil"**.
10. Retrieve the **1.13 ounces of ashes of "being chief"** from the fireplace.
11. Use glue to join the **20.77 spoonful of cookbook**, **2.19 spoonful of container mixture "gourmet"**, **6.86 spoonful of centrifuged mixture "boil"** and **1.13 ounces of ashes of "being chief"** together into the shape of a perfectly functional **cook**.

56 A corporation

How to make a **corporation** in 11 easy steps:

56.1 Materials

- 5.38 spoonful of executive
- 5 businesses
- 4.25 spoonful of industry
- 4.49 ounces of agency

56.2 Tools

- Fireplace
- Centrifuge
- Freezer
- Purifier
- Saw
- Pet cat

56.3 Instructions

1. Put **5.38 spoonful of executive** into the fireplace.
2. Purify **5 businesses** with the purifier.
3. Wait.
4. Put **5 purified businesses** into the rotating centrifuge.
5. Let your pet cat sniff at **4.49 ounces of agency**.
6. Put **4.25 spoonful of industry** into the freezer for a while.
7. Use the saw to slice **4.25 spoonful of cooled industry** into bits.
8. Retrieve the **21.74 ounces of ashes of "executive"** from the fireplace.
9. Stop the centrifuge and retrieve the **139.64 ounces of centrifuged mixture "purified business"**.
10. Dump the **4.25 spoonful of cooled and sliced industry, 4.49 ounces of agency, 21.74 ounces of ashes of "executive" and 139.64 ounces of centrifuged mixture "purified business"** into a pile on the floor.
11. Wait until they magically transform into a **corporation**.

57 A crackers

How to make a **crackers** in 10 easy steps:

57.1 Materials

- 4.91 spoonful of chili
- 47.52 ounces of animal
- 70.85 ounces of snack

57.2 Tools

- Stone
- Familiar ape
- Vessel
- Purifier
- Fireplace

57.3 Instructions

1. Stir the vessel.
2. Pet your familiar ape.
3. Hold **4.91 spoonful of chili** briefly into the fireplace to burn them a bit.
4. Hold **47.52 ounces of animal** briefly into the fireplace to burn them a bit.
5. Purify **47.52 ounces of slightly burned animal** with the purifier.
6. Let your familiar ape lick **47.52 ounces of slightly burned and purified animal**.
7. Crack **70.85 ounces of snack** with the stone.
8. Fan the flames of the fireplace.
9. Dump the **4.91 spoonful of slightly burned chili**, **47.52 ounces of slightly burned, purified and licked animal** and **70.85 ounces of cracked snack** into a pile on the floor.
10. Wait until they magically transform into a **crackers**.

58 A crescent

How to make a **crescent** in 6 easy steps:

58.1 Materials

- 3.17 ounces of twist

58.2 Tools

- Cauldron
- Centrifuge

58.3 Instructions

1. Let the cauldron cool down.
2. Stir the cauldron.
3. Put **3.17 ounces of twist** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **4.53 spoonful of centrifuged mixture "twist"**.
5. Dump the **4.53 spoonful of centrifuged mixture "twist"** into a pile on the floor.
6. Wait until they magically transform into a **crescent**.

59 A crest

How to make a **crest** in 10 easy steps:

59.1 Materials

- 29 toothpastes

59.2 Tools

- Vessel
- Stone
- Centrifuge

59.3 Instructions

1. Stir the vessel.
2. Smash **29 toothpastes** with the stone.
3. Put **29 smashed toothpastes** into the rotating centrifuge.
4. Stir the vessel.
5. Heat the vessel.
6. Let the vessel cool down.
7. Stir the vessel.
8. Stop the centrifuge and retrieve the **14.65 spoonful of centrifuged mixture "smashed toothpaste"**.
9. Dump the **14.65 spoonful of centrifuged mixture "smashed toothpaste"** into a pile on the floor.
10. Wait until they magically transform into a **crest**.

60 A crib

How to make a **crib** in 8 easy steps:

60.1 Materials

- 7 cradles
- 9.33 spoonful of baby
- 14.2 spoonful of bassinet

60.2 Tools

- Centrifuge
- Saw
- Purifier

60.3 Instructions

1. Put **14.2 spoonful of bassinet** into the rotating centrifuge.
2. Purify **7 cradles** with the purifier.
3. Wait for a rather short time.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **4.17 ounces of centrifuged mixture "bassinet"**.
6. Use the saw to slice **9.33 spoonful of baby** into bits.
7. Fold the **7 purified cradles**, **9.33 spoonful of sliced baby** and **4.17 ounces of centrifuged mixture "bassinet"** together using advanced origami techniques.
8. If you've done it correctly, it should result in a **crib**.

61 A cub

How to make a **cub** in 7 easy steps:

61.1 Materials

- 10 clear concepts of bear
- 2.79 ounces of lion
- 9.06 spoonful of scout

61.2 Tools

- Bonfire
- Bucket with clean liquid
- Glue

61.3 Instructions

1. Wait.
2. Dip **2.79 ounces of lion** into the bucket with clean liquid.
3. Hold **2.79 ounces of wet lion** briefly into the bonfire to burn them a bit.
4. Hold **10 clear concepts of bear** briefly into the bonfire to burn them a bit.
5. Put **10 slightly burned clear concepts of bear** into the bonfire.
6. Retrieve the **4.62 spoonful of ashes of "slightly burned bear"** from the bonfire.
7. Use glue to join the **2.79 ounces of wet and slightly burned lion, 9.06 spoonful of scout** and **4.62 spoonful of ashes of "slightly burned bear"** together into the shape of a usable **cub**.

62 A cue

How to make a **cue** in 5 easy steps:

62.1 Materials

- 8.41 ounces of signal
- 5.14 spoonful of hue

62.2 Tools

- Cauldron
- Centrifuge
- Nails

62.3 Instructions

1. Put **8.41 ounces of signal** into the rotating centrifuge.
2. Put **5.14 spoonful of hue** into the rotating centrifuge.
3. Heat the cauldron.
4. Stop the centrifuge and retrieve the **38.87 ounces of centrifuged mixture "signal and hue"**.
5. Use nails to join the **38.87 ounces of centrifuged mixture "signal and hue"** together into the form of a passable **cue**.

63 A cunning

How to make a **cunning** in 13 easy steps:

63.1 Materials

- 10 clear concepts of daring
- 7 ideas of being sly
- 9 wits
- 2.19 spoonful of out fox

63.2 Tools

- Fireplace
- Stone
- Bucket with hot water
- Centrifuge
- Container
- Freezer
- Familiar unicorn

63.3 Instructions

1. Dip **10 clear concepts of daring** into the bucket with hot water.
2. Put **10 wet clear concepts of daring** into the freezer for a while.
3. Smash **7 ideas of being sly** with the stone.
4. Heat the container.
5. Let your familiar unicorn lick **10 wet and cooled clear concepts of daring**.
6. Put **10 wet, cooled and licked clear concepts of daring** into the rotating centrifuge.
7. Hold **7 smashed ideas of being sly** briefly into the fireplace to burn them a bit.
8. Feed **2.19 spoonful of out fox** to your familiar unicorn.
9. Dip **7 smashed and slightly burned ideas of being sly** into the bucket with hot water.

10. Stop the centrifuge and retrieve the **19.71 spoonful of centrifuged mixture "wet, cooled and licked daring"**.
11. Wait until your familiar unicorn poops. Receive **2.79 spoonful of a very dirty pile of "out fox"**.
12. Dump the **7 smashed, slightly burned and wet ideas of being sly, 9 wits, 19.71 spoonful of centrifuged mixture "wet, cooled and licked daring"** and **2.79 spoonful of a very dirty pile of "out fox"** into a pile on the floor.
13. Wait until they magically transform into a **cunning**.

64 A custom

How to make a **custom** in 11 easy steps:

64.1 Materials

- 5 cultures
- 22.35 spoonful of tradition
- 6 rituals
- 7.81 ounces of belief

64.2 Tools

- Centrifuge
- Bonfire

64.3 Instructions

1. Put **7.81 ounces of belief** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Put **22.35 spoonful of tradition** into the bonfire.
4. Put **5 cultures** into the bonfire.
5. Hold **6 rituals** briefly into the bonfire to burn them a bit.
6. Speed up the centrifuge.
7. Fan the flames of the bonfire.
8. Stop the centrifuge and retrieve the **18.68 ounces of centrifuged mixture "belief"**.
9. Retrieve the **6.17 spoonful of ashes of "tradition and culture"** from the bonfire.
10. Fold the **6 slightly burned rituals, 18.68 ounces of centrifuged mixture "belief"** and **6.17 spoonful of ashes of "tradition and culture"** together using advanced origami techniques.
11. If you've done it correctly, it should result in a **custom**.

65 A cylinder

How to make a **cylinder** in 8 easy steps:

65.1 Materials

- 1 cube
- 18.03 ounces of cone
- 17 tubes

65.2 Tools

- Saw
- Centrifuge
- Bucket with clean liquid
- Freezer
- Glue

65.3 Instructions

1. Use the saw to slice **1 cube** into bits.
2. Dip **1 sliced cube** into the bucket with clean liquid.
3. Put **18.03 ounces of cone** into the rotating centrifuge.
4. Speed up the centrifuge.
5. Use the saw to slice **1 sliced and wet cube** into bits.
6. Put **17 tubes** into the freezer for a while.
7. Stop the centrifuge and retrieve the **181.28 ounces of centrifuged mixture "cone"**.
8. Use glue to join the **1 fragmented and wet cube, 17 cooled tubes** and **181.28 ounces of centrifuged mixture "cone"** together into the form of a beautiful **cylinder**.

66 A dandruff

How to make a **dandruff** in 10 easy steps:

66.1 Materials

- 6 clear concepts of flake
- 4.46 spoonful of flakes
- 3 scalps

66.2 Tools

- Saw
- Bonfire
- Purifier
- Freezer
- Centrifuge

66.3 Instructions

1. Put **3 scalps** into the rotating centrifuge.
2. Use the saw to slice **4.46 spoonful of flakes** into bits.
3. Speed up the centrifuge.
4. Purify **6 clear concepts of flake** with the purifier.
5. Stop the centrifuge and retrieve the **1.26 ounces of centrifuged mixture "scalp"**.
6. Put **4.46 spoonful of sliced flakes** into the freezer for a while.
7. Hold **6 purified clear concepts of flake** briefly into the bonfire to burn them a bit.
8. Fan the flames of the bonfire.
9. Fold the **6 purified and slightly burned clear concepts of flake, 4.46 spoonful of sliced and cooled flakes** and **1.26 ounces of centrifuged mixture "scalp"** together using advanced origami techniques.
10. If you've done it correctly, it should result in a **dandruff**.

67 A daring

How to make a **daring** in 7 easy steps:

67.1 Materials

- 13 courageousnesses
- 16.94 ounces of boldness
- 18.45 ounces of nerve
- 61.96 spoonful of adventure

67.2 Tools

- Centrifuge
- Container
- Bonfire

67.3 Instructions

1. Put **16.94 ounces of boldness** into the rotating centrifuge.
2. Wait for a second.
3. Hold **61.96 spoonful of adventure** briefly into the bonfire to burn them a bit.
4. Let the container cool down.
5. Stop the centrifuge and retrieve the **5.95 spoonful of centrifuged mixture "boldness"**.
6. Dump the **13 courageousnesses, 18.45 ounces of nerve, 61.96 spoonful of slightly burned adventure** and **5.95 spoonful of centrifuged mixture "boldness"** into a pile on the floor.
7. Wait until they magically transform into a **daring**.

68 A daughter

How to make a **daughter** in 11 easy steps:

68.1 Materials

- 4.05 spoonful of kid
- 6.75 spoonful of mother
- 5.75 spoonful of son
- 4.9 spoonful of niece

68.2 Tools

- Saw
- Bucket with ice-cold liquid
- Screws

68.3 Instructions

1. Dip **4.05 spoonful of kid** into the bucket with ice-cold liquid.
2. Use the saw to slice **6.75 spoonful of mother** into bits.
3. Wait.
4. Dip **6.75 spoonful of sliced mother** into the bucket with ice-cold liquid.
5. Use the saw to slice **5.75 spoonful of son** into bits.
6. Wait.
7. Dip **4.9 spoonful of niece** into the bucket with ice-cold liquid.
8. Use the saw to slice **6.75 spoonful of sliced and wet mother** into bits.
9. Throw **4.05 spoonful of wet kid** away.
10. Wait for a rather short time.
11. Use screws to join the **6.75 spoonful of fragmented and wet mother**, **5.75 spoonful of sliced son** and **4.9 spoonful of wet niece** together into the form of a perfectly functional **daughter**.

69 A designer

How to make a **designer** in 12 easy steps:

69.1 Materials

- 7 labels
- 6 architects
- 3.67 spoonful of fashion
- 5 ideas of being interior

69.2 Tools

- Freezer
- Container
- Centrifuge
- Saw
- Ballpoint pen

69.3 Instructions

1. Heat the container.
2. Let the container cool down.
3. Put **6 architects** into the freezer for a while.
4. Stir the container.
5. Use the saw to slice **3.67 spoonful of fashion** into bits.
6. Heat the container.
7. Put **7 labels** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **7.53 ounces of centrifuged mixture "label"**.
9. Draw a magic circle on the floor using the ballpoint pen.
10. Draw a cross into the circle and place **6 cooled architects, 3.67 spoonful of sliced fashion, 5 ideas of being interior** and **7.53 ounces of centrifuged mixture "label"** on each corner.
11. Intone the following spell: "Adrius judismus!"
12. Reluctantly, a **designer** will appear inside the circle.

70 A desire

How to make a **desire** in 12 easy steps:

70.1 Materials

- 47.43 spoonful of yearner
- 54.0 ounces of goal
- 1.05 ounces of instinct
- 3 clear concepts of crave

70.2 Tools

- Bonfire
- Centrifuge
- Purifier
- Freezer
- Bucket with ionised water

70.3 Instructions

1. Purify **1.05 ounces of instinct** with the purifier.
2. Dip **3 clear concepts of crave** into the bucket with ionised water.
3. Hold **47.43 spoonful of yearner** briefly into the bonfire to burn them a bit.
4. Fan the flames of the bonfire.
5. Put **54.0 ounces of goal** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Put **47.43 spoonful of slightly burned yearner** into the freezer for a while.
8. Stop the centrifuge and retrieve the **6.24 ounces of centrifuged mixture "goal"**.
9. Fan the flames of the bonfire.
10. Hold **1.05 ounces of purified instinct** briefly into the bonfire to burn them a bit.

11. Dump the **47.43 spoonful of slightly burned and cooled yearner, 1.05 ounces of purified and slightly burned instinct, 3 wet clear concepts of crave** and **6.24 ounces of centrifuged mixture "goal"** into a pile on the floor.
12. Wait until they magically transform into a **desire**.

71 A development

How to make a **development** in 8 easy steps:

71.1 Materials

- 8.58 ounces of growth
- 9 communities
- 5 phases

71.2 Tools

- Fireplace
- Mortar
- Vessel
- Pet mouse

71.3 Instructions

1. Pet your pet mouse.
2. Let your pet mouse sniff at **8.58 ounces of growth**.
3. Heat the vessel.
4. Put **9 communities** into the fireplace.
5. Crack **5 phases** with the mortar.
6. Retrieve the **5.15 spoonful of ashes of "community"** from the fireplace.
7. Fold the **8.58 ounces of growth**, **5 cracked phases** and **5.15 spoonful of ashes of "community"** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **development**.

72 A device

How to make a **device** in 10 easy steps:

72.1 Materials

- 3 components

72.2 Tools

- Stone
- Fireplace
- Centrifuge

72.3 Instructions

1. Hold **3 components** briefly into the fireplace to burn them a bit.
2. Put **3 slightly burned components** into the fireplace.
3. Retrieve the **9.57 ounces of ashes of "slightly burned component"** from the fireplace.
4. Wait.
5. Smash **9.57 ounces of ashes of "slightly burned component"** with the stone.
6. Put **9.57 ounces of smashed ashes of "slightly burned component"** into the rotating centrifuge.
7. Fan the flames of the fireplace.
8. Stop the centrifuge and retrieve the **8.03 spoonful of centrifuged mixture "smashed ashes of "slightly burned component"."**
9. Dump the **8.03 spoonful of centrifuged mixture "smashed ashes of "slightly burned component"."** into a pile on the floor.
10. Wait until they magically transform into a **device**.

73 A dictionary

How to make a **dictionary** in 9 easy steps:

73.1 Materials

- 9.32 ounces of encyclopedia
- 2 words
- 17.96 ounces of atlas
- 8 anisettes

73.2 Tools

- Bonfire
- Stone
- Centrifuge
- Bucket with ice-cold water
- Glue

73.3 Instructions

1. Hold **8 anisettes** briefly into the bonfire to burn them a bit.
2. Put **2 words** into the rotating centrifuge.
3. Hold **17.96 ounces of atlas** briefly into the bonfire to burn them a bit.
4. Dip **17.96 ounces of slightly burned atlas** into the bucket with ice-cold water.
5. Smash **9.32 ounces of encyclopedia** with the stone.
6. Wait.
7. Hold **17.96 ounces of slightly burned and wet atlas** briefly into the bonfire to burn them a bit.
8. Stop the centrifuge and retrieve the **5.83 spoonful of centrifuged mixture "word"**.
9. Use glue to join the **9.32 ounces of smashed encyclopedia, 17.96 ounces of burned and wet atlas, 8 slightly burned anisettes and 5.83 spoonful of centrifuged mixture "word"** together into the form of a passable **dictionary**.

74 A difficulty

How to make a **difficulty** in 7 easy steps:

74.1 Materials

- 7.55 spoonful of problem
- 18.96 spoonful of difference

74.2 Tools

- Centrifuge
- Hammer
- Fireplace
- Container
- Nails

74.3 Instructions

1. Put **7.55 spoonful of problem** into the rotating centrifuge.
2. Wait for a day.
3. Crack **18.96 spoonful of difference** with the hammer.
4. Fan the flames of the fireplace.
5. Stir the container.
6. Stop the centrifuge and retrieve the **18.73 spoonful of centrifuged mixture "problem"**.
7. Use nails to join the **18.96 spoonful of cracked difference** and **18.73 spoonful of centrifuged mixture "problem"** together into the shape of a usable **difficulty**.

75 A dislike

How to make a **dislike** in 16 easy steps:

75.1 Materials

- 13.72 ounces of likeness
- 12 vague notions of hate
- 6 renunciations
- 6 disregards

75.2 Tools

- Pet ape
- Hammer
- Cauldron
- Graphite pencil

75.3 Instructions

1. Let the cauldron cool down.
2. Heat the cauldron.
3. Feed **6 disregards** to your pet ape.
4. Crack **12 vague notions of hate** with the hammer.
5. Put **6 renunciations** into the cauldron.
6. Wait.
7. Crack **13.72 ounces of likeness** with the hammer.
8. Put **12 cracked vague notions of hate** into the cauldron.
9. Let your pet ape sniff at **13.72 ounces of cracked likeness**.
10. Feed **13.72 ounces of cracked likeness** to your pet ape.
11. Wait until your pet ape poops. Receive **2.48 spoonful of a very dirty pile of "disregard and cracked likeness"**.
12. Pour out the mixture from the cauldron to get the **9.5 ounces of cauldron mixture "renunciation and cracked hate"**.
13. Draw a magic circle on the floor using the graphite pencil.

14. Draw a line into the circle and place **2.48 spoonful of a very dirty pile of "disregard and cracked likeness"** and **9.5 ounces of cauldron mixture "renunciation and cracked hate"** on each end.
15. Intone the following spell: "Quentexter baal parium lausabilatio inditum! Ause turus eleberna!"
16. Reluctantly, a **dislike** will appear inside the circle.

76 A doorway

How to make a **doorway** in 10 easy steps:

76.1 Materials

- 5.61 ounces of threshold
- 291.72 ounces of passage
- 10 hallways
- 84.38 spoonful of entrance

76.2 Tools

- Vessel
- Purifier
- Fireplace
- Stone
- Pet chinchilla

76.3 Instructions

1. Heat the vessel.
2. Smash **5.61 ounces of threshold** with the stone.
3. Put **10 hallways** into the fireplace.
4. Purify **84.38 spoonful of entrance** with the purifier.
5. Put **291.72 ounces of passage** into the fireplace.
6. Feed **5.61 ounces of smashed threshold** to your pet chinchilla.
7. Retrieve the **10.81 ounces of ashes of "hallway and passage"** from the fireplace.
8. Wait until your pet chinchilla poops. Receive **8.83 spoonful of a very dirty pile of "smashed threshold"**.
9. Fold the **84.38 spoonful of purified entrance**, **10.81 ounces of ashes of "hallway and passage"** and **8.83 spoonful of a very dirty pile of "smashed threshold"** together using advanced origami techniques.
10. If you've done it correctly, it might result in a **doorway**.

77 A dorm

How to make a **dorm** in 8 easy steps:

77.1 Materials

- 27.71 spoonful of norm
- 3 ideas of living
- 7 hallways
- 13.79 spoonful of roommate

77.2 Tools

- Centrifuge
- Bucket with clean water
- Bonfire

77.3 Instructions

1. Put **3 ideas of living** into the rotating centrifuge.
2. Put **27.71 spoonful of norm** into the bonfire.
3. Dip **7 hallways** into the bucket with clean water.
4. Hold **7 wet hallways** briefly into the bonfire to burn them a bit.
5. Stop the centrifuge and retrieve the **1.97 ounces of centrifuged mixture "living"**.
6. Retrieve the **3.59 ounces of ashes of "norm"** from the bonfire.
7. Dump the **7 wet and slightly burned hallways**, **13.79 spoonful of roommate**, **1.97 ounces of centrifuged mixture "living"** and **3.59 ounces of ashes of "norm"** into a pile on the floor.
8. Wait until they magically transform into a **dorm**.

78 A dracula

How to make a **dracula** in 13 easy steps:

78.1 Materials

- 7 clear concepts of count
- 7.06 spoonful of mansion
- 15.8 ounces of monster

78.2 Tools

- Hammer
- Centrifuge
- Fireplace
- Tape

78.3 Instructions

1. Hold **15.8 ounces of monster** briefly into the fireplace to burn them a bit.
2. Put **7 clear concepts of count** into the fireplace.
3. Put **7.06 spoonful of mansion** into the rotating centrifuge.
4. Crack **15.8 ounces of slightly burned monster** with the hammer.
5. Smash **15.8 ounces of slightly burned and cracked monster** with the hammer.
6. Wait.
7. Stop the centrifuge and retrieve the **8.44 spoonful of centrifuged mixture "mansion"**.
8. Hold **15.8 ounces of slightly burned, cracked and smashed monster** briefly into the fireplace to burn them a bit.
9. Put **8.44 spoonful of centrifuged mixture "mansion"** into the rotating centrifuge.
10. Smash **15.8 ounces of burned, cracked and smashed monster** with the hammer.
11. Stop the centrifuge and retrieve the **9.85 ounces of centrifuged mixture "centrifuged mixture "mansion" "**.

12. Retrieve the **37.31 spoonful of ashes of "count"** from the fireplace.
13. Use tape to join the **15.8 ounces of burned, cracked and pulverized monster, 9.85 ounces of centrifuged mixture "centrifuged mixture "mansion" and 37.31 spoonful of ashes of "count"** together into the form of a beautiful **dracula**.

79 A drop

How to make a **drop** in 12 easy steps:

79.1 Materials

- 14.49 spoonful of pick up
- 6 vague notions of dump
- 10 clear concepts of handle
- 28 vague notions of fell

79.2 Tools

- Freezer
- Bucket with hot water

79.3 Instructions

1. Dip **14.49 spoonful of pick up** into the bucket with hot water.
2. Put **14.49 spoonful of wet pick up** into the freezer for a while.
3. Wait for a very short time.
4. Dip **14.49 spoonful of wet and cooled pick up** into the bucket with hot water.
5. Throw **10 clear concepts of handle** away.
6. Put **6 vague notions of dump** into the freezer for a while.
7. Wait.
8. Pick up **6 cooled vague notions of dump**. Turn them around. Look at them from every every side. Nod satisfied. Put them back.
9. Dip **28 vague notions of fell** into the bucket with hot water.
10. Wait for a rather short time.
11. Dump the **14.49 spoonful of very wet and cooled pick up**, **6 cooled vague notions of dump** and **28 wet vague notions of fell** into a pile on the floor.
12. Wait until they magically transform into a **drop**.

80 A dune

How to make a **dune** in 11 easy steps:

80.1 Materials

- 37.37 spoonful of sand
- 8.73 ounces of buggy

80.2 Tools

- Mortar
- Bucket with ionised water
- Cauldron
- Crayon

80.3 Instructions

1. Dip **8.73 ounces of buggy** into the bucket with ionised water.
2. Stir the cauldron.
3. Wait for a very short time.
4. Put **8.73 ounces of wet buggy** into the cauldron.
5. Crack **37.37 spoonful of sand** with the mortar.
6. Let the cauldron cool down.
7. Pour out the mixture from the cauldron to get the **9.98 ounces of cauldron mixture "wet buggy"**.
8. Draw a magic circle on the floor using the crayon.
9. Draw a line into the circle and place **37.37 spoonful of cracked sand** and **9.98 ounces of cauldron mixture "wet buggy"** on each end.
10. Intone the following spell: "Foedies dynaeviger poenum cunctium vaccus!"
11. Slowly, a **dune** will appear inside the circle.

81 A dustpan

How to make a **dustpan** in 12 easy steps:

81.1 Materials

- 2 brooms

81.2 Tools

- Hammer
- Container
- Fireplace
- Familiar hummingbird

81.3 Instructions

1. Hold **2 brooms** briefly into the fireplace to burn them a bit.
2. Let your familiar hummingbird lick **2 slightly burned brooms**.
3. Put **2 slightly burned and licked brooms** into the container.
4. Stir the container.
5. Pet your familiar hummingbird.
6. Heat the container.
7. Fan the flames of the fireplace.
8. Pour out the mixture from the container to get the **1.6 ounces of container mixture "slightly burned and licked broom"**.
9. Smash **1.6 ounces of container mixture "slightly burned and licked broom"** with the hammer.
10. Heat the container.
11. Fold the **1.6 ounces of smashed container mixture "slightly burned and licked broom"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **dustpan**.

82 A dwarf

How to make a **dwarf** in 9 easy steps:

82.1 Materials

- 10.01 ounces of dope
- 7.92 ounces of midget
- 29.46 spoonful of elf
- 4 vague notions of being sleepy

82.2 Tools

- Mortar
- Bucket with ionised liquid
- Purifier
- Nails

82.3 Instructions

1. Purify **7.92 ounces of midget** with the purifier.
2. Crack **10.01 ounces of dope** with the mortar.
3. Dip **29.46 spoonful of elf** into the bucket with ionised liquid.
4. Purify **10.01 ounces of cracked dope** with the purifier.
5. Smash **4 vague notions of being sleepy** with the mortar.
6. Dip **29.46 spoonful of wet elf** into the bucket with ionised liquid.
7. Purify **4 smashed vague notions of being sleepy** with the purifier.
8. Crack **29.46 spoonful of very wet elf** with the mortar.
9. Use nails to join the **10.01 ounces of cracked and purified dope, 7.92 ounces of purified midget, 29.46 spoonful of very wet and cracked elf** and **4 smashed and purified vague notions of being sleepy** together into the form of a perfectly functional **dwarf**.

83 An early

How to make an **early** in 8 easy steps:

83.1 Materials

- 2 clear concepts of being tardy
- 3 sunrises
- 2 dismissals
- 2 vague notions of being recent

83.2 Tools

- Stone
- Bucket with hot liquid

83.3 Instructions

1. Wait for a very long time.
2. Dip **2 vague notions of being recent** into the bucket with hot liquid.
3. Pick up **2 clear concepts of being tardy**. Turn them around. Look at them from every every side. Nod satisfied. Put them back.
4. Smash **2 clear concepts of being tardy** with the stone.
5. Dip **3 sunrises** into the bucket with hot liquid.
6. Wait.
7. Dump the **2 smashed clear concepts of being tardy**, **3 wet sunrises**, **2 dismissals** and **2 wet vague notions of being recent** into a pile on the floor.
8. Wait until they magically transform into an **early**.

84 An element

How to make an **element** in 10 easy steps:

84.1 Materials

- 20.98 spoonful of chemical
- 2.87 ounces of oxygen
- 3.21 ounces of trace
- 4.95 ounces of atom

84.2 Tools

- Freezer
- Bucket with ice-cold water
- Purifier
- Glue

84.3 Instructions

1. Dip **20.98 spoonful of chemical** into the bucket with ice-cold water.
2. Put **3.21 ounces of trace** into the freezer for a while.
3. Purify **2.87 ounces of oxygen** with the purifier.
4. Dip **3.21 ounces of cooled trace** into the bucket with ice-cold water.
5. Wait.
6. Purify **20.98 spoonful of wet chemical** with the purifier.
7. Grind a little bit of unicorn horn to dust and add it. It's not strictly needed, but doesn't hurt I guess?
8. Wait.
9. Dip **3.21 ounces of cooled and wet trace** into the bucket with ice-cold water.
10. Use glue to join the **20.98 spoonful of wet and purified chemical, 2.87 ounces of purified oxygen, 3.21 ounces of cooled and very wet trace** and **4.95 ounces of atom** together into the form of a usable **element**.

85 An empire

How to make an **empire** in 11 easy steps:

85.1 Materials

- 8.02 spoonful of building
- 8 ideas of build
- 18 dynasties
- 1 umpire

85.2 Tools

- Saw
- Bonfire
- Purifier
- Silverpoint pen

85.3 Instructions

1. Put **8.02 spoonful of building** into the bonfire.
2. Fan the flames of the bonfire.
3. Put **8 ideas of build** into the bonfire.
4. Hold **1 umpire** briefly into the bonfire to burn it a bit.
5. Purify **1 slightly burned umpire** with the purifier.
6. Use the saw to slice **18 dynasties** into bits.
7. Retrieve the **9.47 spoonful of ashes of "building and build"** from the bonfire.
8. Draw a magic circle on the floor using the silverpoint pen.
9. Draw a triangle into the circle and place **18 sliced dynasties, 1 slightly burned and purified umpire** and **9.47 spoonful of ashes of "building and build"** on each corner.
10. Whisper the following spell: "Eticiatio detenula viralis muleus, contia! Emorpusso baptus! Decula! Blanulum!"
11. Reluctantly, an **empire** will appear inside the circle.

86 An enemy

How to make an **enemy** in 16 easy steps:

86.1 Materials

- 1.26 spoonful of adversary
- 2 friends
- 5.81 ounces of friendliness
- 170 communists

86.2 Tools

- Vessel
- Bonfire
- Stone
- Centrifuge
- Freezer
- Electric paint

86.3 Instructions

1. Put **2 friends** into the vessel.
2. Put **5.81 ounces of friendliness** into the freezer for a while.
3. Put **170 communists** into the bonfire.
4. Put **1.26 spoonful of adversary** into the rotating centrifuge.
5. Stir the vessel.
6. Heat the vessel.
7. Smash **5.81 ounces of cooled friendliness** with the stone.
8. Wait.
9. Stir the vessel.
10. Pour out the mixture from the vessel to get the **3.88 ounces of vessel mixture "friend"**.
11. Retrieve the **8.97 ounces of ashes of "communist"** from the bonfire.

12. Stop the centrifuge and retrieve the **10.29 ounces of centrifuged mixture "adversary"**.
13. Draw a magic circle on the floor using the electric paint.
14. Draw a cross into the circle and place **5.81 ounces of cooled and smashed friendliness**, **3.88 ounces of vessel mixture "friend"**, **8.97 ounces of ashes of "communist"** and **10.29 ounces of centrifuged mixture "adversary"** on each corner.
15. Intone the following spell: "Soricus!"
16. Reluctantly, an **enemy** will appear inside the circle.

87 An entrance

How to make an **entrance** in 6 easy steps:

87.1 Materials

- 11.67 spoonful of lobby
- 1.86 ounces of passage
- 11 inlets
- 8.52 ounces of doorway

87.2 Tools

- Fireplace
- Stone
- Tape

87.3 Instructions

1. Put **1.86 ounces of passage** into the fireplace.
2. Smash **8.52 ounces of doorway** with the stone.
3. Wait.
4. Throw **11.67 spoonful of lobby**, **8.52 ounces of smashed doorway** and **11 inlets** away.
5. Retrieve the **6.81 spoonful of ashes of "passage"** from the fireplace.
6. Use tape to join the **6.81 spoonful of ashes of "passage"** together into the shape of a passable **entrance**.

88 An excedrin

How to make an **excedrin** in 9 easy steps:

88.1 Materials

- 2 tylenols
- 8 reliefs

88.2 Tools

- Bonfire
- Centrifuge
- Freezer

88.3 Instructions

1. Hold **8 reliefs** briefly into the bonfire to burn them a bit.
2. Put **2 tylenols** into the freezer for a while.
3. Put **2 cooled tylenols** into the bonfire.
4. Retrieve the **2.35 ounces of ashes of "cooled tylenol"** from the bonfire.
5. Put **8 slightly burned reliefs** into the rotating centrifuge.
6. Fan the flames of the bonfire.
7. Stop the centrifuge and retrieve the **8.86 spoonful of centrifuged mixture "slightly burned relief"**.
8. Dump the **2.35 ounces of ashes of "cooled tylenol"** and **8.86 spoonful of centrifuged mixture "slightly burned relief"** into a pile on the floor.
9. Wait until they magically transform into an **excedrin**.

89 An extremity

How to make an **extremity** in 9 easy steps:

89.1 Materials

- 36 limbs

89.2 Tools

- Mortar
- Bonfire
- Tape

89.3 Instructions

1. Hold **36 limbs** briefly into the bonfire to burn them a bit.
2. Wait.
3. Put **36 slightly burned limbs** into the bonfire.
4. Fan the flames of the bonfire.
5. Retrieve the **26.22 spoonful of ashes of "slightly burned limb"** from the bonfire.
6. Hold **26.22 spoonful of ashes of "slightly burned limb"** briefly into the bonfire to burn them a bit.
7. Crack **26.22 spoonful of slightly burned ashes of "slightly burned limb"** with the mortar.
8. Fan the flames of the bonfire.
9. Use tape to join the **26.22 spoonful of slightly burned and cracked ashes of "slightly burned limb"** together into the shape of a beautiful **extremity**.

90 A facts

How to make a **facts** in 7 easy steps:

90.1 Materials

- 8.82 ounces of statistics
- 73.01 spoonful of consideration
- 4.15 spoonful of proof
- 12.09 spoonful of almanac

90.2 Tools

- Container
- Freezer
- Nails

90.3 Instructions

1. Put **12.09 spoonful of almanac** into the container.
2. Pour out the mixture from the container to get the **27.95 spoonful of container mixture "almanac"**.
3. Put **73.01 spoonful of consideration** into the freezer for a while.
4. Put **73.01 spoonful of cooled consideration** into the container.
5. Stir the container.
6. Pour out the mixture from the container to get the **3.92 spoonful of container mixture "cooled consideration"**.
7. Use nails to join the **8.82 ounces of statistics**, **4.15 spoonful of proof**, **27.95 spoonful of container mixture "almanac"** and **3.92 spoonful of container mixture "cooled consideration"** together into the form of a usable **facts**.

91 A famine

How to make a **famine** in 11 easy steps:

91.1 Materials

- 16.24 ounces of abundance
- 7.15 ounces of feast
- 9.7 spoonful of scarcity

91.2 Tools

- Bonfire
- Purifier
- Freezer
- Centrifuge
- Bucket with liquid
- Vessel

91.3 Instructions

1. Put **9.7 spoonful of scarcity** into the freezer for a while.
2. Put **7.15 ounces of feast** into the vessel.
3. Dip **9.7 spoonful of cooled scarcity** into the bucket with liquid.
4. Hold **16.24 ounces of abundance** briefly into the bonfire to burn them a bit.
5. Purify **9.7 spoonful of cooled and wet scarcity** with the purifier.
6. Put **16.24 ounces of slightly burned abundance** into the freezer for a while.
7. Put **16.24 ounces of slightly burned and cooled abundance** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **9.01 spoonful of centrifuged mixture "slightly burned and cooled abundance"**.
9. Pour out the mixture from the vessel to get the **3.76 spoonful of vessel mixture "feast"**.

10. Fold the **9.7 spoonful of cooled, wet and purified scarcity**, **9.01 spoonful of centrifuged mixture "slightly burned and cooled abundance"** and **3.76 spoonful of vessel mixture "feast"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **famine**.

92 A feed

How to make a **feed** in 9 easy steps:

92.1 Materials

- 2.12 ounces of spoon
- 8.15 ounces of starvation

92.2 Tools

- Bucket with clean liquid
- Purifier
- Saw
- Nails

92.3 Instructions

1. Wait.
2. Purify **2.12 ounces of spoon** with the purifier.
3. Dip **8.15 ounces of starvation** into the bucket with clean liquid.
4. Use the saw to slice **8.15 ounces of wet starvation** into bits.
5. Wait.
6. Pick up **2.12 ounces of purified spoon**. Turn them around. Look at them from every every side. Shake your head dissatisfied. Put them back.
7. Dip **8.15 ounces of wet and sliced starvation** into the bucket with clean liquid.
8. Use the saw to slice **2.12 ounces of purified spoon** into bits.
9. Use nails to join the **2.12 ounces of purified and sliced spoon** and **8.15 ounces of very wet and sliced starvation** together into the shape of a passable **feed**.

93 A fiber

How to make a **fiber** in 9 easy steps:

93.1 Materials

- 27.91 ounces of carbon
- 23 brans
- 4.5 ounces of rope
- 1.32 spoonful of irregularity

93.2 Tools

- Bonfire
- Centrifuge
- Stone

93.3 Instructions

1. Crack **1.32 spoonful of irregularity** with the stone.
2. Wait for a very long time.
3. Put **4.5 ounces of rope** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **6.3 ounces of centrifuged mixture "rope"**.
5. Put **6.3 ounces of centrifuged mixture "rope"** into the bonfire.
6. Crack **23 brans** with the stone.
7. Retrieve the **2.75 ounces of ashes of "centrifuged mixture "rope"** from the bonfire.
8. Fold the **27.91 ounces of carbon, 23 cracked brans, 1.32 spoonful of cracked irregularity** and **2.75 ounces of ashes of "centrifuged mixture "rope"** together using advanced origami techniques.
9. If you've done it correctly, it should result in a **fiber**.

94 Flu

How to make **flu** in 11 easy steps:

94.1 Materials

- 6 viruses
- 6 ideas of being cold
- 6.72 ounces of fever
- 11.79 spoonful of germ

94.2 Tools

- Centrifuge
- Fireplace
- Container
- Freezer
- Glue

94.3 Instructions

1. Hold **6.72 ounces of fever** briefly into the fireplace to burn them a bit.
2. Put **11.79 spoonful of germ** into the rotating centrifuge.
3. Let the container cool down.
4. Put **6 viruses** into the freezer for a while.
5. Heat the container.
6. Put **6 cooled viruses** into the container.
7. Pour out the mixture from the container to get the **1.95 spoonful of container mixture "cooled virus"**.
8. Put **6.72 ounces of slightly burned fever** into the fireplace.
9. Stop the centrifuge and retrieve the **4.84 spoonful of centrifuged mixture "germ"**.
10. Retrieve the **21.86 ounces of ashes of "slightly burned fever"** from the fireplace.

11. Use glue to join the **6 ideas of being cold**, **1.95 spoonful of container mixture "cooled virus"**, **4.84 spoonful of centrifuged mixture "germ"** and **21.86 ounces of ashes of "slightly burned fever"** together into the form of a passable **flu**.

95 A freckle

How to make a **freckle** in 9 easy steps:

95.1 Materials

- 3.11 ounces of mole

95.2 Tools

- Fireplace
- Mortar
- Purifier
- Silverpoint pen

95.3 Instructions

1. Hold **3.11 ounces of mole** briefly into the fireplace to burn them a bit.
2. Purify **3.11 ounces of slightly burned mole** with the purifier.
3. Hold **3.11 ounces of slightly burned and purified mole** briefly into the fireplace to burn them a bit.
4. Smash **3.11 ounces of burned and purified mole** with the mortar.
5. Crack **3.11 ounces of burned, purified and smashed mole** with the mortar.
6. Draw a magic circle on the floor using the silverpoint pen.
7. Place **3.11 ounces of burned, purified, smashed and cracked mole** into the circle.
8. Chant the following spell: "Pedentiatio fer invium sexus mediganus! Compa nominalicus peringero! Axis crucia adfectitus! Convoveo! Lamolio servio!"
9. Reluctantly, a **freckle** will appear inside the circle.

96 A freeway

How to make a **freeway** in 8 easy steps:

96.1 Materials

- 6.81 spoonful of parkway
- 3 ideas of being interstate
- 8.26 ounces of highway

96.2 Tools

- Fireplace
- Cauldron
- Nails

96.3 Instructions

1. Heat the cauldron.
2. Wait for 3 days.
3. Stir the cauldron.
4. Let the cauldron cool down.
5. Hold **3 ideas of being interstate** briefly into the fireplace to burn them a bit.
6. Put **6.81 spoonful of parkway** into the cauldron.
7. Pour out the mixture from the cauldron to get the **2.88 ounces of cauldron mixture "parkway"**.
8. Use nails to join the **3 slightly burned ideas of being interstate**, **8.26 ounces of highway** and **2.88 ounces of cauldron mixture "parkway"** together into the form of a perfectly functional **freeway**.

97 A friends

How to make a **friends** in 13 easy steps:

97.1 Materials

- 9.54 ounces of together
- 27.17 spoonful of two
- 10 vague notions of being welcome
- 2.84 spoonful of traitor

97.2 Tools

- Cauldron
- Bonfire
- Saw
- Purifier
- Bucket with ionised water
- Silverpoint pen

97.3 Instructions

1. Let the cauldron cool down.
2. Use the saw to slice **9.54 ounces of together** into bits.
3. Dip **27.17 spoonful of two** into the bucket with ionised water.
4. Purify **27.17 spoonful of wet two** with the purifier.
5. Let the cauldron cool down.
6. Put **10 vague notions of being welcome** into the cauldron.
7. Heat the cauldron.
8. Fan the flames of the bonfire.
9. Pour out the mixture from the cauldron to get the **40.68 ounces of cauldron mixture "being welcome"**.
10. Draw a magic circle on the floor using the silverpoint pen.

11. Draw a cross into the circle and place **9.54 ounces of sliced together, 27.17 spoonful of wet and purified two, 2.84 spoonful of traitor** and **40.68 ounces of cauldron mixture "being welcome"** on each corner.
12. Intone the following spell: "Commodalis caudatio pitio pitas conjectus!"
13. Slowly, a **friends** will appear inside the circle.

98 A fumes

How to make a **fumes** in 9 easy steps:

98.1 Materials

- 2.89 ounces of vapor

98.2 Tools

- Centrifuge
- Fireplace
- Pet cat
- Nails

98.3 Instructions

1. Put **2.89 ounces of vapor** into the rotating centrifuge.
2. Wait.
3. Fan the flames of the fireplace.
4. Pet your pet cat.
5. Wait for 6 hours.
6. Speed up the centrifuge.
7. Pet your pet cat.
8. Stop the centrifuge and retrieve the **2.44 spoonful of centrifuged mixture "vapor"**.
9. Use nails to join the **2.44 spoonful of centrifuged mixture "vapor"** together into the shape of a perfectly functional **fumes**.

99 A fund

How to make a **fund** in 6 easy steps:

99.1 Materials

- 1.25 spoonful of donation
- 3.8 ounces of campaign
- 4.05 ounces of relief
- 36.15 spoonful of trust

99.2 Tools

- Saw
- Mortar
- Fireplace
- Purifier
- Glue

99.3 Instructions

1. Crack **1.25 spoonful of donation** with the mortar.
2. Purify **1.25 spoonful of cracked donation** with the purifier.
3. Wait.
4. Use the saw to slice **1.25 spoonful of cracked and purified donation** into bits.
5. Fan the flames of the fireplace.
6. Use glue to join the **1.25 spoonful of cracked, purified and sliced donation, 3.8 ounces of campaign, 4.05 ounces of relief and 36.15 spoonful of trust** together into the shape of a passable **fund**.

100 A gain

How to make a **gain** in 12 easy steps:

100.1 Materials

- 26.83 spoonful of accumulation
- 10 vague notions of prosper
- 17 harvests
- 7 benefits

100.2 Tools

- Bucket with hot water
- Container
- Bonfire
- Saw
- Ballpoint pen

100.3 Instructions

1. Use the saw to slice **17 harvests** into bits.
2. Fan the flames of the bonfire.
3. Put **26.83 spoonful of accumulation** into the container.
4. Put **10 vague notions of prosper** into the bonfire.
5. Hold **17 sliced harvests** briefly into the bonfire to burn them a bit.
6. Pour out the mixture from the container to get the **5.18 spoonful of container mixture "accumulation"**.
7. Dip **5.18 spoonful of container mixture "accumulation"** into the bucket with hot water.
8. Retrieve the **3.53 ounces of ashes of "prosper"** from the bonfire.
9. Draw a magic circle on the floor using the ballpoint pen.
10. Draw a cross into the circle and place **17 sliced and slightly burned harvests, 7 benefits, 5.18 spoonful of wet container mixture "accumulation"** and **3.53 ounces of ashes of "prosper"** on each corner.
11. Whisper the following spell: "Fundum protenalis remordarius, aviaris!"
12. Slowly, a **gain** will appear inside the circle.

101 A games

How to make a **games** in 15 easy steps:

101.1 Materials

- 2 ideas of being fair
- 4 olympic
- 10 number
- 6.64 spoonful of toys

101.2 Tools

- Centrifuge
- Hammer
- Cauldron
- Familiar cat

101.3 Instructions

1. Put **6.64 spoonful of toys** into the rotating centrifuge.
2. Crack **2 ideas of being fair** with the hammer.
3. Stir the cauldron.
4. Feed **4 olympic** to your familiar cat.
5. Heat the cauldron.
6. Let your familiar cat sniff at **2 cracked ideas of being fair**.
7. Pet your familiar cat.
8. Put **2 cracked ideas of being fair** into the rotating centrifuge.
9. Let your familiar cat sniff at **10 number**.
10. Put **10 number** into the cauldron.
11. Stop the centrifuge and retrieve the **4.01 ounces of centrifuged mixture "toys and cracked being fair"**.
12. Pour out the mixture from the cauldron to get the **8.24 spoonful of cauldron mixture "numbers"**.

13. Wait until your familiar cat poops. Receive **6.96 spoonful of a very dirty pile of "olympics"**.
14. Fold the **4.01 ounces of centrifuged mixture "toys and cracked being fair"**, **8.24 spoonful of cauldron mixture "numbers"** and **6.96 spoonful of a very dirty pile of "olympics"** together using advanced origami techniques.
15. If you've done it correctly, it could result in a **games**.

102 Glass

How to make **glass** in 13 easy steps:

102.1 Materials

- 15.77 spoonful of windshield
- 54.09 ounces of brandy
- 9.43 spoonful of tablet
- 3.74 ounces of shield

102.2 Tools

- Saw
- Hammer
- Centrifuge
- Bonfire

102.3 Instructions

1. Hold **54.09 ounces of brandy** briefly into the bonfire to burn them a bit.
2. Put **15.77 spoonful of windshield** into the bonfire.
3. Use the saw to slice **9.43 spoonful of tablet** into bits.
4. Retrieve the **5.46 spoonful of ashes of "windshield"** from the bonfire.
5. Hold **5.46 spoonful of ashes of "windshield"** briefly into the bonfire to burn them a bit.
6. Use the saw to slice **9.43 spoonful of sliced tablet** into bits.
7. Hold **54.09 ounces of slightly burned brandy** briefly into the bonfire to burn them a bit.
8. Put **3.74 ounces of shield** into the rotating centrifuge.
9. Fan the flames of the bonfire.
10. Smash **5.46 spoonful of slightly burned ashes of "windshield"** with the hammer.
11. Stop the centrifuge and retrieve the **3.45 spoonful of centrifuged mixture "shield"**.

12. Dump the **54.09 ounces of burned brandy**, **9.43 spoonful of fragmented tablet**, **5.46 spoonful of slightly burned and smashed ashes of "windshield"** and **3.45 spoonful of centrifuged mixture "shield"** into a pile on the floor.
13. Wait until they magically transform into **glass**.

103 A glory

How to make a **glory** in 13 easy steps:

103.1 Materials

- 4 triumphs
- 1 fame
- 6 mornings
- 9.7 ounces of valor

103.2 Tools

- Centrifuge
- Saw
- Fireplace
- Pet hummingbird
- Crayon

103.3 Instructions

1. Let your pet hummingbird lick **4 triumphs**.
2. Fan the flames of the fireplace.
3. Put **6 mornings** into the rotating centrifuge.
4. Use the saw to slice **4 licked triumphs** into bits.
5. Eat **4 licked and sliced triumphs**.
6. Hold **1 fame** briefly into the fireplace to burn it a bit.
7. Wait for a minute.
8. Let your pet hummingbird sniff at **1 slightly burned fame**.
9. Stop the centrifuge and retrieve the **37.36 spoonful of centrifuged mixture "morning"**.
10. Draw a magic circle on the floor using the crayon.
11. Draw a triangle into the circle and place **1 slightly burned fame, 9.7 ounces of valor** and **37.36 spoonful of centrifuged mixture "morning"** on each corner.

12. Chant the following spell: "Micumbiscus!"
13. Slowly, a **glory** will appear inside the circle.

104 A goblin

How to make a **goblin** in 10 easy steps:

104.1 Materials

- 20 ghouls
- 18.91 ounces of ghost

104.2 Tools

- Purifier
- Mortar
- Fireplace
- Cauldron
- Freezer

104.3 Instructions

1. Smash **18.91 ounces of ghost** with the mortar.
2. Put **20 ghouls** into the freezer for a while.
3. Wait for a long time.
4. Purify **20 cooled ghouls** with the purifier.
5. Put **18.91 ounces of smashed ghost** into the freezer for a while.
6. Hold **18.91 ounces of smashed and cooled ghost** briefly into the fireplace to burn them a bit.
7. Stir the cauldron.
8. Heat the cauldron.
9. Dump the **20 cooled and purified ghouls** and **18.91 ounces of smashed, cooled and slightly burned ghost** into a pile on the floor.
10. Wait until they magically transform into a **goblin**.

105 A goddess

How to make a **goddess** in 8 easy steps:

105.1 Materials

- 1.53 ounces of **venus**

105.2 Tools

- Bonfire
- Cauldron
- Bucket with hot water
- Pet ape

105.3 Instructions

1. Dip **1.53 ounces of venus** into the bucket with hot water.
2. Let your pet ape lick **1.53 ounces of wet venus**.
3. Heat the cauldron.
4. Fan the flames of the bonfire.
5. Stir the cauldron.
6. Pet your pet ape.
7. Dump the **1.53 ounces of wet and licked venus** into a pile on the floor.
8. Wait until they magically transform into a **goddess**.

106 A goo

How to make a **goo** in 6 easy steps:

106.1 Materials

- 4 vague notions of being sticky
- 1 slime
- 8 slimies
- 1 muck

106.2 Tools

- Fireplace
- Freezer
- Purifier
- Nails

106.3 Instructions

1. Purify **8 slimies** with the purifier.
2. Put **1 slime** into the freezer for a while.
3. Hold **1 cooled slime** briefly into the fireplace to burn it a bit.
4. Fan the flames of the fireplace.
5. Put **4 vague notions of being sticky** into the freezer for a while.
6. Use nails to join the **4 cooled vague notions of being sticky**, **1 cooled and slightly burned slime**, **8 purified slimies** and **1 muck** together into the form of a beautiful **goo**.

107 A gorilla

How to make a **gorilla** in 11 easy steps:

107.1 Materials

- 11.47 spoonful of chimpanzee
- 12.2 ounces of tarzan
- 7 apes
- 6 bananas

107.2 Tools

- Purifier
- Vessel

107.3 Instructions

1. Stir the vessel.
2. Wait for a very long time.
3. Heat the vessel.
4. Put **7 apes** into the vessel.
5. Purify **12.2 ounces of tarzan** with the purifier.
6. Stir the vessel.
7. Heat the vessel.
8. Purify **6 bananas** with the purifier.
9. Pour out the mixture from the vessel to get the **6.99 spoonful of vessel mixture "ape"**.
10. Dump the **11.47 spoonful of chimpanzee, 12.2 ounces of purified tarzan, 6 purified bananas** and **6.99 spoonful of vessel mixture "ape"** into a pile on the floor.
11. Wait until they magically transform into a **gorilla**.

108 A gravel

How to make a **gravel** in 10 easy steps:

108.1 Materials

- 2 roads
- 5.43 ounces of driveway
- 17 rock
- 25.68 ounces of grit

108.2 Tools

- Hammer
- Purifier
- Cauldron
- Fireplace
- Tape

108.3 Instructions

1. Hold **5.43 ounces of driveway** briefly into the fireplace to burn them a bit.
2. Let the cauldron cool down.
3. Purify **25.68 ounces of grit** with the purifier.
4. Put **2 roads** into the fireplace.
5. Crack **5.43 ounces of slightly burned driveway** with the hammer.
6. Retrieve the **9.21 ounces of ashes of "road"** from the fireplace.
7. Wait for a second.
8. Put **25.68 ounces of purified grit** into the cauldron.
9. Pour out the mixture from the cauldron to get the **9.9 spoonful of cauldron mixture "purified grit"**.
10. Use tape to join the **5.43 ounces of slightly burned and cracked driveway, 17 rock, 9.21 ounces of ashes of "road" and 9.9 spoonful of cauldron mixture "purified grit"** together into the form of a beautiful **gravel**.

109 Grief

How to make **grief** in 12 easy steps:

109.1 Materials

- 7.18 spoonful of sorrow
- 6 sympathies
- 9.13 ounces of despair
- 8.14 ounces of tragedy

109.2 Tools

- Centrifuge
- Cauldron
- Crayon

109.3 Instructions

1. Stir the cauldron.
2. Put **7.18 spoonful of sorrow** into the cauldron.
3. Let the cauldron cool down.
4. Stir the cauldron.
5. Heat the cauldron.
6. Put **9.13 ounces of despair** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **9.64 ounces of centrifuged mixture "despair"**.
8. Pour out the mixture from the cauldron to get the **8.02 ounces of cauldron mixture "sorrow"**.
9. Draw a magic circle on the floor using the crayon.
10. Draw a cross into the circle and place **6 sympathies, 8.14 ounces of tragedy, 9.64 ounces of centrifuged mixture "despair"** and **8.02 ounces of cauldron mixture "sorrow"** on each corner.
11. Whisper the following spell: "Pestellidus!"
12. Reluctantly, **grief** will appear inside the circle.

110 A gulp

How to make a **gulp** in 8 easy steps:

110.1 Materials

- 8 sips
- 75.61 spoonful of slurp
- 9 ideas of swallow

110.2 Tools

- Centrifuge
- Familiar ape
- Silverpoint pen

110.3 Instructions

1. Put **9 ideas of swallow** into the rotating centrifuge.
2. Feed **8 sips** to your familiar ape.
3. Stop the centrifuge and retrieve the **27.8 spoonful of centrifuged mixture "swallow"**.
4. Wait until your familiar ape poops. Receive **6.6 ounces of a very dirty pile of "sip"**.
5. Draw a magic circle on the floor using the silverpoint pen.
6. Draw a triangle into the circle and place **75.61 spoonful of slurp, 27.8 spoonful of centrifuged mixture "swallow"** and **6.6 ounces of a very dirty pile of "sip"** on each corner.
7. Chant the following spell: "Tromellarco zetactor! Contacula biga sinus, consor divus rasea exceptus!"
8. Reluctantly, a **gulp** will appear inside the circle.

111 A handcuffs

How to make a **handcuffs** in 8 easy steps:

111.1 Materials

- 84.33 spoonful of arrest

111.2 Tools

- Centrifuge
- Familiar hummingbird

111.3 Instructions

1. Wait for a rather short time.
2. Let your familiar hummingbird lick **84.33 spoonful of arrest**.
3. Put **84.33 spoonful of licked arrest** into the rotating centrifuge.
4. Speed up the centrifuge.
5. Pet your familiar hummingbird.
6. Stop the centrifuge and retrieve the **17.67 spoonful of centrifuged mixture "licked arrest"**.
7. Dump the **17.67 spoonful of centrifuged mixture "licked arrest"** into a pile on the floor.
8. Wait until they magically transform into a **handcuffs**.

112 A harbor

How to make a **harbor** in 13 easy steps:

112.1 Materials

- 3.34 ounces of bay
- 102 pearls
- 6.49 ounces of port

112.2 Tools

- Container
- Centrifuge
- Bucket with clean water
- Fireplace
- Electric paint

112.3 Instructions

1. Dip **3.34 ounces of bay** into the bucket with clean water.
2. Put **102 pearls** into the rotating centrifuge.
3. Put **3.34 ounces of wet bay** into the rotating centrifuge.
4. Wait for a rather long time.
5. Hold **6.49 ounces of port** briefly into the fireplace to burn them a bit.
6. Dip **6.49 ounces of slightly burned port** into the bucket with clean water.
7. Hold **6.49 ounces of slightly burned and wet port** briefly into the fireplace to burn them a bit.
8. Let the container cool down.
9. Stop the centrifuge and retrieve the **1.28 spoonful of centrifuged mixture "pearl and wet bay"**.
10. Draw a magic circle on the floor using the electric paint.
11. Draw a line into the circle and place **6.49 ounces of burned and wet port** and **1.28 spoonful of centrifuged mixture "pearl and wet bay"** on each end.

12. Intone the following spell: "Sacervabilis!"
13. Suddently, a **harbor** will appear inside the circle.

113 Heat

How to make **heat** in 10 easy steps:

113.1 Materials

- 9.8 ounces of stove
- 31 warmths
- 13.5 ounces of sun
- 8.65 spoonful of frier

113.2 Tools

- Container
- Centrifuge
- Bonfire
- Pet ape
- Nails

113.3 Instructions

1. Pet your pet ape.
2. Put **8.65 spoonful of frier** into the bonfire.
3. Wait.
4. Put **31 warmths** into the container.
5. Let the container cool down.
6. Put **13.5 ounces of sun** into the rotating centrifuge.
7. Pour out the mixture from the container to get the **8.39 ounces of container mixture "warmth"**.
8. Stop the centrifuge and retrieve the **22.04 ounces of centrifuged mixture "sun"**.
9. Retrieve the **2.85 spoonful of ashes of "frier"** from the bonfire.
10. Use nails to join the **9.8 ounces of stove**, **8.39 ounces of container mixture "warmth"**, **22.04 ounces of centrifuged mixture "sun"** and **2.85 spoonful of ashes of "frier"** together into the shape of a passable **heat**.

114 A heaven

How to make a **heaven** in 12 easy steps:

114.1 Materials

- 2.59 ounces of ascension
- 9 vague notions of die
- 5.81 ounces of soul
- 13 ascents

114.2 Tools

- Bucket with liquid
- Hammer
- Cauldron
- Crayon

114.3 Instructions

1. Let the cauldron cool down.
2. Put **9 vague notions of die** into the cauldron.
3. Stir the cauldron.
4. Heat the cauldron.
5. Dip **13 ascents** into the bucket with liquid.
6. Smash **5.81 ounces of soul** with the hammer.
7. Heat the cauldron.
8. Pour out the mixture from the cauldron to get the **4.19 spoonful of cauldron mixture "die"**.
9. Draw a magic circle on the floor using the crayon.
10. Draw a cross into the circle and place **2.59 ounces of ascension, 5.81 ounces of smashed soul, 13 wet ascents** and **4.19 spoonful of cauldron mixture "die"** on each corner.
11. Whisper the following spell: "Capitum breportivus vela herius insero subatheator! Cepsio!"
12. Reluctantly, a **heaven** will appear inside the circle.

115 A helicopter

How to make a **helicopter** in 11 easy steps:

115.1 Materials

- 11.11 spoonful of airplane
- 8 vague notions of flying

115.2 Tools

- Centrifuge
- Stone

115.3 Instructions

1. Crack **11.11 spoonful of airplane** with the stone.
2. Smash **11.11 spoonful of cracked airplane** with the stone.
3. Put **8 vague notions of flying** into the rotating centrifuge.
4. Wait for a very short time.
5. Smash **11.11 spoonful of cracked and smashed airplane** with the stone.
6. Pick up **11.11 spoonful of cracked and pulverized airplane**. Turn them around. Look at them from every every side. Shake your head dissatisfied. Put them back.
7. Wait.
8. Crack **11.11 spoonful of cracked and pulverized airplane** with the stone.
9. Stop the centrifuge and retrieve the **7.46 spoonful of centrifuged mixture "flying"**.
10. Dump the **11.11 spoonful of crushed and pulverized airplane** and **7.46 spoonful of centrifuged mixture "flying"** into a pile on the floor.
11. Wait until they magically transform into a **helicopter**.

116 An herb

How to make an **herb** in 8 easy steps:

116.1 Materials

- 13 spices
- 6.24 ounces of parsley
- 111.89 ounces of sage
- 6 smokes

116.2 Tools

- Centrifuge
- Mortar
- Container
- Freezer

116.3 Instructions

1. Smash **6.24 ounces of parsley** with the mortar.
2. Stir the container.
3. Crack **6.24 ounces of smashed parsley** with the mortar.
4. Put **6 smokes** into the rotating centrifuge.
5. Put **6.24 ounces of smashed and cracked parsley** into the freezer for a while.
6. Stop the centrifuge and retrieve the **9.77 ounces of centrifuged mixture "smoke"**.
7. Fold the **13 spices, 6.24 ounces of smashed, cracked and cooled parsley, 111.89 ounces of sage** and **9.77 ounces of centrifuged mixture "smoke"** together using advanced origami techniques.
8. If you've done it correctly, it could result in an **herb**.

117 A highlight

How to make a **highlight** in 4 easy steps:

117.1 Materials

- 54.99 spoonful of outline

117.2 Tools

- None

117.3 Instructions

1. Wait.
2. Eat **54.99 spoonful of outline**.
3. Grind a little bit of troll teeth to dust and add it. It's not strictly needed, but doesn't hurt I guess?
4. Wait a bit until a **highlight** suddenly appears.

118 A hill

How to make a **hill** in 8 easy steps:

118.1 Materials

- 3 capitals
- 7.47 spoonful of jack
- 4.06 ounces of land
- 47.83 spoonful of cliff

118.2 Tools

- Centrifuge
- Saw
- Paintbrush

118.3 Instructions

1. Use the saw to slice **4.06 ounces of land** into bits.
2. Put **4.06 ounces of sliced land** into the rotating centrifuge.
3. Wait.
4. Stop the centrifuge and retrieve the **31.56 spoonful of centrifuged mixture "sliced land"**.
5. Draw a magic circle on the floor using the paintbrush.
6. Draw a cross into the circle and place **3 capitals, 7.47 spoonful of jack, 47.83 spoonful of cliff** and **31.56 spoonful of centrifuged mixture "sliced land"** on each corner.
7. Whisper the following spell: "Fulgeo! Capithina impinium!"
8. Reluctantly, a **hill** will appear inside the circle.

119 A hobby

How to make a **hobby** in 8 easy steps:

119.1 Materials

- 1.43 ounces of crafts
- 6 ideas of collecting
- 27.52 ounces of skill
- 54.36 ounces of craft

119.2 Tools

- Fireplace
- Centrifuge
- Silverpoint pen

119.3 Instructions

1. Put **1.43 ounces of crafts** into the rotating centrifuge.
2. Fan the flames of the fireplace.
3. Wait for 5 seconds.
4. Stop the centrifuge and retrieve the **1.17 spoonful of centrifuged mixture "crafts"**.
5. Draw a magic circle on the floor using the silverpoint pen.
6. Draw a square into the circle and place **6 ideas of collecting, 27.52 ounces of skill, 54.36 ounces of craft** and **1.17 spoonful of centrifuged mixture "crafts"** on each corner.
7. Whisper the following spell: "Adus monastus copollego musim ser per copulto pella! Celsugior insenio archus! Sinus laetio betia, lactus aspitrodium! Condinor rogenassum!"
8. Reluctantly, a **hobby** will appear inside the circle.

120 A hold

How to make a **hold** in 15 easy steps:

120.1 Materials

- 9.82 ounces of paperclip
- 6 ideas of caress
- 8.87 spoonful of folder
- 7 securities

120.2 Tools

- Saw
- Freezer
- Centrifuge
- Fireplace
- Hammer
- Graphite pencil

120.3 Instructions

1. Use the saw to slice **7 securities** into bits.
2. Smash **9.82 ounces of paperclip** with the hammer.
3. Put **8.87 spoonful of folder** into the rotating centrifuge.
4. Fan the flames of the fireplace.
5. Use the saw to slice **7 sliced securities** into bits.
6. Put **6 ideas of caress** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Hold **9.82 ounces of smashed paperclip** briefly into the fireplace to burn them a bit.
9. Put **7 fragmented securities** into the freezer for a while.
10. Put **7 fragmented and cooled securities** into the rotating centrifuge.
11. Stop the centrifuge and retrieve the **22.61 spoonful of centrifuged mixture "folder, caress and fragmented and cooled security"**.

12. Draw a magic circle on the floor using the graphite pencil.
13. Draw a line into the circle and place **9.82 ounces of smashed and slightly burned paperclip** and **22.61 spoonful of centrifuged mixture "folder, caress and fragmented and cooled security"** on each end.
14. Intone the following spell: "Jumerator insistarie inera virgia abefinus, confalsio clus!"
15. Slowly, a **hold** will appear inside the circle.

121 A holder

How to make a **holder** in 12 easy steps:

121.1 Materials

- 6 napkins
- 9.23 spoonful of keeper
- 5.78 ounces of boulder
- 4 pockets

121.2 Tools

- Bonfire
- Vessel
- Centrifuge

121.3 Instructions

1. Heat the vessel.
2. Hold **6 napkins** briefly into the bonfire to burn them a bit.
3. Hold **6 slightly burned napkins** briefly into the bonfire to burn them a bit.
4. Put **4 pockets** into the rotating centrifuge.
5. Stir the vessel.
6. Put **5.78 ounces of boulder** into the vessel.
7. Speed up the centrifuge.
8. Let the vessel cool down.
9. Pour out the mixture from the vessel to get the **5.5 ounces of vessel mixture "boulder"**.
10. Stop the centrifuge and retrieve the **19.5 ounces of centrifuged mixture "pocket"**.
11. Dump the **6 burned napkins, 9.23 spoonful of keeper, 5.5 ounces of vessel mixture "boulder"** and **19.5 ounces of centrifuged mixture "pocket"** into a pile on the floor.
12. Wait until they magically transform into a **holder**.

122 A hood

How to make a **hood** in 11 easy steps:

122.1 Materials

- 1.37 ounces of boys
- 5.86 ounces of gangster
- 90.5 spoonful of trunk
- 1 ornament

122.2 Tools

- Bucket with clean liquid
- Purifier
- Freezer

122.3 Instructions

1. Put **5.86 ounces of gangster** into the freezer for a while.
2. Purify **1 ornament** with the purifier.
3. Dip **90.5 spoonful of trunk** into the bucket with clean liquid.
4. Wait for a long time.
5. Purify **90.5 spoonful of wet trunk** with the purifier.
6. Eat **1 purified ornament**.
7. Dip **90.5 spoonful of wet and purified trunk** into the bucket with clean liquid.
8. Purify **5.86 ounces of cooled gangster** with the purifier.
9. Wait.
10. Fold the **1.37 ounces of boys**, **5.86 ounces of cooled and purified gangster** and **90.5 spoonful of very wet and purified trunk** together using advanced origami techniques.
11. If you've done it correctly, it could result in a **hood**.

123 A hornet

How to make a **hornet** in 9 easy steps:

123.1 Materials

- 16.64 ounces of wasp

123.2 Tools

- Vessel
- Ballpoint pen

123.3 Instructions

1. Let the vessel cool down.
2. Stir the vessel.
3. Heat the vessel.
4. Put **16.64 ounces of wasp** into the vessel.
5. Pour out the mixture from the vessel to get the **5.53 spoonful of vessel mixture "wasp"**.
6. Draw a magic circle on the floor using the ballpoint pen.
7. Place **5.53 spoonful of vessel mixture "wasp"** into the circle.
8. Whisper the following spell: "Obilius!"
9. Suddendly, a **hornet** will appear inside the circle.

124 A hundred

How to make a **hundred** in 12 easy steps:

124.1 Materials

- 68.16 spoonful of ten
- 4 percentages
- 37.9 spoonful of percent

124.2 Tools

- Bonfire
- Saw
- Freezer
- Familiar hummingbird
- Centrifuge
- Silverpoint pen

124.3 Instructions

1. Let your familiar hummingbird lick **37.9 spoonful of percent**.
2. Use the saw to slice **37.9 spoonful of licked percent** into bits.
3. Put **68.16 spoonful of ten** into the freezer for a while.
4. Fan the flames of the bonfire.
5. Hold **4 percentages** briefly into the bonfire to burn them a bit.
6. Put **4 slightly burned percentages** into the rotating centrifuge.
7. Throw **37.9 spoonful of licked and sliced percent** and **68.16 spoonful of cooled ten** away.
8. Stop the centrifuge and retrieve the **1.95 ounces of centrifuged mixture "slightly burned percentage"**.
9. Draw a magic circle on the floor using the silverpoint pen.
10. Place **1.95 ounces of centrifuged mixture "slightly burned percentage"** into the circle.
11. Chant the following spell: "Exo ter campublitis! Asta sporthemotus ludio extror!"
12. Suddendly, a **hundred** will appear inside the circle.

125 A hunting

How to make a **hunting** in 10 easy steps:

125.1 Materials

- 5.45 spoonful of deer
- 4.6 ounces of gathering
- 3 outdoor

125.2 Tools

- Purifier
- Centrifuge

125.3 Instructions

1. Put **5.45 spoonful of deer** into the rotating centrifuge.
2. Wait.
3. Pick up **4.6 ounces of gathering**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
4. Eat **4.6 ounces of gathering**.
5. Stop the centrifuge and retrieve the **24.32 spoonful of centrifuged mixture "deer"**.
6. Purify **3 outdoor** with the purifier.
7. Put **3 purified outdoor** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **9.58 ounces of centrifuged mixture "purified outdoors"**.
9. Fold the **24.32 spoonful of centrifuged mixture "deer"** and **9.58 ounces of centrifuged mixture "purified outdoors"** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **hunting**.

126 A hurricane

How to make a **hurricane** in 4 easy steps:

126.1 Materials

- 23.5 ounces of disaster
- 9.77 spoonful of twister
- 2.87 ounces of earthquake
- 15.66 ounces of typhoon

126.2 Tools

- Purifier
- Bonfire

126.3 Instructions

1. Fan the flames of the bonfire.
2. Purify **23.5 ounces of disaster** with the purifier.
3. Fold the **23.5 ounces of purified disaster**, **9.77 spoonful of twister**, **2.87 ounces of earthquake** and **15.66 ounces of typhoon** together using advanced origami techniques.
4. If you've done it correctly, it might result in a **hurricane**.

127 A husk

How to make a **husk** in 9 easy steps:

127.1 Materials

- 6.25 spoonful of corn

127.2 Tools

- Fireplace
- Stone
- Freezer
- Centrifuge
- Nails

127.3 Instructions

1. Hold **6.25 spoonful of corn** briefly into the fireplace to burn them a bit.
2. Smash **6.25 spoonful of slightly burned corn** with the stone.
3. Put **6.25 spoonful of slightly burned and smashed corn** into the fireplace.
4. Retrieve the **8.92 spoonful of ashes of "slightly burned and smashed corn"** from the fireplace.
5. Crack **8.92 spoonful of ashes of "slightly burned and smashed corn"** with the stone.
6. Put **8.92 spoonful of cracked ashes of "slightly burned and smashed corn"** into the freezer for a while.
7. Put **8.92 spoonful of cracked and cooled ashes of "slightly burned and smashed corn"** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **4.84 ounces of centrifuged mixture "cracked and cooled ashes of "slightly burned and smashed corn"**.
9. Use nails to join the **4.84 ounces of centrifuged mixture "cracked and cooled ashes of "slightly burned and smashed corn"** together into the shape of a passable **husk**.

128 An increase

How to make an **increase** in 7 easy steps:

128.1 Materials

- 1.97 ounces of speed
- 2 inflations
- 9 ideas of decrease
- 9 vague notions of diminish

128.2 Tools

- Container
- Stone

128.3 Instructions

1. Heat the container.
2. Crack **9 vague notions of diminish** with the stone.
3. Smash **9 ideas of decrease** with the stone.
4. Let the container cool down.
5. Heat the container.
6. Fold the **1.97 ounces of speed**, **2 inflations**, **9 smashed ideas of decrease** and **9 cracked vague notions of diminish** together using advanced origami techniques.
7. If you've done it correctly, it could result in an **increase**.

129 An inhale

How to make an **inhale** in 9 easy steps:

129.1 Materials

- 10 intakes
- 9 breathers
- 9.01 ounces of exhalation
- 4 breaths

129.2 Tools

- Fireplace
- Container
- Electric paint

129.3 Instructions

1. Stir the container.
2. Hold **10 intakes** briefly into the fireplace to burn them a bit.
3. Let the container cool down.
4. Put **10 slightly burned intakes** into the container.
5. Pour out the mixture from the container to get the **9.0 spoonful of container mixture "slightly burned intake"**.
6. Draw a magic circle on the floor using the electric paint.
7. Draw a cross into the circle and place **9 breathers, 9.01 ounces of exhalation, 4 breaths** and **9.0 spoonful of container mixture "slightly burned intake"** on each corner.
8. Whisper the following spell: "Desuppedito femivis atrix, momereatisco factio sto! Interium phiarion!"
9. Suddendly, an **inhale** will appear inside the circle.

130 An intake

How to make an **intake** in 9 easy steps:

130.1 Materials

- 38.88 spoonful of inhalation

130.2 Tools

- Centrifuge
- Cauldron

130.3 Instructions

1. Put **38.88 spoonful of inhalation** into the rotating centrifuge.
2. Let the cauldron cool down.
3. Stir the cauldron.
4. Heat the cauldron.
5. Let the cauldron cool down.
6. Stir the cauldron.
7. Stop the centrifuge and retrieve the **2.06 spoonful of centrifuged mixture "inhalation"**.
8. Fold the **2.06 spoonful of centrifuged mixture "inhalation"** together using advanced origami techniques.
9. If you've done it correctly, it might result in an **intake**.

131 Intelligence

How to make **intelligence** in 8 easy steps:

131.1 Materials

- 7.33 spoonful of genius
- 5 quotients
- 9.38 ounces of diligence
- 7.23 spoonful of knowledge

131.2 Tools

- Pet hummingbird
- Purifier
- Hammer

131.3 Instructions

1. Pet your pet hummingbird.
2. Crack **9.38 ounces of diligence** with the hammer.
3. Purify **7.33 spoonful of genius** with the purifier.
4. Let your pet hummingbird lick **9.38 ounces of cracked diligence**.
5. Crack **9.38 ounces of cracked and licked diligence** with the hammer.
6. Smash **9.38 ounces of crushed and licked diligence** with the hammer.
7. Dump the **7.33 spoonful of purified genius, 5 quotients, 9.38 ounces of crushed, licked and smashed diligence** and **7.23 spoonful of knowledge** into a pile on the floor.
8. Wait until they magically transform into **intelligence**.

132 An intensity

How to make an **intensity** in 6 easy steps:

132.1 Materials

- 21 magnifications
- 2 frequencies

132.2 Tools

- Cauldron
- Hammer

132.3 Instructions

1. Crack **21 magnifications** with the hammer.
2. Smash **2 frequencies** with the hammer.
3. Stir the cauldron.
4. Heat the cauldron.
5. Fold the **21 cracked magnifications** and **2 smashed frequencies** together using advanced origami techniques.
6. If you've done it correctly, it might result in an **intensity**.

133 An inventor

How to make an **inventor** in 10 easy steps:

133.1 Materials

- 41.57 spoonful of invention
- 52.77 ounces of maker
- 32.64 spoonful of creator

133.2 Tools

- Cauldron
- Fireplace
- Centrifuge
- Ballpoint pen

133.3 Instructions

1. Fan the flames of the fireplace.
2. Put **52.77 ounces of maker** into the rotating centrifuge.
3. Put **32.64 spoonful of creator** into the fireplace.
4. Let the cauldron cool down.
5. Retrieve the **9.52 spoonful of ashes of "creator"** from the fireplace.
6. Stop the centrifuge and retrieve the **4.48 ounces of centrifuged mixture "maker"**.
7. Draw a magic circle on the floor using the ballpoint pen.
8. Draw a triangle into the circle and place **41.57 spoonful of invention, 9.52 spoonful of ashes of "creator"** and **4.48 ounces of centrifuged mixture "maker"** on each corner.
9. Whisper the following spell: "Chorrimnus nocrabilis! Edo! Cernatio dis-sivum!"
10. Slowly, an **inventor** will appear inside the circle.

134 An italian

How to make an **italian** in 9 easy steps:

134.1 Materials

- 19 ideas of cooking
- 10 papists
- 5 languages
- 6.04 spoonful of garlic

134.2 Tools

- Bucket with hot liquid
- Centrifuge
- Container

134.3 Instructions

1. Dip **10 papists** into the bucket with hot liquid.
2. Put **19 ideas of cooking** into the rotating centrifuge.
3. Pick up **6.04 spoonful of garlic**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
4. Heat the container.
5. Put **10 wet papists** into the container.
6. Stop the centrifuge and retrieve the **15.23 spoonful of centrifuged mixture "cooking"**.
7. Pour out the mixture from the container to get the **8.52 ounces of container mixture "wet papist"**.
8. Fold the **5 languages, 6.04 spoonful of garlic, 15.23 spoonful of centrifuged mixture "cooking"** and **8.52 ounces of container mixture "wet papist"** together using advanced origami techniques.
9. If you've done it correctly, it might result in an **italian**.

135 A jigsaw

How to make a **jigsaw** in 5 easy steps:

135.1 Materials

- 8 puzzles

135.2 Tools

- Bonfire

135.3 Instructions

1. Wait for a day.
2. Throw **8 puzzles** away.
3. Fan the flames of the bonfire.
4. Wait.
5. Buy a **jigsaw** on eBay.

136 Justice

How to make **justice** in 8 easy steps:

136.1 Materials

- 7 judges
- 9.33 ounces of unfairness
- 5.14 spoonful of honor
- 3.42 spoonful of punishment

136.2 Tools

- Purifier
- Freezer
- Fireplace
- Silverpoint pen

136.3 Instructions

1. Put **3.42 spoonful of punishment** into the freezer for a while.
2. Purify **7 judges** with the purifier.
3. Put **5.14 spoonful of honor** into the fireplace.
4. Retrieve the **24.29 spoonful of ashes of "honor"** from the fireplace.
5. Draw a magic circle on the floor using the silverpoint pen.
6. Draw a cross into the circle and place **7 purified judges, 9.33 ounces of unfairness, 3.42 spoonful of cooled punishment** and **24.29 spoonful of ashes of "honor"** on each corner.
7. Chant the following spell: "Anxior!"
8. Suddendly, **justice** will appear inside the circle.

137 A kilometer

How to make a **kilometer** in 15 easy steps:

137.1 Materials

- 6 miles

137.2 Tools

- Hammer
- Centrifuge
- Paintbrush

137.3 Instructions

1. Smash **6 miles** with the hammer.
2. Wait.
3. Put **6 smashed miles** into the rotating centrifuge.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **25.47 spoonful of centrifuged mixture "smashed mile"**.
6. Wait for 4 days.
7. Put **25.47 spoonful of centrifuged mixture "smashed mile"** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **1.33 spoonful of centrifuged mixture "centrifuged mixture "smashed mile" "**.
9. Put **1.33 spoonful of centrifuged mixture "centrifuged mixture "smashed mile" "** into the rotating centrifuge.
10. Speed up the centrifuge.
11. Stop the centrifuge and retrieve the **1.45 ounces of centrifuged mixture "centrifuged mixture "centrifuged mixture "smashed mile" "**.
12. Draw a magic circle on the floor using the paintbrush.
13. Place **1.45 ounces of centrifuged mixture "centrifuged mixture "centrifuged mixture "smashed mile" "** into the circle.
14. Chant the following spell: "Apo opersus neceta!"
15. Slowly, a **kilometer** will appear inside the circle.

138 A knee

How to make a **knee** in 12 easy steps:

138.1 Materials

- 10 joints
- 9.92 ounces of kneeler
- 1.9 ounces of ankle
- 7.22 ounces of beggary

138.2 Tools

- Centrifuge
- Purifier
- Container
- Pet mouse
- Bucket with hot water
- Saw
- Screws

138.3 Instructions

1. Let your pet mouse sniff at **7.22 ounces of beggary**.
2. Heat the container.
3. Purify **7.22 ounces of beggary** with the purifier.
4. Put **7.22 ounces of purified beggary** into the rotating centrifuge.
5. Dip **10 joints** into the bucket with hot water.
6. Wait.
7. Let the container cool down.
8. Use the saw to slice **9.92 ounces of kneeler** into bits.
9. Purify **1.9 ounces of ankle** with the purifier.
10. Stir the container.

11. Stop the centrifuge and retrieve the **2.89 ounces of centrifuged mixture "purified beggary"**.
12. Use screws to join the **10 wet joints, 9.92 ounces of sliced kneeler, 1.9 ounces of purified ankle** and **2.89 ounces of centrifuged mixture "purified beggary"** together into the form of a beautiful **knee**.

139 Knowledge

How to make **knowledge** in 5 easy steps:

139.1 Materials

- 3 understandings
- 4.36 spoonful of retention
- 15.47 spoonful of confusion
- 3.25 ounces of philosopher

139.2 Tools

- Fireplace
- Saw
- Nails

139.3 Instructions

1. Wait for a minute.
2. Fan the flames of the fireplace.
3. Use the saw to slice **3.25 ounces of philosopher** into bits.
4. Hold **3 understandings** briefly into the fireplace to burn them a bit.
5. Use nails to join the **3 slightly burned understandings, 4.36 spoonful of retention, 15.47 spoonful of confusion** and **3.25 ounces of sliced philosopher** together into the form of a usable **knowledge**.

140 Land

How to make **land** in 11 easy steps:

140.1 Materials

- 23.06 ounces of marsh
- 8 discoveries
- 1 farmer
- 7.02 ounces of gully

140.2 Tools

- Cauldron
- Pet mouse

140.3 Instructions

1. Heat the cauldron.
2. Let the cauldron cool down.
3. Put **8 discoveries** into the cauldron.
4. Pour out the mixture from the cauldron to get the **3.0 ounces of cauldron mixture "discovery"**.
5. Let the cauldron cool down.
6. Stir the cauldron.
7. Pet your pet mouse.
8. Let your pet mouse sniff at **3.0 ounces of cauldron mixture "discovery"**.
9. Stir the cauldron.
10. Fold the **23.06 ounces of marsh, 1 farmer, 7.02 ounces of gully** and **3.0 ounces of cauldron mixture "discovery"** together using advanced origami techniques.
11. If you've done it correctly, it could result in **land**.

141 A last

How to make a **last** in 5 easy steps:

141.1 Materials

- 6 suppers
- 36 ideas of being worst
- 1 vague notion of being final
- 8.79 spoonful of caboose

141.2 Tools

- Mortar

141.3 Instructions

1. Crack **8.79 spoonful of caboose** with the mortar.
2. Wait for 6 days.
3. Smash **1 vague notion of being final** with the mortar.
4. Throw **1 smashed vague notion of being final, 8.79 spoonful of cracked caboose, 6 suppers and 36 ideas of being worst** away.
5. Wait a bit until a **last** suddenly appears.

142 A layer

How to make a **layer** in 8 easy steps:

142.1 Materials

- 9 zones
- 18.0 spoonful of brick
- 46.51 ounces of ozone

142.2 Tools

- Hammer
- Saw
- Bucket with hot liquid
- Ballpoint pen

142.3 Instructions

1. Dip **18.0 spoonful of brick** into the bucket with hot liquid.
2. Smash **9 zones** with the hammer.
3. Crack **9 smashed zones** with the hammer.
4. Use the saw to slice **46.51 ounces of ozone** into bits.
5. Draw a magic circle on the floor using the ballpoint pen.
6. Draw a triangle into the circle and place **9 smashed and cracked zones, 18.0 spoonful of wet brick** and **46.51 ounces of sliced ozone** on each corner.
7. Whisper the following spell: "Probatter comatus seculus, bet! Circumpedo affluo! Brocetio sallum collus reditus matus adfabiculo! Cha!"
8. Slowly, a **layer** will appear inside the circle.

143 A least

How to make a **least** in 11 easy steps:

143.1 Materials

- 7 ideas of being greatest
- 15 lesses
- 15 clear concepts of being minimum
- 30.36 ounces of most

143.2 Tools

- Freezer
- Centrifuge
- Glue

143.3 Instructions

1. Wait.
2. Put **30.36 ounces of most** into the freezer for a while.
3. Put **15 lesses** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **5.03 ounces of centrifuged mixture "less"**.
5. Put **30.36 ounces of cooled most** into the freezer for a while.
6. Put **5.03 ounces of centrifuged mixture "less"** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Put **30.36 ounces of frozen most** into the rotating centrifuge.
9. Put **15 clear concepts of being minimum** into the freezer for a while.
10. Stop the centrifuge and retrieve the **5.97 ounces of centrifuged mixture "centrifuged mixture "less" and frozen most"**.
11. Use glue to join the **7 ideas of being greatest, 15 cooled clear concepts of being minimum and 5.97 ounces of centrifuged mixture "centrifuged mixture "less" and frozen most"** together into the shape of a perfectly functional **least**.

144 A legs

How to make a **legs** in 10 easy steps:

144.1 Materials

- 10 pantyhoses
- 9.2 spoonful of runner
- 6 frogs
- 9 clear concepts of stand

144.2 Tools

- Saw
- Purifier
- Freezer
- Centrifuge

144.3 Instructions

1. Put **6 frogs** into the rotating centrifuge.
2. Wait for a rather long time.
3. Put **9 clear concepts of stand** into the freezer for a while.
4. Throw **9 cooled clear concepts of stand** away.
5. Use the saw to slice **9.2 spoonful of runner** into bits.
6. Purify **10 pantyhoses** with the purifier.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **4.3 spoonful of centrifuged mixture "frog"**.
9. Dump the **10 purified pantyhoses, 9.2 spoonful of sliced runner** and **4.3 spoonful of centrifuged mixture "frog"** into a pile on the floor.
10. Wait until they magically transform into a **legs**.

145 A lime

How to make a **lime** in 13 easy steps:

145.1 Materials

- 40 lemons

145.2 Tools

- Bucket with ionised water
- Freezer
- Container

145.3 Instructions

1. Dip **40 lemons** into the bucket with ionised water.
2. Heat the container.
3. Put **40 wet lemons** into the freezer for a while.
4. Let the container cool down.
5. Stir the container.
6. Dip **40 wet and cooled lemons** into the bucket with ionised water.
7. Put **40 very wet and cooled lemons** into the container.
8. Wait.
9. Grind a little bit of unicorn horn to dust and add it. It's not strictly needed, but doesn't hurt I guess?
10. Heat the container.
11. Pour out the mixture from the container to get the **2.2 ounces of container mixture "very wet and cooled lemon"**.
12. Fold the **2.2 ounces of container mixture "very wet and cooled lemon"** together using advanced origami techniques.
13. If you've done it correctly, it could result in a **lime**.

146 A limousine

How to make a **limousine** in 10 easy steps:

146.1 Materials

- 8.03 ounces of chauffeur
- 9.33 spoonful of luxury
- 2.82 spoonful of driver

146.2 Tools

- Stone
- Cauldron
- Familiar unicorn
- Fireplace

146.3 Instructions

1. Let your familiar unicorn sniff at **8.03 ounces of chauffeur**.
2. Heat the cauldron.
3. Put **2.82 spoonful of driver** into the fireplace.
4. Let your familiar unicorn lick **9.33 spoonful of luxury**.
5. Crack **9.33 spoonful of licked luxury** with the stone.
6. Let the cauldron cool down.
7. Let your familiar unicorn sniff at **8.03 ounces of chauffeur**.
8. Retrieve the **9.71 ounces of ashes of "driver"** from the fireplace.
9. Dump the **8.03 ounces of chauffeur**, **9.33 spoonful of licked and cracked luxury** and **9.71 ounces of ashes of "driver"** into a pile on the floor.
10. Wait until they magically transform into a **limousine**.

147 A liver

How to make a **liver** in 9 easy steps:

147.1 Materials

- 8 yucks
- 4.44 ounces of kidney
- 4.79 ounces of cod
- 9 clear concepts of transplant

147.2 Tools

- Bucket with clean liquid
- Purifier
- Mortar
- Freezer

147.3 Instructions

1. Dip **4.44 ounces of kidney** into the bucket with clean liquid.
2. Wait.
3. Purify **4.79 ounces of cod** with the purifier.
4. Put **9 clear concepts of transplant** into the freezer for a while.
5. Smash **9 cooled clear concepts of transplant** with the mortar.
6. Purify **8 yucks** with the purifier.
7. Crack **4.44 ounces of wet kidney** with the mortar.
8. Fold the **8 purified yucks, 4.44 ounces of wet and cracked kidney, 4.79 ounces of purified cod** and **9 cooled and smashed clear concepts of transplant** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **liver**.

148 A lobby

How to make a **lobby** in 3 easy steps:

148.1 Materials

- 66 halls
- 8 vague notions of being main

148.2 Tools

- Stone
- Nails

148.3 Instructions

1. Wait for a very long time.
2. Smash **66 halls** with the stone.
3. Use nails to join the **66 smashed halls** and **8 vague notions of being main** together into the form of a beautiful **lobby**.

149 A location

How to make a **location** in 10 easy steps:

149.1 Materials

- 10 sites
- 6 wheres
- 9 destinies
- 29.84 ounces of place

149.2 Tools

- Stone
- Vessel
- Purifier
- Centrifuge
- Glue

149.3 Instructions

1. Put **29.84 ounces of place** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Put **9 destinies** into the rotating centrifuge.
4. Put **6 wheres** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **1.78 spoonful of centrifuged mixture "place, destiny and where"**.
6. Put **10 sites** into the vessel.
7. Purify **1.78 spoonful of centrifuged mixture "place, destiny and where"** with the purifier.
8. Crack **1.78 spoonful of purified centrifuged mixture "place, destiny and where"** with the stone.
9. Pour out the mixture from the vessel to get the **2.14 ounces of vessel mixture "site"**.
10. Use glue to join the **1.78 spoonful of purified and cracked centrifuged mixture "place, destiny and where"** and **2.14 ounces of vessel mixture "site"** together into the form of a beautiful **location**.

150 A lock

How to make a **lock** in 10 easy steps:

150.1 Materials

- 2.49 spoonful of key
- 4 masters
- 41.82 spoonful of vault
- 3 doors

150.2 Tools

- Freezer
- Bonfire
- Container
- Bucket with clean water
- Nails

150.3 Instructions

1. Put **2.49 spoonful of key** into the container.
2. Fan the flames of the bonfire.
3. Put **41.82 spoonful of vault** into the bonfire.
4. Put **4 masters** into the bonfire.
5. Wait for a rather short time.
6. Put **3 doors** into the freezer for a while.
7. Dip **3 cooled doors** into the bucket with clean water.
8. Retrieve the **6.23 spoonful of ashes of "vault and master"** from the bonfire.
9. Pour out the mixture from the container to get the **21.66 spoonful of container mixture "key"**.
10. Use nails to join the **3 cooled and wet doors, 6.23 spoonful of ashes of "vault and master"** and **21.66 spoonful of container mixture "key"** together into the form of a perfectly functional **lock**.

151 A loose

How to make a **loose** in 14 easy steps:

151.1 Materials

- 28.54 spoonful of firm
- 10 vague notions of being tense
- 5 vague notions of hanging
- 10.32 ounces of give up

151.2 Tools

- Stone
- Cauldron
- Fireplace

151.3 Instructions

1. Heat the cauldron.
2. Put **10.32 ounces of give up** into the cauldron.
3. Wait.
4. Pour out the mixture from the cauldron to get the **9.36 ounces of cauldron mixture "give up"**.
5. Stir the cauldron.
6. Crack **9.36 ounces of cauldron mixture "give up"** with the stone.
7. Put **10 vague notions of being tense** into the fireplace.
8. Smash **28.54 spoonful of firm** with the stone.
9. Put **28.54 spoonful of smashed firm** into the cauldron.
10. Hold **5 vague notions of hanging** briefly into the fireplace to burn them a bit.
11. Pour out the mixture from the cauldron to get the **3.45 spoonful of cauldron mixture "smashed firm"**.
12. Retrieve the **8.22 spoonful of ashes of "being tense"** from the fireplace.

13. Dump the **5 slightly burned vague notions of hanging**, **9.36 ounces of cracked cauldron mixture "give up"**, **3.45 spoonful of cauldron mixture "smashed firm"** and **8.22 spoonful of ashes of "being tense"** into a pile on the floor.
14. Wait until they magically transform into a **loose**.

152 A loser

How to make a **loser** in 13 easy steps:

152.1 Materials

- 4 beginners
- 1.28 spoonful of expert
- 7.64 spoonful of scapegoat
- 29 jerks

152.2 Tools

- Saw
- Container
- Hammer
- Silverpoint pen

152.3 Instructions

1. Put **29 jerks** into the container.
2. Wait for 4 days.
3. Crack **1.28 spoonful of expert** with the hammer.
4. Heat the container.
5. Use the saw to slice **4 beginners** into bits.
6. Stir the container.
7. Smash **4 sliced beginners** with the hammer.
8. Crack **4 sliced and smashed beginners** with the hammer.
9. Pour out the mixture from the container to get the **2.25 spoonful of container mixture "jerk"**.
10. Draw a magic circle on the floor using the silverpoint pen.
11. Draw a square into the circle and place **4 sliced, smashed and cracked beginners, 1.28 spoonful of cracked expert, 7.64 spoonful of scapegoat and 2.25 spoonful of container mixture "jerk"** on each corner.
12. Chant the following spell: "Fullio moron anus!"
13. Suddendly, a **loser** will appear inside the circle.

153 A magician

How to make a **magician** in 13 easy steps:

153.1 Materials

- 28 capes
- 6.74 spoonful of disappearance
- 3 wands
- 3 clear concepts of being magic

153.2 Tools

- Centrifuge
- Saw
- Crayon

153.3 Instructions

1. Put **6.74 spoonful of disappearance** into the rotating centrifuge.
2. Put **3 clear concepts of being magic** into the rotating centrifuge.
3. Put **3 wands** into the rotating centrifuge.
4. Use the saw to slice **28 capes** into bits.
5. Put **28 sliced capes** into the rotating centrifuge.
6. Wait for 3 days.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **4.69 spoonful of centrifuged mixture "disappearance, being magic, wand and sliced cape"**.
9. Wait.
10. Draw a magic circle on the floor using the crayon.
11. Place **4.69 spoonful of centrifuged mixture "disappearance, being magic, wand and sliced cape"** into the circle.
12. Chant the following spell: "Pra proties tratus! Dejero!"
13. Slowly, a **magician** will appear inside the circle.

154 A magnify

How to make a **magnify** in 11 easy steps:

154.1 Materials

- 28.94 spoonful of microscope
- 7 telescopes

154.2 Tools

- Centrifuge
- Stone
- Bucket with ionised water
- Tape

154.3 Instructions

1. Pick up **28.94 spoonful of microscope**. Turn them around. Look at them from every every side. Nod satisfied. Put them back.
2. Dip **7 telescopes** into the bucket with ionised water.
3. Put **7 wet telescopes** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **3.94 ounces of centrifuged mixture "wet telescope"**.
5. Smash **3.94 ounces of centrifuged mixture "wet telescope"** with the stone.
6. Put **3.94 ounces of smashed centrifuged mixture "wet telescope"** into the rotating centrifuge.
7. Wait.
8. Put **28.94 spoonful of microscope** into the rotating centrifuge.
9. Speed up the centrifuge.
10. Stop the centrifuge and retrieve the **8.84 spoonful of centrifuged mixture "smashed centrifuged mixture "wet telescope" and microscope"**.
11. Use tape to join the **8.84 spoonful of centrifuged mixture "smashed centrifuged mixture "wet telescope" and microscope"** together into the form of a beautiful **magnify**.

155 A make

How to make a **make** in 10 easy steps:

155.1 Materials

- 10 statements
- 4.79 spoonful of composition
- 13.15 spoonful of harvest
- 2 vague notions of produce

155.2 Tools

- Stone
- Fireplace
- Fountain pen

155.3 Instructions

1. Fan the flames of the fireplace.
2. Hold **10 statements** briefly into the fireplace to burn them a bit.
3. Smash **10 slightly burned statements** with the stone.
4. Put **4.79 spoonful of composition** into the fireplace.
5. Crack **13.15 spoonful of harvest** with the stone.
6. Retrieve the **4.19 spoonful of ashes of "composition"** from the fireplace.
7. Draw a magic circle on the floor using the fountain pen.
8. Draw a cross into the circle and place **10 slightly burned and smashed statements, 13.15 spoonful of cracked harvest, 2 vague notions of produce** and **4.19 spoonful of ashes of "composition"** on each corner.
9. Chant the following spell: "Saepa!"
10. Suddenly, a **make** will appear inside the circle.

156 A manner

How to make a **manner** in 12 easy steps:

156.1 Materials

- 4.84 ounces of style
- 8.29 spoonful of method

156.2 Tools

- Vessel
- Bonfire
- Purifier

156.3 Instructions

1. Wait.
2. Put **8.29 spoonful of method** into the vessel.
3. Stir the vessel.
4. Purify **4.84 ounces of style** with the purifier.
5. Let the vessel cool down.
6. Put **4.84 ounces of purified style** into the vessel.
7. Wait.
8. Fan the flames of the bonfire.
9. Heat the vessel.
10. Pour out the mixture from the vessel to get the **6.64 spoonful of vessel mixture "method and purified style"**.
11. Dump the **6.64 spoonful of vessel mixture "method and purified style"** into a pile on the floor.
12. Wait until they magically transform into a **manner**.

157 A marine

How to make a **marine** in 10 easy steps:

157.1 Materials

- 150 armies
- 7.77 ounces of sailor
- 6.03 ounces of jerk
- 2 biologists

157.2 Tools

- Mortar
- Bucket with ionised liquid
- Freezer

157.3 Instructions

1. Put **2 biologists** into the freezer for a while.
2. Wait for 5 days.
3. Smash **2 cooled biologists** with the mortar.
4. Throw **6.03 ounces of jerk** away.
5. Dip **2 cooled and smashed biologists** into the bucket with ionised liquid.
6. Wait for an hour.
7. Throw **7.77 ounces of sailor, 2 cooled, smashed and wet biologists** and **150 armies** away.
8. Grind a little bit of unicorn horn to dust and add it. It's not strictly needed, but doesn't hurt I guess?
9. Wait for a second.
10. Realise that you never really needed a **marine**.

158 A mark

How to make a **mark** in 14 easy steps:

158.1 Materials

- 7.12 spoonful of score
- 35.8 spoonful of stretch
- 58 moles
- 8.65 spoonful of grade

158.2 Tools

- Centrifuge
- Purifier
- Hammer
- Freezer
- Saw
- Silverpoint pen

158.3 Instructions

1. Put **58 moles** into the rotating centrifuge.
2. Smash **7.12 spoonful of score** with the hammer.
3. Crack **35.8 spoonful of stretch** with the hammer.
4. Put **7.12 spoonful of smashed score** into the freezer for a while.
5. Smash **8.65 spoonful of grade** with the hammer.
6. Use the saw to slice **8.65 spoonful of smashed grade** into bits.
7. Purify **8.65 spoonful of smashed and sliced grade** with the purifier.
8. Put **7.12 spoonful of smashed and cooled score** into the freezer for a while.
9. Smash **35.8 spoonful of cracked stretch** with the hammer.
10. Stop the centrifuge and retrieve the **1.89 spoonful of centrifuged mixture "mole"**.
11. Draw a magic circle on the floor using the silverpoint pen.

12. Draw a cross into the circle and place **7.12 spoonful of smashed and frozen score, 35.8 spoonful of cracked and smashed stretch, 8.65 spoonful of smashed, sliced and purified grade and 1.89 spoonful of centrifuged mixture "mole"** on each corner.
13. Whisper the following spell: "Liban perculatus! Altharismus!"
14. Slowly, a **mark** will appear inside the circle.

159 A mcdonald's

How to make a **mcdonald's** in 13 easy steps:

159.1 Materials

- 9.3 spoonful of frier
- 5.86 ounces of restaurant
- 1.49 spoonful of hamburger

159.2 Tools

- Centrifuge
- Cauldron
- Bonfire
- Stone
- Screws

159.3 Instructions

1. Put **9.3 spoonful of frier** into the bonfire.
2. Smash **5.86 ounces of restaurant** with the stone.
3. Put **1.49 spoonful of hamburger** into the rotating centrifuge.
4. Stir the cauldron.
5. Let the cauldron cool down.
6. Heat the cauldron.
7. Stir the cauldron.
8. Smash **5.86 ounces of smashed restaurant** with the stone.
9. Put **5.86 ounces of pulverized restaurant** into the rotating centrifuge.
10. Stir the cauldron.
11. Stop the centrifuge and retrieve the **9.77 spoonful of centrifuged mixture "hamburger and pulverized restaurant"**.
12. Retrieve the **9.62 ounces of ashes of "frier"** from the bonfire.
13. Use screws to join the **9.77 spoonful of centrifuged mixture "hamburger and pulverized restaurant"** and **9.62 ounces of ashes of "frier"** together into the shape of a beautiful **mcdonald's**.

160 A means

How to make a **means** in 13 easy steps:

160.1 Materials

- 47.81 spoonful of end

160.2 Tools

- Purifier
- Fireplace
- Saw
- Familiar dog
- Centrifuge

160.3 Instructions

1. Purify **47.81 spoonful of end** with the purifier.
2. Hold **47.81 spoonful of purified end** briefly into the fireplace to burn them a bit.
3. Let your familiar dog sniff at **47.81 spoonful of purified and slightly burned end**.
4. Use the saw to slice **47.81 spoonful of purified and slightly burned end** into bits.
5. Let your familiar dog lick **47.81 spoonful of purified, slightly burned and sliced end**.
6. Put **47.81 spoonful of purified, slightly burned, sliced and licked end** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **2.47 ounces of centrifuged mixture "purified, slightly burned, sliced and licked end"**.
8. Fan the flames of the fireplace.
9. Put **2.47 ounces of centrifuged mixture "purified, slightly burned, sliced and licked end"** into the fireplace.
10. Pet your familiar dog.
11. Retrieve the **19.17 spoonful of ashes of "centrifuged mixture "purified, slightly burned, sliced and licked end""** from the fireplace.

12. Fold the **19.17 spoonful of ashes of "centrifuged mixture "purified, slightly burned, sliced and licked end""** together using advanced origami techniques.
13. If you've done it correctly, it might result in a **means**.

161 Meat

How to make **meat** in 10 easy steps:

161.1 Materials

- 8 porks
- 6 bisons
- 8.13 spoonful of freezer
- 1 chicken

161.2 Tools

- Freezer
- Vessel
- Centrifuge
- Mortar
- Pet ape

161.3 Instructions

1. Let the vessel cool down.
2. Put **6 bisons** into the rotating centrifuge.
3. Crack **1 chicken** with the mortar.
4. Smash **8.13 spoonful of freezer** with the mortar.
5. Let your pet ape sniff at **8 porks**.
6. Put **8.13 spoonful of smashed freezer** into the freezer for a while.
7. Wait.
8. Stop the centrifuge and retrieve the **4.61 spoonful of centrifuged mixture "bison"**.
9. Dump the **8 porks**, **8.13 spoonful of smashed and cooled freezer**, **1 cracked chicken** and **4.61 spoonful of centrifuged mixture "bison"** into a pile on the floor.
10. Wait until they magically transform into **meat**.

162 A medicine

How to make a **medicine** in 10 easy steps:

162.1 Materials

- 4.56 ounces of pill
- 2 advils
- 43.52 spoonful of doctor
- 7.29 spoonful of tablet

162.2 Tools

- Cauldron
- Centrifuge
- Freezer
- Purifier
- Bucket with ice-cold liquid
- Fountain pen

162.3 Instructions

1. Put **7.29 spoonful of tablet** into the freezer for a while.
2. Put **4.56 ounces of pill** into the rotating centrifuge.
3. Purify **43.52 spoonful of doctor** with the purifier.
4. Heat the cauldron.
5. Dip **43.52 spoonful of purified doctor** into the bucket with ice-cold liquid.
6. Stop the centrifuge and retrieve the **9.44 spoonful of centrifuged mixture "pill"**.
7. Draw a magic circle on the floor using the fountain pen.
8. Draw a cross into the circle and place **2 advils, 43.52 spoonful of purified and wet doctor, 7.29 spoonful of cooled tablet** and **9.44 spoonful of centrifuged mixture "pill"** on each corner.
9. Intone the following spell: "Legium tentia palmos inrefactio adrum!"
10. Slowly, a **medicine** will appear inside the circle.

163 A midnight

How to make a **midnight** in 14 easy steps:

163.1 Materials

- 1.2 ounces of afternoon
- 6.21 spoonful of noon
- 14.56 spoonful of twelve
- 148.26 ounces of tonight

163.2 Tools

- Bucket with ice-cold liquid
- Hammer
- Centrifuge
- Container
- Silverpoint pen

163.3 Instructions

1. Dip **148.26 ounces of tonight** into the bucket with ice-cold liquid.
2. Put **14.56 spoonful of twelve** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Heat the container.
5. Put **148.26 ounces of wet tonight** into the rotating centrifuge.
6. Let the container cool down.
7. Smash **6.21 spoonful of noon** with the hammer.
8. Stir the container.
9. Put **6.21 spoonful of smashed noon** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **43.14 ounces of centrifuged mixture "twelve, wet tonight and smashed noon"**.
11. Draw a magic circle on the floor using the silverpoint pen.

12. Draw a line into the circle and place **1.2 ounces of afternoon** and **43.14 ounces of centrifuged mixture "twelve, wet tonight and smashed noon"** on each end.
13. Chant the following spell: "Duinator penus amanicumen sphema!"
14. Reluctantly, a **midnight** will appear inside the circle.

164 A mirage

How to make a **mirage** in 16 easy steps:

164.1 Materials

- 6.55 spoonful of oasis
- 2 illusions
- 7 images

164.2 Tools

- Saw
- Mortar
- Centrifuge
- Bucket with clean water
- Vessel
- Fireplace
- Crayon

164.3 Instructions

1. Put **2 illusions** into the vessel.
2. Dip **6.55 spoonful of oasis** into the bucket with clean water.
3. Smash **6.55 spoonful of wet oasis** with the mortar.
4. Let the vessel cool down.
5. Use the saw to slice **7 images** into bits.
6. Put **6.55 spoonful of wet and smashed oasis** into the rotating centrifuge.
7. Pour out the mixture from the vessel to get the **9.07 ounces of vessel mixture "illusion"**.
8. Heat the vessel.
9. Put **9.07 ounces of vessel mixture "illusion"** into the fireplace.
10. Let the vessel cool down.

11. Stop the centrifuge and retrieve the **8.1 ounces of centrifuged mixture "wet and smashed oasis"**.
12. Retrieve the **2.73 ounces of ashes of "vessel mixture "illusion"'** from the fireplace.
13. Draw a magic circle on the floor using the crayon.
14. Draw a triangle into the circle and place **7 sliced images, 8.1 ounces of centrifuged mixture "wet and smashed oasis"** and **2.73 ounces of ashes of "vessel mixture "illusion"'** on each corner.
15. Whisper the following spell: "Methymen apso redico, pingo!"
16. Reluctantly, a **mirage** will appear inside the circle.

165 A mistake

How to make a **mistake** in 7 easy steps:

165.1 Materials

- 6.06 spoonful of contamination
- 4.72 ounces of violation
- 5 eras
- 10 faults

165.2 Tools

- Stone
- Container
- Freezer
- Purifier

165.3 Instructions

1. Put **10 faults** into the freezer for a while.
2. Wait.
3. Crack **4.72 ounces of violation** with the stone.
4. Purify **4.72 ounces of cracked violation** with the purifier.
5. Heat the container.
6. Fold the **6.06 spoonful of contamination, 4.72 ounces of cracked and purified violation, 5 eras** and **10 cooled faults** together using advanced origami techniques.
7. If you've done it correctly, it should result in a **mistake**.

166 A moment

How to make a **moment** in 8 easy steps:

166.1 Materials

- 8 tenderesses
- 2 clear concepts of being brief
- 4.7 ounces of instance
- 1.95 spoonful of blockage

166.2 Tools

- Vessel

166.3 Instructions

1. Heat the vessel.
2. Put **8 tenderesses** into the vessel.
3. Let the vessel cool down.
4. Wait.
5. Put **4.7 ounces of instance** into the vessel.
6. Pour out the mixture from the vessel to get the **4.56 ounces of vessel mixture "tenderness and instance"**.
7. Dump the **2 clear concepts of being brief**, **1.95 spoonful of blockage** and **4.56 ounces of vessel mixture "tenderness and instance"** into a pile on the floor.
8. Wait until they magically transform into a **moment**.

167 A monarch

How to make a **monarch** in 10 easy steps:

167.1 Materials

- 6.66 ounces of dictator
- 1.29 ounces of king

167.2 Tools

- Freezer
- Cauldron
- Fireplace
- Glue

167.3 Instructions

1. Put **6.66 ounces of dictator** into the fireplace.
2. Let the cauldron cool down.
3. Put **1.29 ounces of king** into the cauldron.
4. Retrieve the **16.6 spoonful of ashes of "dictator"** from the fireplace.
5. Put **16.6 spoonful of ashes of "dictator"** into the freezer for a while.
6. Put **16.6 spoonful of cooled ashes of "dictator"** into the fireplace.
7. Fan the flames of the fireplace.
8. Pour out the mixture from the cauldron to get the **13.24 spoonful of cauldron mixture "king"**.
9. Retrieve the **7.37 ounces of ashes of "cooled ashes of "dictator"** from the fireplace.
10. Use glue to join the **13.24 spoonful of cauldron mixture "king"** and **7.37 ounces of ashes of "cooled ashes of "dictator"** together into the shape of a passable **monarch**.

168 Money

How to make **money** in 8 easy steps:

168.1 Materials

- 7 damages
- 57 pearls
- 17 clear concepts of being economic
- 8.65 ounces of work

168.2 Tools

- Purifier
- Vessel
- Centrifuge
- Stone
- Freezer

168.3 Instructions

1. Purify **17 clear concepts of being economic** with the purifier.
2. Stir the vessel.
3. Smash **57 pearls** with the stone.
4. Put **8.65 ounces of work** into the freezer for a while.
5. Put **8.65 ounces of cooled work** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **87.66 ounces of centrifuged mixture "cooled work"**.
7. Dump the **7 damages, 57 smashed pearls, 17 purified clear concepts of being economic** and **87.66 ounces of centrifuged mixture "cooled work"** into a pile on the floor.
8. Wait until they magically transform into **money**.

169 A morning

How to make a **morning** in 13 easy steps:

169.1 Materials

- 35.61 ounces of alarm
- 7.11 spoonful of afternoon
- 4.24 spoonful of sunday

169.2 Tools

- Bucket with ice-cold water
- Centrifuge
- Bonfire
- Saw

169.3 Instructions

1. Wait.
2. Dip **35.61 ounces of alarm** into the bucket with ice-cold water.
3. Put **35.61 ounces of wet alarm** into the bonfire.
4. Retrieve the **1.31 spoonful of ashes of "wet alarm"** from the bonfire.
5. Put **4.24 spoonful of sunday** into the rotating centrifuge.
6. Hold **7.11 spoonful of afternoon** briefly into the bonfire to burn them a bit.
7. Put **1.31 spoonful of ashes of "wet alarm"** into the bonfire.
8. Use the saw to slice **7.11 spoonful of slightly burned afternoon** into bits.
9. Fan the flames of the bonfire.
10. Stop the centrifuge and retrieve the **5.69 spoonful of centrifuged mixture "sunday"**.
11. Retrieve the **115.88 ounces of ashes of "ashes of "wet alarm" from the bonfire.**

12. Dump the **7.11 spoonful of slightly burned and sliced afternoon,**
5.69 spoonful of centrifuged mixture "sunday" and **115.88 ounces**
of ashes of "ashes of "wet alarm"" into a pile on the floor.
13. Wait until they magically transform into a **morning**.

170 A mow

How to make a **mow** in 7 easy steps:

170.1 Materials

- 5.66 ounces of chore
- 7 lawns
- 5 plows
- 5.28 ounces of grass

170.2 Tools

- Cauldron
- Bonfire
- Saw

170.3 Instructions

1. Use the saw to slice **5.28 ounces of grass** into bits.
2. Put **5.28 ounces of sliced grass** into the cauldron.
3. Hold **5 plows** briefly into the bonfire to burn them a bit.
4. Heat the cauldron.
5. Pour out the mixture from the cauldron to get the **16.28 ounces of cauldron mixture "sliced grass"**.
6. Dump the **5.66 ounces of chore, 7 lawns, 5 slightly burned plows** and **16.28 ounces of cauldron mixture "sliced grass"** into a pile on the floor.
7. Wait until they magically transform into a **mow**.

171 A mower

How to make a **mower** in 10 easy steps:

171.1 Materials

- 8.72 ounces of shed
- 8 grasses
- 20.62 ounces of blade
- 5 lawns

171.2 Tools

- Centrifuge
- Fireplace

171.3 Instructions

1. Put **5 lawns** into the rotating centrifuge.
2. Fan the flames of the fireplace.
3. Put **8.72 ounces of shed** into the rotating centrifuge.
4. Hold **20.62 ounces of blade** briefly into the fireplace to burn them a bit.
5. Put **8 grasses** into the rotating centrifuge.
6. Wait.
7. Stop the centrifuge and retrieve the **2.61 ounces of centrifuged mixture "lawn, shed and grass"**.
8. Hold **2.61 ounces of centrifuged mixture "lawn, shed and grass"** briefly into the fireplace to burn them a bit.
9. Fold the **20.62 ounces of slightly burned blade** and **2.61 ounces of slightly burned centrifuged mixture "lawn, shed and grass"** together using advanced origami techniques.
10. If you've done it correctly, it should result in a **mower**.

172 A mustache

How to make a **mustache** in 4 easy steps:

172.1 Materials

- 3.27 ounces of beard
- 8.48 ounces of whiskers
- 20 vague notions of disguise

172.2 Tools

- Vessel
- Glue

172.3 Instructions

1. Pick up **8.48 ounces of whiskers**. Turn them around. Look at them from every every side. Nod satisfied. Put them back.
2. Put **8.48 ounces of whiskers** into the vessel.
3. Pour out the mixture from the vessel to get the **51.76 spoonful of vessel mixture "whiskers"**.
4. Use glue to join the **3.27 ounces of beard**, **20 vague notions of disguise** and **51.76 spoonful of vessel mixture "whiskers"** together into the shape of a usable **mustache**.

173 A mythology

How to make a **mythology** in 9 easy steps:

173.1 Materials

- 8.52 ounces of myth
- 10 vague notions of being greek
- 1 goddess
- 2 godlinesses

173.2 Tools

- Familiar mouse
- Bonfire
- Centrifuge
- Bucket with ice-cold liquid
- Purifier

173.3 Instructions

1. Fan the flames of the bonfire.
2. Dip **2 godlinesses** into the bucket with ice-cold liquid.
3. Purify **10 vague notions of being greek** with the purifier.
4. Put **10 purified vague notions of being greek** into the rotating centrifuge.
5. Wait for 8 seconds.
6. Stop the centrifuge and retrieve the **26.39 spoonful of centrifuged mixture "purified being greek"**.
7. Let your familiar mouse sniff at **8.52 ounces of myth**.
8. Dump the **8.52 ounces of myth**, **1 goddess**, **2 wet godlinesses** and **26.39 spoonful of centrifuged mixture "purified being greek"** into a pile on the floor.
9. Wait until they magically transform into a **mythology**.

174 A nails

How to make a **nails** in 11 easy steps:

174.1 Materials

- 1.7 spoonful of carpenter
- 1.26 spoonful of fingers
- 29 techniques
- 60.73 spoonful of clippers

174.2 Tools

- Centrifuge
- Fireplace
- Container

174.3 Instructions

1. Put **29 techniques** into the rotating centrifuge.
2. Put **60.73 spoonful of clippers** into the container.
3. Speed up the centrifuge.
4. Fan the flames of the fireplace.
5. Stop the centrifuge and retrieve the **4.3 spoonful of centrifuged mixture "technique"**.
6. Put **4.3 spoonful of centrifuged mixture "technique"** into the rotating centrifuge.
7. Wait.
8. Stop the centrifuge and retrieve the **7.78 ounces of centrifuged mixture "centrifuged mixture "technique" "**.
9. Pour out the mixture from the container to get the **3.2 ounces of container mixture "clippers"**.
10. Fold the **1.7 spoonful of carpenter**, **1.26 spoonful of fingers**, **7.78 ounces of centrifuged mixture "centrifuged mixture "technique" "** and **3.2 ounces of container mixture "clippers"** together using advanced origami techniques.
11. If you've done it correctly, it should result in a **nails**.

175 A navy

How to make a **navy** in 7 easy steps:

175.1 Materials

- 5.51 ounces of army
- 1.78 spoonful of seal
- 29.66 spoonful of submarine
- 7.75 ounces of lieutenant

175.2 Tools

- Purifier
- Vessel

175.3 Instructions

1. Purify **5.51 ounces of army** with the purifier.
2. Let the vessel cool down.
3. Throw **29.66 spoonful of submarine**, **5.51 ounces of purified army**, **1.78 spoonful of seal** and **7.75 ounces of lieutenant** away.
4. Heat the vessel.
5. Wait.
6. Stir the vessel.
7. Turn around. You will find that a **navy** was there all along.

176 A night

How to make a **night** in 9 easy steps:

176.1 Materials

- 8 halloweens
- 16 clear concepts of opening
- 6.36 ounces of asleep
- 2.92 ounces of motel

176.2 Tools

- Bonfire
- Saw
- Nails

176.3 Instructions

1. Hold **2.92 ounces of motel** briefly into the bonfire to burn them a bit.
2. Put **8 halloweens** into the bonfire.
3. Use the saw to slice **16 clear concepts of opening** into bits.
4. Fan the flames of the bonfire.
5. Retrieve the **4.69 spoonful of ashes of "halloween"** from the bonfire.
6. Use the saw to slice **2.92 ounces of slightly burned motel** into bits.
7. Fan the flames of the bonfire.
8. Wait for a rather long time.
9. Use nails to join the **16 sliced clear concepts of opening, 6.36 ounces of asleep, 2.92 ounces of slightly burned and sliced motel** and **4.69 spoonful of ashes of "halloween"** together into the shape of a perfectly functional **night**.

177 A nomad

How to make a **nomad** in 9 easy steps:

177.1 Materials

- 6.01 ounces of digression
- 4 ideas of being vagrant
- 7.0 spoonful of vagabond

177.2 Tools

- Purifier
- Fireplace
- Fountain pen

177.3 Instructions

1. Put **4 ideas of being vagrant** into the fireplace.
2. Hold **6.01 ounces of digression** briefly into the fireplace to burn them a bit.
3. Hold **6.01 ounces of slightly burned digression** briefly into the fireplace to burn them a bit.
4. Purify **7.0 spoonful of vagabond** with the purifier.
5. Retrieve the **3.96 ounces of ashes of "being vagrant"** from the fireplace.
6. Draw a magic circle on the floor using the fountain pen.
7. Draw a triangle into the circle and place **6.01 ounces of burned digression**, **7.0 spoonful of purified vagabond** and **3.96 ounces of ashes of "being vagrant"** on each corner.
8. Chant the following spell: "Cyminondus chia daphicusorto prophus aron consus sarium fricium! Coro fumanarca antempromo! Cluda trachia insum! Pinnuba cognatus!"
9. Reluctantly, a **nomad** will appear inside the circle.

178 An oar

How to make an **oar** in 11 easy steps:

178.1 Materials

- 7 rows
- 2 clear concepts of paddle
- 1.51 ounces of canoe
- 6.07 spoonful of stroke

178.2 Tools

- Stone
- Saw
- Purifier
- Bucket with ice-cold water

178.3 Instructions

1. Crack **1.51 ounces of canoe** with the stone.
2. Purify **1.51 ounces of cracked canoe** with the purifier.
3. Smash **2 clear concepts of paddle** with the stone.
4. Use the saw to slice **1.51 ounces of cracked and purified canoe** into bits.
5. Crack **6.07 spoonful of stroke** with the stone.
6. Dip **1.51 ounces of cracked, purified and sliced canoe** into the bucket with ice-cold water.
7. Wait.
8. Smash **1.51 ounces of cracked, purified, sliced and wet canoe** with the stone.
9. Crack **1.51 ounces of cracked, purified, sliced, wet and smashed canoe** with the stone.
10. Fold the **7 rows, 2 smashed clear concepts of paddle, 1.51 ounces of crushed, purified, sliced, wet and smashed canoe and 6.07 spoonful of cracked stroke** together using advanced origami techniques.
11. If you've done it correctly, it could result in an **oar**.

179 An object

How to make an **object** in 13 easy steps:

179.1 Materials

- 10 somethings
- 18.19 spoonful of thing
- 6 vague notions of being dense
- 5 vague notions of being foreign

179.2 Tools

- Cauldron
- Centrifuge
- Freezer

179.3 Instructions

1. Let the cauldron cool down.
2. Heat the cauldron.
3. Stir the cauldron.
4. Put **6 vague notions of being dense** into the rotating centrifuge.
5. Let the cauldron cool down.
6. Speed up the centrifuge.
7. Wait.
8. Put **18.19 spoonful of thing** into the freezer for a while.
9. Stop the centrifuge and retrieve the **8.46 spoonful of centrifuged mixture "being dense"**.
10. Put **8.46 spoonful of centrifuged mixture "being dense"** into the cauldron.
11. Pour out the mixture from the cauldron to get the **5.01 spoonful of cauldron mixture "centrifuged mixture "being dense"**.
12. Fold the **10 somethings, 18.19 spoonful of cooled thing, 5 vague notions of being foreign and 5.01 spoonful of cauldron mixture "centrifuged mixture "being dense"** together using advanced origami techniques.

13. If you've done it correctly, it might result in an **object**.

180 An opener

How to make an **opener** in 9 easy steps:

180.1 Materials

- 19.28 ounces of can
- 8.08 spoonful of letter
- 14 garages
- 61.97 spoonful of bottle

180.2 Tools

- Purifier
- Centrifuge

180.3 Instructions

1. Put **19.28 ounces of can** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **7.85 ounces of centrifuged mixture "can"**.
3. Put **7.85 ounces of centrifuged mixture "can"** into the rotating centrifuge.
4. Put **8.08 spoonful of letter** into the rotating centrifuge.
5. Purify **14 garages** with the purifier.
6. Put **61.97 spoonful of bottle** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **11.37 spoonful of centrifuged mixture "centrifuged mixture "can", letter and bottle"**.
8. Fold the **14 purified garages** and **11.37 spoonful of centrifuged mixture "centrifuged mixture "can", letter and bottle"** together using advanced origami techniques.
9. If you've done it correctly, it might result in an **opener**.

181 An orthodontist

How to make an **orthodontist** in 6 easy steps:

181.1 Materials

- 4.3 spoonful of dentist

181.2 Tools

- Freezer
- Container
- Purifier

181.3 Instructions

1. Purify **4.3 spoonful of dentist** with the purifier.
2. Heat the container.
3. Put **4.3 spoonful of purified dentist** into the freezer for a while.
4. Let the container cool down.
5. Fold the **4.3 spoonful of purified and cooled dentist** together using advanced origami techniques.
6. If you've done it correctly, it could result in an **orthodontist**.

182 A pack

How to make a **pack** in 7 easy steps:

182.1 Materials

- 5 varieties
- 3.18 spoonful of jam
- 17.91 spoonful of leader
- 5.58 ounces of knapsack

182.2 Tools

- Bucket with hot liquid
- Purifier
- Saw
- Electric paint

182.3 Instructions

1. Use the saw to slice **5.58 ounces of knapsack** into bits.
2. Purify **3.18 spoonful of jam** with the purifier.
3. Dip **3.18 spoonful of purified jam** into the bucket with hot liquid.
4. Draw a magic circle on the floor using the electric paint.
5. Draw a square into the circle and place **5 varieties, 3.18 spoonful of purified and wet jam, 17.91 spoonful of leader** and **5.58 ounces of sliced knapsack** on each corner.
6. Whisper the following spell: "Cuncurriono! Collannio!"
7. Reluctantly, a **pack** will appear inside the circle.

183 A parade

How to make a **parade** in 11 easy steps:

183.1 Materials

- 18.95 ounces of circus
- 36.29 spoonful of march
- 2.34 ounces of festival

183.2 Tools

- Fireplace
- Mortar

183.3 Instructions

1. Smash **2.34 ounces of festival** with the mortar.
2. Put **36.29 spoonful of march** into the fireplace.
3. Crack **2.34 ounces of smashed festival** with the mortar.
4. Smash **2.34 ounces of smashed and cracked festival** with the mortar.
5. Hold **2.34 ounces of pulverized and cracked festival** briefly into the fireplace to burn them a bit.
6. Put **18.95 ounces of circus** into the fireplace.
7. Wait for a second.
8. Fan the flames of the fireplace.
9. Retrieve the **2.01 ounces of ashes of "march and circus"** from the fireplace.
10. Fold the **2.34 ounces of pulverized, cracked and slightly burned festival** and **2.01 ounces of ashes of "march and circus"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **parade**.

184 A pardon

How to make a **pardon** in 7 easy steps:

184.1 Materials

- 1 clear concept of being sorry
- 2.47 spoonful of excuse

184.2 Tools

- Vessel
- Centrifuge

184.3 Instructions

1. Let the vessel cool down.
2. Put **2.47 spoonful of excuse** into the rotating centrifuge.
3. Stir the vessel.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **23.08 spoonful of centrifuged mixture "excuse"**.
6. Dump the **1 clear concept of being sorry** and **23.08 spoonful of centrifuged mixture "excuse"** into a pile on the floor.
7. Wait until they magically transform into a **pardon**.

185 A pass out

How to make a **pass out** in 6 easy steps:

185.1 Materials

- 6 clear concepts of being unconscious
- 3 vague notions of being faint
- 20 ideas of collecting

185.2 Tools

- Stone
- Bucket with ionised water
- Familiar ape

185.3 Instructions

1. Let your familiar ape sniff at **6 clear concepts of being unconscious**.
2. Let your familiar ape lick **20 ideas of collecting**.
3. Smash **6 clear concepts of being unconscious** with the stone.
4. Dip **3 vague notions of being faint** into the bucket with ionised water.
5. Fold the **6 smashed clear concepts of being unconscious**, **3 wet vague notions of being faint** and **20 licked ideas of collecting** together using advanced origami techniques.
6. If you've done it correctly, it could result in a **pass out**.

186 A patrol

How to make a **patrol** in 10 easy steps:

186.1 Materials

- 7.59 spoonful of border
- 4 safeties
- 6 cops
- 1.03 ounces of highway

186.2 Tools

- Saw
- Fireplace
- Container
- Bucket with hot water

186.3 Instructions

1. Fan the flames of the fireplace.
2. Hold **4 safeties** briefly into the fireplace to burn them a bit.
3. Put **1.03 ounces of highway** into the container.
4. Wait.
5. Use the saw to slice **4 slightly burned safeties** into bits.
6. Fan the flames of the fireplace.
7. Dip **7.59 spoonful of border** into the bucket with hot water.
8. Pour out the mixture from the container to get the **6.06 ounces of container mixture "highway"**.
9. Fold the **7.59 spoonful of wet border**, **4 slightly burned and sliced safeties**, **6 cops** and **6.06 ounces of container mixture "highway"** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **patrol**.

187 A pebble

How to make a **pebble** in 14 easy steps:

187.1 Materials

- 7.47 ounces of boulder
- 33.24 ounces of stone
- 9 sands

187.2 Tools

- Centrifuge
- Stone
- Fireplace

187.3 Instructions

1. Put **33.24 ounces of stone** into the rotating centrifuge.
2. Crack **9 sands** with the stone.
3. Wait for 10 hours.
4. Put **7.47 ounces of boulder** into the rotating centrifuge.
5. Crack **9 cracked sands** with the stone.
6. Hold **9 crushed sands** briefly into the fireplace to burn them a bit.
7. Hold **9 crushed and slightly burned sands** briefly into the fireplace to burn them a bit.
8. Put **9 crushed and burned sands** into the fireplace.
9. Fan the flames of the fireplace.
10. Wait for a rather short time.
11. Stop the centrifuge and retrieve the **4.97 spoonful of centrifuged mixture "stone and boulder"**.
12. Retrieve the **4.28 ounces of ashes of "crushed and burned sand"** from the fireplace.
13. Fold the **4.97 spoonful of centrifuged mixture "stone and boulder"** and **4.28 ounces of ashes of "crushed and burned sand"** together using advanced origami techniques.
14. If you've done it correctly, it should result in a **pebble**.

188 A pedestrian

How to make a **pedestrian** in 14 easy steps:

188.1 Materials

- 7 sidewalks
- 2.45 spoonful of walkway
- 4 clear concepts of crossing
- 7.03 spoonful of walker

188.2 Tools

- Purifier
- Bonfire
- Centrifuge
- Familiar ape
- Freezer

188.3 Instructions

1. Let your familiar ape sniff at **4 clear concepts of crossing**.
2. Hold **7 sidewalks** briefly into the bonfire to burn them a bit.
3. Purify **7 slightly burned sidewalks** with the purifier.
4. Put **2.45 spoonful of walkway** into the rotating centrifuge.
5. Put **7 slightly burned and purified sidewalks** into the freezer for a while.
6. Wait.
7. Pet your familiar ape.
8. Pick up **7.03 spoonful of walker**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
9. Feed **7 slightly burned, purified and cooled sidewalks** to your familiar ape.
10. Hold **4 clear concepts of crossing** briefly into the bonfire to burn them a bit.

11. Stop the centrifuge and retrieve the **10.7 ounces of centrifuged mixture "walkway"**.
12. Wait until your familiar ape poops. Receive **31.96 ounces of a very dirty pile of "slightly burned, purified and cooled sidewalk"**.
13. Fold the **4 slightly burned clear concepts of crossing, 7.03 spoonful of walker, 10.7 ounces of centrifuged mixture "walkway"** and **31.96 ounces of a very dirty pile of "slightly burned, purified and cooled sidewalk"** together using advanced origami techniques.
14. If you've done it correctly, it should result in a **pedestrian**.

189 A pencil

How to make a **pencil** in 12 easy steps:

189.1 Materials

- 7.88 spoonful of eyebrows
- 120.2 ounces of crayon
- 1.61 ounces of mechanics
- 4.57 spoonful of pen

189.2 Tools

- Centrifuge
- Container
- Hammer
- Bonfire
- Nails

189.3 Instructions

1. Put **120.2 ounces of crayon** into the container.
2. Put **4.57 spoonful of pen** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Smash **7.88 spoonful of eyebrows** with the hammer.
5. Put **1.61 ounces of mechanics** into the bonfire.
6. Put **7.88 spoonful of smashed eyebrows** into the bonfire.
7. Speed up the centrifuge.
8. Heat the container.
9. Stop the centrifuge and retrieve the **24.92 spoonful of centrifuged mixture "pen"**.
10. Pour out the mixture from the container to get the **2.63 spoonful of container mixture "crayon"**.
11. Retrieve the **1.56 spoonful of ashes of "mechanics and smashed eyebrows"** from the bonfire.

12. Use nails to join the **24.92 spoonful of centrifuged mixture "pen"**, **2.63 spoonful of container mixture "crayon"** and **1.56 spoonful of ashes of "mechanics and smashed eyebrows"** together into the shape of a passable **pencil**.

190 A peroxide

How to make a **peroxide** in 11 easy steps:

190.1 Materials

- 4.42 spoonful of hydrogen
- 6.04 spoonful of nitrogen

190.2 Tools

- Centrifuge
- Vessel

190.3 Instructions

1. Wait for a very short time.
2. Stir the vessel.
3. Put **6.04 spoonful of nitrogen** into the vessel.
4. Put **4.42 spoonful of hydrogen** into the rotating centrifuge.
5. Pour out the mixture from the vessel to get the **3.93 ounces of vessel mixture "nitrogen"**.
6. Wait.
7. Let the vessel cool down.
8. Heat the vessel.
9. Stop the centrifuge and retrieve the **9.2 ounces of centrifuged mixture "hydrogen"**.
10. Dump the **3.93 ounces of vessel mixture "nitrogen"** and **9.2 ounces of centrifuged mixture "hydrogen"** into a pile on the floor.
11. Wait until they magically transform into a **peroxide**.

191 A pill

How to make a **pill** in 7 easy steps:

191.1 Materials

- 3.36 spoonful of vitamin
- 6.54 ounces of medicine
- 9.06 spoonful of prescription
- 6.79 ounces of protein

191.2 Tools

- Bucket with ionised liquid
- Purifier

191.3 Instructions

1. Purify **6.54 ounces of medicine** with the purifier.
2. Dip **3.36 spoonful of vitamin** into the bucket with ionised liquid.
3. Wait.
4. Throw **6.54 ounces of purified medicine, 3.36 spoonful of wet vitamin, 9.06 spoonful of prescription** and **6.79 ounces of protein** away.
5. Grind a little bit of bat wings to dust and add it. It's not strictly needed, but doesn't hurt I guess?
6. Wait.
7. Wait a bit until a **pill** suddenly appears.

192 A pimple

How to make a **pimple** in 13 easy steps:

192.1 Materials

- 1.51 spoonful of wart
- 9.12 spoonful of chocolate
- 14 zits
- 2.24 ounces of freckle

192.2 Tools

- Cauldron
- Centrifuge
- Bucket with ionised liquid
- Freezer
- Pet cat

192.3 Instructions

1. Let the cauldron cool down.
2. Put **9.12 spoonful of chocolate** into the cauldron.
3. Feed **14 zits** to your pet cat.
4. Wait until your pet cat poops. Receive **25.72 spoonful of a very dirty pile of "zit"**.
5. Put **2.24 ounces of freckle** into the cauldron.
6. Put **25.72 spoonful of a very dirty pile of "zit"** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Pour out the mixture from the cauldron to get the **7.91 spoonful of cauldron mixture "chocolate and freckle"**.
9. Put **7.91 spoonful of cauldron mixture "chocolate and freckle"** into the freezer for a while.
10. Dip **7.91 spoonful of cooled cauldron mixture "chocolate and freckle"** into the bucket with ionised liquid.

11. Stop the centrifuge and retrieve the **8.4 ounces of centrifuged mixture "a very dirty pile of "zit"".**
12. Fold the **1.51 spoonful of wart, 7.91 spoonful of cooled and wet cauldron mixture "chocolate and freckle"** and **8.4 ounces of centrifuged mixture "a very dirty pile of "zit""** together using advanced origami techniques.
13. If you've done it correctly, it should result in a **pimple**.

193 A pipe

How to make a **pipe** in 13 easy steps:

193.1 Materials

- 1.74 ounces of stove
- 7.69 spoonful of smoke
- 6 ideas of clog
- 5 tobaccos

193.2 Tools

- Fireplace
- Saw
- Centrifuge
- Container
- Paintbrush

193.3 Instructions

1. Put **5 tobaccos** into the fireplace.
2. Put **6 ideas of clog** into the container.
3. Wait.
4. Use the saw to slice **7.69 spoonful of smoke** into bits.
5. Put **1.74 ounces of stove** into the rotating centrifuge.
6. Retrieve the **8.7 spoonful of ashes of "tobacco"** from the fireplace.
7. Use the saw to slice **7.69 spoonful of sliced smoke** into bits.
8. Stop the centrifuge and retrieve the **36.85 spoonful of centrifuged mixture "stove"**.
9. Pour out the mixture from the container to get the **14.74 ounces of container mixture "clog"**.
10. Draw a magic circle on the floor using the paintbrush.

11. Draw a square into the circle and place **7.69 spoonful of fragmented smoke, 8.7 spoonful of ashes of "tobacco", 36.85 spoonful of centrifuged mixture "stove"** and **14.74 ounces of container mixture "clog"** on each corner.
12. Whisper the following spell: "Manus inprea rex!"
13. Reluctantly, a **pipe** will appear inside the circle.

194 A plates

How to make a **plates** in 14 easy steps:

194.1 Materials

- 1.85 spoonful of dishes
- 4.14 ounces of cupboard
- 16.08 spoonful of cups

194.2 Tools

- Fireplace
- Freezer
- Vessel
- Mortar

194.3 Instructions

1. Smash **1.85 spoonful of dishes** with the mortar.
2. Put **4.14 ounces of cupboard** into the vessel.
3. Crack **16.08 spoonful of cups** with the mortar.
4. Heat the vessel.
5. Put **1.85 spoonful of smashed dishes** into the freezer for a while.
6. Wait.
7. Stir the vessel.
8. Heat the vessel.
9. Put **1.85 spoonful of smashed and cooled dishes** into the freezer for a while.
10. Put **16.08 spoonful of cracked cups** into the fireplace.
11. Retrieve the **2.03 spoonful of ashes of "cracked cups"** from the fireplace.
12. Pour out the mixture from the vessel to get the **2.45 ounces of vessel mixture "cupboard"**.

13. Dump the **1.85 spoonful of smashed and frozen dishes, 2.03 spoonful of ashes of "cracked cups"** and **2.45 ounces of vessel mixture "cupboard"** into a pile on the floor.
14. Wait until they magically transform into a **plates**.

195 A plumber

How to make a **plumber** in 11 easy steps:

195.1 Materials

- 19.1 spoonful of carpenter
- 8.86 spoonful of twist
- 12.6 spoonful of technician
- 4 electricians

195.2 Tools

- Centrifuge
- Cauldron
- Purifier
- Fireplace
- Glue

195.3 Instructions

1. Stir the cauldron.
2. Hold **12.6 spoonful of technician** briefly into the fireplace to burn them a bit.
3. Let the cauldron cool down.
4. Fan the flames of the fireplace.
5. Stir the cauldron.
6. Put **4 electricians** into the rotating centrifuge.
7. Purify **8.86 spoonful of twist** with the purifier.
8. Speed up the centrifuge.
9. Stop the centrifuge and retrieve the **2.26 ounces of centrifuged mixture "electrician"**.
10. Let the cauldron cool down.
11. Use glue to join the **19.1 spoonful of carpenter**, **8.86 spoonful of purified twist**, **12.6 spoonful of slightly burned technician** and **2.26 ounces of centrifuged mixture "electrician"** together into the shape of a perfectly functional **plumber**.

196 A plush

How to make a **plush** in 12 easy steps:

196.1 Materials

- 2.64 spoonful of luxury
- 6.95 ounces of cushion
- 32.98 ounces of carpet

196.2 Tools

- Bonfire
- Centrifuge
- Mortar
- Purifier

196.3 Instructions

1. Smash **2.64 spoonful of luxury** with the mortar.
2. Put **32.98 ounces of carpet** into the rotating centrifuge.
3. Fan the flames of the bonfire.
4. Wait for a rather long time.
5. Purify **2.64 spoonful of smashed luxury** with the purifier.
6. Put **6.95 ounces of cushion** into the bonfire.
7. Put **2.64 spoonful of smashed and purified luxury** into the bonfire.
8. Speed up the centrifuge.
9. Retrieve the **9.12 spoonful of ashes of "cushion and smashed and purified luxury"** from the bonfire.
10. Stop the centrifuge and retrieve the **4.49 spoonful of centrifuged mixture "carpet"**.
11. Dump the **9.12 spoonful of ashes of "cushion and smashed and purified luxury"** and **4.49 spoonful of centrifuged mixture "carpet"** into a pile on the floor.
12. Wait until they magically transform into a **plush**.

197 A poet

How to make a **poet** in 11 easy steps:

197.1 Materials

- 2.31 ounces of author
- 49.15 spoonful of poem
- 6.28 ounces of rhyme
- 6 writers

197.2 Tools

- Saw
- Purifier
- Bonfire

197.3 Instructions

1. Purify **2.31 ounces of author** with the purifier.
2. Fan the flames of the bonfire.
3. Hold **6 writers** briefly into the bonfire to burn them a bit.
4. Hold **2.31 ounces of purified author** briefly into the bonfire to burn them a bit.
5. Wait.
6. Use the saw to slice **6.28 ounces of rhyme** into bits.
7. Put **6.28 ounces of sliced rhyme** into the bonfire.
8. Retrieve the **2.09 spoonful of ashes of "sliced rhyme"** from the bonfire.
9. Put **49.15 spoonful of poem** into the bonfire.
10. Dump the **2.31 ounces of purified and slightly burned author, 6 slightly burned writers** and **2.09 spoonful of ashes of "sliced rhyme"** into a pile on the floor.
11. Wait until they magically transform into a **poet**.

198 A poise

How to make a **poise** in 7 easy steps:

198.1 Materials

- 2.95 spoonful of grace

198.2 Tools

- Mortar
- Purifier
- Saw

198.3 Instructions

1. Wait.
2. Purify **2.95 spoonful of grace** with the purifier.
3. Use the saw to slice **2.95 spoonful of purified grace** into bits.
4. Crack **2.95 spoonful of purified and sliced grace** with the mortar.
5. Wait for a rather short time.
6. Dump the **2.95 spoonful of purified, sliced and cracked grace** into a pile on the floor.
7. Wait until they magically transform into a **poise**.

199 A policy

How to make a **policy** in 16 easy steps:

199.1 Materials

- 28.77 ounces of rule
- 32 insurances
- 78.4 ounces of company
- 6.42 spoonful of attendance

199.2 Tools

- Container
- Bonfire
- Purifier
- Hammer
- Centrifuge
- Graphite pencil

199.3 Instructions

1. Crack **28.77 ounces of rule** with the hammer.
2. Put **78.4 ounces of company** into the rotating centrifuge.
3. Put **32 insurances** into the container.
4. Purify **28.77 ounces of cracked rule** with the purifier.
5. Fan the flames of the bonfire.
6. Hold **28.77 ounces of cracked and purified rule** briefly into the bonfire to burn them a bit.
7. Put **6.42 spoonful of attendance** into the bonfire.
8. Wait.
9. Stop the centrifuge and retrieve the **14.12 spoonful of centrifuged mixture "company"**.
10. Stir the container.

11. Pour out the mixture from the container to get the **24.77 ounces of container mixture "insurance"**.
12. Retrieve the **12.74 spoonful of ashes of "attendance"** from the bonfire.
13. Draw a magic circle on the floor using the graphite pencil.
14. Draw a square into the circle and place **28.77 ounces of cracked, purified and slightly burned rule, 14.12 spoonful of centrifuged mixture "company", 24.77 ounces of container mixture "insurance"** and **12.74 spoonful of ashes of "attendance"** on each corner.
15. Chant the following spell: "Spletitio sessor competer dasculibilis furcius cranarius!"
16. Suddenly, a **policy** will appear inside the circle.

200 A porch

How to make a **porch** in 14 easy steps:

200.1 Materials

- 48.55 ounces of patio
- 8 vague notions of swing
- 8.42 spoonful of balcony
- 30 walkways

200.2 Tools

- Freezer
- Vessel
- Centrifuge
- Saw
- Mortar
- Fireplace
- Charcoal pencil

200.3 Instructions

1. Put **8.42 spoonful of balcony** into the rotating centrifuge.
2. Smash **8 vague notions of swing** with the mortar.
3. Fan the flames of the fireplace.
4. Put **30 walkways** into the freezer for a while.
5. Use the saw to slice **30 cooled walkways** into bits.
6. Put **48.55 ounces of patio** into the vessel.
7. Let the vessel cool down.
8. Use the saw to slice **30 cooled and sliced walkways** into bits.
9. Pour out the mixture from the vessel to get the **9.35 spoonful of vessel mixture "patio"**.
10. Stop the centrifuge and retrieve the **4.77 ounces of centrifuged mixture "balcony"**.

11. Draw a magic circle on the floor using the charcoal pencil.
12. Draw a cross into the circle and place **8 smashed vague notions of swing, 30 cooled and fragmented walkways, 9.35 spoonful of vessel mixture "patio"** and **4.77 ounces of centrifuged mixture "balcony"** on each corner.
13. Whisper the following spell: "Tot chium augulum!"
14. Reluctantly, a **porch** will appear inside the circle.

201 A post

How to make a **post** in 10 easy steps:

201.1 Materials

- 1.02 spoonful of parcel
- 3 crutches
- 45.34 spoonful of mailbox
- 132.74 spoonful of after

201.2 Tools

- Cauldron
- Fireplace
- Screws

201.3 Instructions

1. Put **45.34 spoonful of mailbox** into the fireplace.
2. Stir the cauldron.
3. Put **1.02 spoonful of parcel** into the cauldron.
4. Heat the cauldron.
5. Put **132.74 spoonful of after** into the fireplace.
6. Put **3 crutches** into the fireplace.
7. Fan the flames of the fireplace.
8. Pour out the mixture from the cauldron to get the **9.76 ounces of cauldron mixture "parcel"**.
9. Retrieve the **6.9 spoonful of ashes of "mailbox, after and crutch"** from the fireplace.
10. Use screws to join the **9.76 ounces of cauldron mixture "parcel"** and **6.9 spoonful of ashes of "mailbox, after and crutch"** together into the shape of a usable **post**.

202 A practice

How to make a **practice** in 14 easy steps:

202.1 Materials

- 21.58 spoonful of theory
- 9 skills
- 6.31 spoonful of target
- 3.55 spoonful of drill

202.2 Tools

- Stone
- Freezer
- Vessel
- Centrifuge

202.3 Instructions

1. Put **3.55 spoonful of drill** into the rotating centrifuge.
2. Put **21.58 spoonful of theory** into the vessel.
3. Speed up the centrifuge.
4. Put **9 skills** into the freezer for a while.
5. Let the vessel cool down.
6. Crack **9 cooled skills** with the stone.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **7.83 ounces of centrifuged mixture "drill"**.
9. Put **9 cooled and cracked skills** into the rotating centrifuge.
10. Put **7.83 ounces of centrifuged mixture "drill"** into the vessel.
11. Pour out the mixture from the vessel to get the **39.46 ounces of vessel mixture "theory and centrifuged mixture "drill"**.
12. Stop the centrifuge and retrieve the **3.19 ounces of centrifuged mixture "cooled and cracked skill"**.

13. Dump the **6.31 spoonful of target**, **39.46 ounces of vessel mixture "theory and centrifuged mixture "drill"** and **3.19 ounces of centrifuged mixture "cooled and cracked skill"** into a pile on the floor.
14. Wait until they magically transform into a **practice**.

203 A preacher

How to make a **preacher** in 9 easy steps:

203.1 Materials

- 9 sermons
- 24.11 spoonful of bishop
- 19.64 ounces of friar
- 1 church

203.2 Tools

- Container
- Bucket with clean water
- Fireplace

203.3 Instructions

1. Put **1 church** into the fireplace.
2. Put **24.11 spoonful of bishop** into the container.
3. Let the container cool down.
4. Heat the container.
5. Dip **9 sermons** into the bucket with clean water.
6. Pour out the mixture from the container to get the **4.59 spoonful of container mixture "bishop"**.
7. Retrieve the **5.68 spoonful of ashes of "church"** from the fireplace.
8. Dump the **9 wet sermons, 19.64 ounces of friar, 4.59 spoonful of container mixture "bishop"** and **5.68 spoonful of ashes of "church"** into a pile on the floor.
9. Wait until they magically transform into a **preacher**.

204 A prejudice

How to make a **prejudice** in 12 easy steps:

204.1 Materials

- 4.41 ounces of bias
- 20.03 spoonful of condemnation
- 38 prides
- 5 clear concepts of being extreme

204.2 Tools

- Saw
- Cauldron
- Stone

204.3 Instructions

1. Stir the cauldron.
2. Heat the cauldron.
3. Put **5 clear concepts of being extreme** into the cauldron.
4. Stir the cauldron.
5. Smash **38 prides** with the stone.
6. Heat the cauldron.
7. Crack **20.03 spoonful of condemnation** with the stone.
8. Smash **4.41 ounces of bias** with the stone.
9. Use the saw to slice **38 smashed prides** into bits.
10. Pour out the mixture from the cauldron to get the **19.81 spoonful of cauldron mixture "being extreme"**.
11. Dump the **4.41 ounces of smashed bias, 20.03 spoonful of cracked condemnation, 38 smashed and sliced prides and 19.81 spoonful of cauldron mixture "being extreme"** into a pile on the floor.
12. Wait until they magically transform into a **prejudice**.

205 A pressure

How to make a **pressure** in 13 easy steps:

205.1 Materials

- 93.15 spoonful of anxiety
- 7 clear concepts of urge
- 7 valves
- 1 gauge

205.2 Tools

- Cauldron
- Centrifuge
- Bucket with ionised liquid
- Hammer
- Saw
- Nails

205.3 Instructions

1. Put **93.15 spoonful of anxiety** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Stop the centrifuge and retrieve the **3.11 spoonful of centrifuged mixture "anxiety"**.
4. Dip **7 clear concepts of urge** into the bucket with ionised liquid.
5. Wait.
6. Put **7 wet clear concepts of urge** into the cauldron.
7. Stir the cauldron.
8. Put **3.11 spoonful of centrifuged mixture "anxiety"** into the rotating centrifuge.
9. Crack **7 valves** with the hammer.
10. Use the saw to slice **7 cracked valves** into bits.

11. Pour out the mixture from the cauldron to get the **3.15 ounces of cauldron mixture "wet urge"**.
12. Stop the centrifuge and retrieve the **1.07 spoonful of centrifuged mixture "centrifuged mixture "anxiety" "**.
13. Use nails to join the **7 cracked and sliced valves, 1 gauge, 3.15 ounces of cauldron mixture "wet urge"** and **1.07 spoonful of centrifuged mixture "centrifuged mixture "anxiety" "** together into the shape of a passable **pressure**.

206 A process

How to make a **process** in 13 easy steps:

206.1 Materials

- 3 clear concepts of happening
- 4.15 ounces of system
- 30 datas
- 6.29 spoonful of selection

206.2 Tools

- Bucket with clean water
- Centrifuge
- Purifier
- Bonfire
- Container
- Familiar hummingbird
- Screws

206.3 Instructions

1. Purify **30 datas** with the purifier.
2. Put **3 clear concepts of happening** into the rotating centrifuge.
3. Let the container cool down.
4. Put **4.15 ounces of system** into the bonfire.
5. Pet your familiar hummingbird.
6. Pick up **30 purified datas**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
7. Feed **6.29 spoonful of selection** to your familiar hummingbird.
8. Dip **30 purified datas** into the bucket with clean water.
9. Fan the flames of the bonfire.
10. Stop the centrifuge and retrieve the **9.15 ounces of centrifuged mixture "happening"**.

11. Retrieve the **6.31 ounces of ashes of "system"** from the bonfire.
12. Wait until your familiar hummingbird poops. Receive **832.15 ounces of a very dirty pile of "selection"**.
13. Use screws to join the **30 purified and wet datas, 9.15 ounces of centrifuged mixture "happening", 6.31 ounces of ashes of "system"** and **832.15 ounces of a very dirty pile of "selection"** together into the form of a usable **process**.

207 A producer

How to make a **producer** in 9 easy steps:

207.1 Materials

- 2.0 ounces of executive
- 6.6 spoonful of director
- 5.98 ounces of consumer
- 1.88 spoonful of manufacturer

207.2 Tools

- Bucket with hot liquid
- Centrifuge
- Screws

207.3 Instructions

1. Put **5.98 ounces of consumer** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **7.58 ounces of centrifuged mixture "consumer"**.
3. Wait for a long time.
4. Dip **6.6 spoonful of director** into the bucket with hot liquid.
5. Put **7.58 ounces of centrifuged mixture "consumer"** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Put **2.0 ounces of executive** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **9.64 spoonful of centrifuged mixture "centrifuged mixture "consumer" and executive"**.
9. Use screws to join the **6.6 spoonful of wet director**, **1.88 spoonful of manufacturer** and **9.64 spoonful of centrifuged mixture "centrifuged mixture "consumer" and executive"** together into the form of a passable **producer**.

208 A prose

How to make a **prose** in 12 easy steps:

208.1 Materials

- 8.46 ounces of poem
- 4.32 ounces of poetry
- 9 verses

208.2 Tools

- Purifier
- Mortar
- Cauldron
- Bucket with water
- Fireplace
- Saw

208.3 Instructions

1. Fan the flames of the fireplace.
2. Let the cauldron cool down.
3. Put **9 verses** into the cauldron.
4. Purify **4.32 ounces of poetry** with the purifier.
5. Let the cauldron cool down.
6. Use the saw to slice **8.46 ounces of poem** into bits.
7. Pour out the mixture from the cauldron to get the **33.48 spoonful of cauldron mixture "verse"**.
8. Crack **8.46 ounces of sliced poem** with the mortar.
9. Purify **33.48 spoonful of cauldron mixture "verse"** with the purifier.
10. Dip **33.48 spoonful of purified cauldron mixture "verse"** into the bucket with water.
11. Dump the **8.46 ounces of sliced and cracked poem, 4.32 ounces of purified poetry** and **33.48 spoonful of purified and wet cauldron mixture "verse"** into a pile on the floor.
12. Wait until they magically transform into a **prose**.

209 A psalm

How to make a **psalm** in 4 easy steps:

209.1 Materials

- 31.19 ounces of proverb
- 295.76 ounces of hymn

209.2 Tools

- Saw
- Pet cat

209.3 Instructions

1. Use the saw to slice **31.19 ounces of proverb** into bits.
2. Let your pet cat lick **31.19 ounces of sliced proverb**.
3. Fold the **31.19 ounces of sliced and licked proverb** and **295.76 ounces of hymn** together using advanced origami techniques.
4. If you've done it correctly, it might result in a **psalm**.

210 A puddle

How to make a **puddle** in 13 easy steps:

210.1 Materials

- 7 rains
- 8 muds

210.2 Tools

- Vessel
- Centrifuge
- Purifier
- Fireplace
- Hammer
- Nails

210.3 Instructions

1. Hold **8 muds** briefly into the fireplace to burn them a bit.
2. Stir the vessel.
3. Smash **7 rains** with the hammer.
4. Purify **7 smashed rains** with the purifier.
5. Crack **8 slightly burned muds** with the hammer.
6. Put **8 slightly burned and cracked muds** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Fan the flames of the fireplace.
9. Put **7 smashed and purified rains** into the fireplace.
10. Heat the vessel.
11. Stop the centrifuge and retrieve the **6.96 spoonful of centrifuged mixture "slightly burned and cracked mud"**.
12. Retrieve the **7.52 spoonful of ashes of "smashed and purified rain"** from the fireplace.
13. Use nails to join the **6.96 spoonful of centrifuged mixture "slightly burned and cracked mud"** and **7.52 spoonful of ashes of "smashed and purified rain"** together into the shape of a usable **puddle**.

211 A punch

How to make a **punch** in 12 easy steps:

211.1 Materials

- 9 clear concepts of slap
- 44 fists
- 7.0 ounces of boxer
- 4.78 spoonful of pound

211.2 Tools

- Mortar
- Bonfire
- Vessel
- Paintbrush

211.3 Instructions

1. Put **9 clear concepts of slap** into the bonfire.
2. Wait.
3. Hold **44 fists** briefly into the bonfire to burn them a bit.
4. Retrieve the **7.03 spoonful of ashes of "slap"** from the bonfire.
5. Heat the vessel.
6. Stir the vessel.
7. Hold **7.03 spoonful of ashes of "slap"** briefly into the bonfire to burn them a bit.
8. Crack **7.03 spoonful of slightly burned ashes of "slap"** with the mortar.
9. Draw a magic circle on the floor using the paintbrush.
10. Draw a cross into the circle and place **44 slightly burned fists, 7.0 ounces of boxer, 4.78 spoonful of pound** and **7.03 spoonful of slightly burned and cracked ashes of "slap"** on each corner.
11. Whisper the following spell: "Sor per crebenum reus, olicius!"
12. Reluctantly, a **punch** will appear inside the circle.

212 A purse

How to make a **purse** in 13 easy steps:

212.1 Materials

- 39 luggages
- 11.61 ounces of handbag
- 4 wallets
- 8.03 spoonful of bag

212.2 Tools

- Bonfire
- Freezer
- Container
- Hammer
- Bucket with water
- Centrifuge
- Pet chinchilla
- Glue

212.3 Instructions

1. Put **4 wallets** into the bonfire.
2. Stir the container.
3. Heat the container.
4. Dip **8.03 spoonful of bag** into the bucket with water.
5. Put **39 luggages** into the freezer for a while.
6. Smash **8.03 spoonful of wet bag** with the hammer.
7. Feed **11.61 ounces of handbag** to your pet chinchilla.
8. Put **39 cooled luggages** into the rotating centrifuge.
9. Put **8.03 spoonful of wet and smashed bag** into the rotating centrifuge.

10. Stop the centrifuge and retrieve the **11.02 ounces of centrifuged mixture "cooled luggage and wet and smashed bag"**.
11. Retrieve the **24.58 ounces of ashes of "wallet"** from the bonfire.
12. Wait until your pet chinchilla poops. Receive **67.01 spoonful of a very dirty pile of "handbag"**.
13. Use glue to join the **11.02 ounces of centrifuged mixture "cooled luggage and wet and smashed bag"**, **24.58 ounces of ashes of "wallet"** and **67.01 spoonful of a very dirty pile of "handbag"** together into the shape of a beautiful **purse**.

213 A radio

How to make a **radio** in 15 easy steps:

213.1 Materials

- 13 volumes
- 1.32 spoonful of wire
- 6 stereos
- 3 clear concepts of being sonic

213.2 Tools

- Purifier
- Bonfire
- Cauldron
- Graphite pencil

213.3 Instructions

1. Let the cauldron cool down.
2. Put **1.32 spoonful of wire** into the bonfire.
3. Stir the cauldron.
4. Put **3 clear concepts of being sonic** into the bonfire.
5. Purify **6 stereos** with the purifier.
6. Hold **6 purified stereos** briefly into the bonfire to burn them a bit.
7. Stir the cauldron.
8. Put **13 volumes** into the cauldron.
9. Let the cauldron cool down.
10. Retrieve the **3.42 spoonful of ashes of "wire and being sonic"** from the bonfire.
11. Pour out the mixture from the cauldron to get the **13.41 spoonful of cauldron mixture "volume"**.
12. Draw a magic circle on the floor using the graphite pencil.

13. Draw a triangle into the circle and place **6 purified and slightly burned stereos, 3.42 spoonful of ashes of "wire and being sonic"** and **13.41 spoonful of cauldron mixture "volume"** on each corner.
14. Intone the following spell: "Aris catus epitos!"
15. Slowly, a **radio** will appear inside the circle.

214 A rail

How to make a **rail** in 13 easy steps:

214.1 Materials

- 41 fences
- 4.97 spoonful of guard
- 3.14 spoonful of balcony
- 6.11 spoonful of post

214.2 Tools

- Pet dog
- Freezer
- Centrifuge
- Hammer
- Bucket with clean water

214.3 Instructions

1. Feed **41 fences** to your pet dog.
2. Wait until your pet dog poops. Receive **3.9 spoonful of a very dirty pile of "fence"**.
3. Put **3.14 spoonful of balcony** into the freezer for a while.
4. Dip **4.97 spoonful of guard** into the bucket with clean water.
5. Let your pet dog sniff at **3.14 spoonful of cooled balcony**.
6. Smash **3.9 spoonful of a very dirty pile of "fence"** with the hammer.
7. Pet your pet dog.
8. Crack **6.11 spoonful of post** with the hammer.
9. Put **3.9 spoonful of smashed a very dirty pile of "fence"** into the rotating centrifuge.
10. Put **4.97 spoonful of wet guard** into the rotating centrifuge.
11. Stop the centrifuge and retrieve the **120.44 ounces of centrifuged mixture "smashed a very dirty pile of "fence" and wet guard"**.

12. Dump the **3.14 spoonful of cooled balcony, 6.11 spoonful of cracked post** and **120.44 ounces of centrifuged mixture "smashed a very dirty pile of "fence" and wet guard"** into a pile on the floor.
13. Wait until they magically transform into a **rail**.

215 A ranch

How to make a **ranch** in 5 easy steps:

215.1 Materials

- 4.62 spoonful of farmer
- 8.66 ounces of cowboy
- 2 farms
- 42 cattles

215.2 Tools

- Saw

215.3 Instructions

1. Use the saw to slice **4.62 spoonful of farmer** into bits.
2. Pick up **42 cattles**. Turn them around. Look at them from every every side. Nod satisfied. Put them back.
3. Throw **2 farms**, **4.62 spoonful of sliced farmer**, **8.66 ounces of cowboy** and **42 cattles** away.
4. Wait for a very short time.
5. Realise that you never really needed a **ranch**.

216 A rectangle

How to make a **rectangle** in 11 easy steps:

216.1 Materials

- 5.1 ounces of triangle

216.2 Tools

- Stone
- Container
- Saw

216.3 Instructions

1. Use the saw to slice **5.1 ounces of triangle** into bits.
2. Crack **5.1 ounces of sliced triangle** with the stone.
3. Heat the container.
4. Let the container cool down.
5. Stir the container.
6. Heat the container.
7. Put **5.1 ounces of sliced and cracked triangle** into the container.
8. Let the container cool down.
9. Pour out the mixture from the container to get the **9.47 spoonful of container mixture "sliced and cracked triangle"**.
10. Dump the **9.47 spoonful of container mixture "sliced and cracked triangle"** into a pile on the floor.
11. Wait until they magically transform into a **rectangle**.

217 A red

How to make a **red** in 12 easy steps:

217.1 Materials

- 6 carpets
- 88.3 spoonful of roses
- 4.6 spoonful of fox
- 49 russias

217.2 Tools

- Bonfire
- Stone
- Freezer
- Saw

217.3 Instructions

1. Put **4.6 spoonful of fox** into the bonfire.
2. Hold **49 russias** briefly into the bonfire to burn them a bit.
3. Put **6 carpets** into the bonfire.
4. Use the saw to slice **49 slightly burned russias** into bits.
5. Smash **49 slightly burned and sliced russias** with the stone.
6. Put **49 slightly burned, sliced and smashed russias** into the freezer for a while.
7. Fan the flames of the bonfire.
8. Retrieve the **4.34 ounces of ashes of "fox and carpet"** from the bonfire.
9. Put **49 slightly burned, sliced, smashed and cooled russias** into the freezer for a while.
10. Fan the flames of the bonfire.
11. Dump the **88.3 spoonful of roses, 49 slightly burned, sliced, smashed and frozen russias** and **4.34 ounces of ashes of "fox and carpet"** into a pile on the floor.
12. Wait until they magically transform into a **red**.

218 A refrain

How to make a **refrain** in 7 easy steps:

218.1 Materials

- 5.76 spoonful of chorus
- 124.15 ounces of verse
- 1.09 spoonful of repression

218.2 Tools

- Fireplace

218.3 Instructions

1. Wait.
2. Put **5.76 spoonful of chorus** into the fireplace.
3. Throw **1.09 spoonful of repression** and **124.15 ounces of verse** away.
4. Wait for an hour.
5. Retrieve the **5.15 spoonful of ashes of "chorus"** from the fireplace.
6. Fold the **5.15 spoonful of ashes of "chorus"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **refrain**.

219 A remover

How to make a **remover** in 13 easy steps:

219.1 Materials

- 7 spots
- 1 stain

219.2 Tools

- Saw
- Bonfire
- Bucket with ionised liquid
- Purifier
- Freezer
- Graphite pencil

219.3 Instructions

1. Use the saw to slice **1 stain** into bits.
2. Put **7 spots** into the bonfire.
3. Fan the flames of the bonfire.
4. Purify **1 sliced stain** with the purifier.
5. Dip **1 sliced and purified stain** into the bucket with ionised liquid.
6. Hold **1 sliced, purified and wet stain** briefly into the bonfire to burn it a bit.
7. Wait.
8. Put **1 sliced, purified, wet and slightly burned stain** into the freezer for a while.
9. Retrieve the **6.16 spoonful of ashes of "spot"** from the bonfire.
10. Draw a magic circle on the floor using the graphite pencil.
11. Draw a line into the circle and place **1 sliced, purified, wet, slightly burned and cooled stain** and **6.16 spoonful of ashes of "spot"** on each end.
12. Whisper the following spell: "Conlatio colla adleviatus!"
13. Reluctantly, a **remover** will appear inside the circle.

220 A reservation

How to make a **reservation** in 8 easy steps:

220.1 Materials

- 30.16 spoonful of reserve
- 25 ideas of being indian

220.2 Tools

- Stone
- Purifier
- Freezer
- Bucket with ionised water
- Container

220.3 Instructions

1. Crack **25 ideas of being indian** with the stone.
2. Let the container cool down.
3. Smash **30.16 spoonful of reserve** with the stone.
4. Purify **30.16 spoonful of smashed reserve** with the purifier.
5. Dip **30.16 spoonful of smashed and purified reserve** into the bucket with ionised water.
6. Put **30.16 spoonful of smashed, purified and wet reserve** into the freezer for a while.
7. Dump the **30.16 spoonful of smashed, purified, wet and cooled reserve** and **25 cracked ideas of being indian** into a pile on the floor.
8. Wait until they magically transform into a **reservation**.

221 A reward

How to make a **reward** in 10 easy steps:

221.1 Materials

- 11.81 ounces of consequence
- 95.43 spoonful of recognition
- 2.9 spoonful of trophy
- 3.11 ounces of bonus

221.2 Tools

- Vessel
- Bonfire
- Pet unicorn
- Freezer

221.3 Instructions

1. Put **3.11 ounces of bonus** into the vessel.
2. Hold **2.9 spoonful of trophy** briefly into the bonfire to burn them a bit.
3. Fan the flames of the bonfire.
4. Hold **2.9 spoonful of slightly burned trophy** briefly into the bonfire to burn them a bit.
5. Put **95.43 spoonful of recognition** into the freezer for a while.
6. Pet your pet unicorn.
7. Let your pet unicorn sniff at **95.43 spoonful of cooled recognition**.
8. Pour out the mixture from the vessel to get the **4.99 ounces of vessel mixture "bonus"**.
9. Fold the **11.81 ounces of consequence, 95.43 spoonful of cooled recognition, 2.9 spoonful of burned trophy** and **4.99 ounces of vessel mixture "bonus"** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **reward**.

222 Room

How to make **room** in 14 easy steps:

222.1 Materials

- 7.09 ounces of suite
- 4.93 spoonful of view
- 19 curtain
- 10 clear concepts of lit

222.2 Tools

- Container
- Centrifuge
- Bucket with ice-cold water
- Bonfire
- Familiar cat
- Electric paint

222.3 Instructions

1. Feed **19 curtain** to your familiar cat.
2. Hold **4.93 spoonful of view** briefly into the bonfire to burn them a bit.
3. Heat the container.
4. Stir the container.
5. Dip **7.09 ounces of suite** into the bucket with ice-cold water.
6. Put **7.09 ounces of wet suite** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **21.98 ounces of centrifuged mixture "wet suite"**.
9. Put **4.93 spoonful of slightly burned view** into the rotating centrifuge.
10. Wait until your familiar cat poops. Receive **10.61 ounces of a very dirty pile of "curtains"**.
11. Draw a magic circle on the floor using the electric paint.

12. Draw a triangle into the circle and place **10 clear concepts of lit, 21.98 ounces of centrifuged mixture "wet suite"** and **10.61 ounces of a very dirty pile of "curtains"** on each corner.
13. Intone the following spell: "Stativus indinatus! Concripio comus selus cephan verber sepuio lastelepiter anicatio!"
14. Reluctantly, **room** will appear inside the circle.

223 A runner

How to make a **runner** in 13 easy steps:

223.1 Materials

- 4 swimmers
- 9.35 ounces of distance
- 54.13 ounces of champion
- 2.49 ounces of track

223.2 Tools

- Cauldron
- Centrifuge
- Fireplace
- Freezer
- Ballpoint pen

223.3 Instructions

1. Put **54.13 ounces of champion** into the cauldron.
2. Hold **4 swimmers** briefly into the fireplace to burn them a bit.
3. Put **2.49 ounces of track** into the rotating centrifuge.
4. Put **9.35 ounces of distance** into the freezer for a while.
5. Put **9.35 ounces of cooled distance** into the fireplace.
6. Retrieve the **9.34 spoonful of ashes of "cooled distance"** from the fireplace.
7. Hold **9.34 spoonful of ashes of "cooled distance"** briefly into the fireplace to burn them a bit.
8. Pour out the mixture from the cauldron to get the **5.44 spoonful of cauldron mixture "champion"**.
9. Stop the centrifuge and retrieve the **1.29 spoonful of centrifuged mixture "track"**.
10. Draw a magic circle on the floor using the ballpoint pen.

11. Draw a square into the circle and place **4 slightly burned swimmers**, **9.34 spoonful of slightly burned ashes of "cooled distance"**, **5.44 spoonful of cauldron mixture "champion"** and **1.29 spoonful of centrifuged mixture "track"** on each corner.
12. Intone the following spell: "Depa! Analizo!"
13. Slowly, a **runner** will appear inside the circle.

224 A saint

How to make a **saint** in 7 easy steps:

224.1 Materials

- 15 angels
- 25.92 spoonful of godliness
- 1.87 spoonful of halo
- 36 clear concepts of being christian

224.2 Tools

- Freezer
- Saw

224.3 Instructions

1. Put **36 clear concepts of being christian** into the freezer for a while.
2. Use the saw to slice **15 angels** into bits.
3. Wait for a short time.
4. Put **15 sliced angels** into the freezer for a while.
5. Use the saw to slice **1.87 spoonful of halo** into bits.
6. Fold the **15 sliced and cooled angels**, **25.92 spoonful of godliness**, **1.87 spoonful of sliced halo** and **36 cooled clear concepts of being christian** together using advanced origami techniques.
7. If you've done it correctly, it should result in a **saint**.

225 A sample

How to make a **sample** in 4 easy steps:

225.1 Materials

- 9.95 ounces of stool
- 8.15 spoonful of preview
- 2 examples
- 9 vague notions of try

225.2 Tools

- Stone
- Purifier
- Screws

225.3 Instructions

1. Crack **2 examples** with the stone.
2. Purify **9 vague notions of try** with the purifier.
3. Smash **2 cracked examples** with the stone.
4. Use screws to join the **9.95 ounces of stool**, **8.15 spoonful of preview**, **2 cracked and smashed examples** and **9 purified vague notions of try** together into the form of a perfectly functional **sample**.

226 A sap

How to make a **sap** in 11 easy steps:

226.1 Materials

- 15 drips
- 7 molass

226.2 Tools

- Pet dog
- Fireplace
- Vessel
- Hammer
- Saw

226.3 Instructions

1. Smash **15 drips** with the hammer.
2. Put **15 smashed drips** into the vessel.
3. Let your pet dog sniff at **7 molass**.
4. Feed **7 molass** to your pet dog.
5. Wait until your pet dog poops. Receive **9.2 ounces of a very dirty pile of "molasses"**.
6. Hold **9.2 ounces of a very dirty pile of "molasses"** briefly into the fireplace to burn them a bit.
7. Let your pet dog lick **9.2 ounces of slightly burned a very dirty pile of "molasses"**.
8. Use the saw to slice **9.2 ounces of slightly burned and licked a very dirty pile of "molasses"** into bits.
9. Pour out the mixture from the vessel to get the **16.93 spoonful of vessel mixture "smashed drip"**.
10. Dump the **9.2 ounces of slightly burned, licked and sliced a very dirty pile of "molasses"** and **16.93 spoonful of vessel mixture "smashed drip"** into a pile on the floor.
11. Wait until they magically transform into a **sap**.

227 Scenery

How to make **scenery** in 4 easy steps:

227.1 Materials

- 25 landscapes
- 9 backgrounds
- 10 ideas of being serene

227.2 Tools

- Bonfire
- Stone
- Glue

227.3 Instructions

1. Smash **9 backgrounds** with the stone.
2. Crack **10 ideas of being serene** with the stone.
3. Hold **9 smashed backgrounds** briefly into the bonfire to burn them a bit.
4. Use glue to join the **25 landscapes, 9 smashed and slightly burned backgrounds** and **10 cracked ideas of being serene** together into the form of a perfectly functional **scenery**.

228 A scramble

How to make a **scramble** in 8 easy steps:

228.1 Materials

- 8.47 ounces of egg
- 2 egg

228.2 Tools

- Purifier
- Bonfire
- Bucket with hot liquid

228.3 Instructions

1. Purify **2 egg** with the purifier.
2. Fan the flames of the bonfire.
3. Hold **8.47 ounces of egg** briefly into the bonfire to burn them a bit.
4. Dip **2 purified egg** into the bucket with hot liquid.
5. Put **2 purified and wet egg** into the bonfire.
6. Retrieve the **25.27 ounces of ashes of "purified and wet eggs"** from the bonfire.
7. Dump the **8.47 ounces of slightly burned egg** and **25.27 ounces of ashes of "purified and wet eggs"** into a pile on the floor.
8. Wait until they magically transform into a **scramble**.

229 A screw

How to make a **screw** in 11 easy steps:

229.1 Materials

- 5.19 spoonful of bolt
- 22.95 ounces of twist
- 2.94 ounces of nails
- 13.8 spoonful of cork

229.2 Tools

- Centrifuge
- Stone

229.3 Instructions

1. Put **13.8 spoonful of cork** into the rotating centrifuge.
2. Put **2.94 ounces of nails** into the rotating centrifuge.
3. Crack **22.95 ounces of twist** with the stone.
4. Put **5.19 spoonful of bolt** into the rotating centrifuge.
5. Smash **22.95 ounces of cracked twist** with the stone.
6. Stop the centrifuge and retrieve the **29.11 spoonful of centrifuged mixture "cork, nails and bolt"**.
7. Wait for 7 days.
8. Throw **22.95 ounces of cracked and smashed twist** and **29.11 spoonful of centrifuged mixture "cork, nails and bolt"** away.
9. Grind a little bit of antler of the extinct flying stag to dust and add it. It's not strictly needed, but doesn't hurt I guess?
10. Wait.
11. Wait a bit until a **screw** suddenly appears.

230 A second

How to make a **second** in 7 easy steps:

230.1 Materials

- 1 assistant
- 8 periods
- 17 instances
- 7.64 spoonful of instant

230.2 Tools

- Purifier
- Vessel
- Mortar

230.3 Instructions

1. Put **8 periods** into the vessel.
2. Purify **17 instances** with the purifier.
3. Smash **1 assistant** with the mortar.
4. Eat **1 smashed assistant**.
5. Pour out the mixture from the vessel to get the **22.43 ounces of vessel mixture "period"**.
6. Fold the **17 purified instances, 7.64 spoonful of instant** and **22.43 ounces of vessel mixture "period"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **second**.

231 A shirt

How to make a **shirt** in 10 easy steps:

231.1 Materials

- 5 clear concepts of padding
- 13 vague notions of being spotless
- 76.94 ounces of cloth
- 3.96 spoonful of lint

231.2 Tools

- Hammer
- Cauldron

231.3 Instructions

1. Crack **13 vague notions of being spotless** with the hammer.
2. Smash **13 cracked vague notions of being spotless** with the hammer.
3. Put **3.96 spoonful of lint** into the cauldron.
4. Heat the cauldron.
5. Crack **5 clear concepts of padding** with the hammer.
6. Smash **13 cracked and smashed vague notions of being spotless** with the hammer.
7. Heat the cauldron.
8. Pour out the mixture from the cauldron to get the **4.17 ounces of cauldron mixture "lint"**.
9. Fold the **5 cracked clear concepts of padding, 13 cracked and pulverized vague notions of being spotless, 76.94 ounces of cloth and 4.17 ounces of cauldron mixture "lint"** together using advanced origami techniques.
10. If you've done it correctly, it might result in a **shirt**.

232 A shoe

How to make a **shoe** in 15 easy steps:

232.1 Materials

- 6.25 spoonful of shoelace
- 3 shines
- 13 ideas of being polish
- 7.48 spoonful of strap

232.2 Tools

- Container
- Fireplace
- Saw
- Centrifuge
- Fountain pen

232.3 Instructions

1. Hold **3 shines** briefly into the fireplace to burn them a bit.
2. Stir the container.
3. Let the container cool down.
4. Heat the container.
5. Wait for a second.
6. Put **7.48 spoonful of strap** into the container.
7. Put **6.25 spoonful of shoelace** into the rotating centrifuge.
8. Use the saw to slice **3 slightly burned shines** into bits.
9. Fan the flames of the fireplace.
10. Pour out the mixture from the container to get the **7.01 spoonful of container mixture "strap"**.
11. Stop the centrifuge and retrieve the **11.09 ounces of centrifuged mixture "shoelace"**.
12. Draw a magic circle on the floor using the fountain pen.

13. Draw a cross into the circle and place **3 slightly burned and sliced shines, 13 ideas of being polish, 7.01 spoonful of container mixture "strap"** and **11.09 ounces of centrifuged mixture "shoelace"** on each corner.
14. Chant the following spell: "Pavenicultus alliot dejero, dequino!"
15. Reluctantly, a **shoe** will appear inside the circle.

233 A shoelace

How to make a **shoelace** in 8 easy steps:

233.1 Materials

- 5.54 spoonful of lace
- 3.85 spoonful of sneaker
- 9.99 spoonful of knot

233.2 Tools

- Freezer
- Fireplace
- Hammer

233.3 Instructions

1. Pick up **9.99 spoonful of knot**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
2. Put **3.85 spoonful of sneaker** into the freezer for a while.
3. Wait.
4. Hold **3.85 spoonful of cooled sneaker** briefly into the fireplace to burn them a bit.
5. Crack **5.54 spoonful of lace** with the hammer.
6. Hold **5.54 spoonful of cracked lace** briefly into the fireplace to burn them a bit.
7. Fold the **5.54 spoonful of cracked and slightly burned lace**, **3.85 spoonful of cooled and slightly burned sneaker** and **9.99 spoonful of knot** together using advanced origami techniques.
8. If you've done it correctly, it could result in a **shoelace**.

234 A shoulder

How to make a **shoulder** in 9 easy steps:

234.1 Materials

- 8.75 spoonful of pat
- 2.81 ounces of sash
- 33 heads
- 1 boulder

234.2 Tools

- Centrifuge
- Freezer
- Bonfire

234.3 Instructions

1. Put **1 boulder** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **17.28 ounces of centrifuged mixture "boulder"**.
3. Fan the flames of the bonfire.
4. Put **2.81 ounces of sash** into the bonfire.
5. Put **8.75 spoonful of pat** into the freezer for a while.
6. Put **8.75 spoonful of cooled pat** into the bonfire.
7. Retrieve the **5.63 ounces of ashes of "sash and cooled pat"** from the bonfire.
8. Fold the **33 heads, 17.28 ounces of centrifuged mixture "boulder"** and **5.63 ounces of ashes of "sash and cooled pat"** together using advanced origami techniques.
9. If you've done it correctly, it should result in a **shoulder**.

235 A skunk

How to make a **skunk** in 8 easy steps:

235.1 Materials

- 21.63 spoonful of possum
- 45.23 ounces of stink
- 4 odors
- 7.98 spoonful of raccoon

235.2 Tools

- Container
- Fireplace

235.3 Instructions

1. Let the container cool down.
2. Stir the container.
3. Fan the flames of the fireplace.
4. Put **45.23 ounces of stink** into the fireplace.
5. Hold **7.98 spoonful of raccoon** briefly into the fireplace to burn them a bit.
6. Retrieve the **6.1 spoonful of ashes of "stink"** from the fireplace.
7. Dump the **21.63 spoonful of possum**, **4 odors**, **7.98 spoonful of slightly burned raccoon** and **6.1 spoonful of ashes of "stink"** into a pile on the floor.
8. Wait until they magically transform into a **skunk**.

236 A sleigh

How to make a **sleigh** in 11 easy steps:

236.1 Materials

- 28.23 spoonful of reindeer

236.2 Tools

- Centrifuge
- Vessel
- Fireplace
- Freezer

236.3 Instructions

1. Put **28.23 spoonful of reindeer** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Fan the flames of the fireplace.
4. Stop the centrifuge and retrieve the **18.45 ounces of centrifuged mixture "reindeer"**.
5. Put **18.45 ounces of centrifuged mixture "reindeer"** into the rotating centrifuge.
6. Stir the vessel.
7. Stop the centrifuge and retrieve the **4.78 ounces of centrifuged mixture "centrifuged mixture "reindeer" "**.
8. Fan the flames of the fireplace.
9. Put **4.78 ounces of centrifuged mixture "centrifuged mixture "reindeer" "** into the freezer for a while.
10. Fold the **4.78 ounces of cooled centrifuged mixture "centrifuged mixture "reindeer" "** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **sleigh**.

237 A slim

How to make a **slim** in 12 easy steps:

237.1 Materials

- 9.04 spoonful of leanness
- 1.15 spoonful of exercise
- 7.18 ounces of waist
- 1.89 spoonful of narrowness

237.2 Tools

- Vessel
- Freezer
- Centrifuge
- Saw
- Familiar mouse

237.3 Instructions

1. Put **1.89 spoonful of narrowness** into the vessel.
2. Use the saw to slice **1.15 spoonful of exercise** into bits.
3. Feed **9.04 spoonful of leanness** to your familiar mouse.
4. Pet your familiar mouse.
5. Put **7.18 ounces of waist** into the freezer for a while.
6. Stir the vessel.
7. Put **1.15 spoonful of sliced exercise** into the rotating centrifuge.
8. Pour out the mixture from the vessel to get the **8.93 spoonful of vessel mixture "narrowness"**.
9. Stop the centrifuge and retrieve the **6.73 ounces of centrifuged mixture "sliced exercise"**.
10. Wait until your familiar mouse poops. Receive **12.68 ounces of a very dirty pile of "leanness"**.

11. Fold the **7.18 ounces of cooled waist**, **8.93 spoonful of vessel mixture "narrowness"**, **6.73 ounces of centrifuged mixture "sliced exercise"** and **12.68 ounces of a very dirty pile of "leanness"** together using advanced origami techniques.
12. If you've done it correctly, it should result in a **slim**.

238 A slime

How to make a **slime** in 10 easy steps:

238.1 Materials

- 25 mucks
- 4.67 ounces of clam
- 2 slivers
- 7.66 spoonful of slug

238.2 Tools

- Cauldron
- Fireplace
- Centrifuge

238.3 Instructions

1. Hold **4.67 ounces of clam** briefly into the fireplace to burn them a bit.
2. Put **7.66 spoonful of slug** into the cauldron.
3. Put **2 slivers** into the rotating centrifuge.
4. Put **25 mucks** into the fireplace.
5. Speed up the centrifuge.
6. Stop the centrifuge and retrieve the **4.3 spoonful of centrifuged mixture "sliver"**.
7. Pour out the mixture from the cauldron to get the **5.92 ounces of cauldron mixture "slug"**.
8. Retrieve the **8.78 spoonful of ashes of "muck"** from the fireplace.
9. Fold the **4.67 ounces of slightly burned clam**, **4.3 spoonful of centrifuged mixture "sliver"**, **5.92 ounces of cauldron mixture "slug"** and **8.78 spoonful of ashes of "muck"** together using advanced origami techniques.
10. If you've done it correctly, it might result in a **slime**.

239 A smile

How to make a **smile** in 13 easy steps:

239.1 Materials

- 9 cries
- 4.12 spoonful of delight
- 76 amusements
- 41 you

239.2 Tools

- Purifier
- Stone
- Bucket with clean liquid
- Container

239.3 Instructions

1. Let the container cool down.
2. Crack **4.12 spoonful of delight** with the stone.
3. Stir the container.
4. Put **4.12 spoonful of cracked delight** into the container.
5. Wait for 6 days.
6. Dip **76 amusements** into the bucket with clean liquid.
7. Put **9 cries** into the container.
8. Pick up **76 wet amusements**. Turn them around. Look at them from every every side. Shake your head dissatisfied. Put them back.
9. Let the container cool down.
10. Purify **41 you** with the purifier.
11. Pour out the mixture from the container to get the **4.56 ounces of container mixture "cracked delight and cry"**.
12. Dump the **76 wet amusements**, **41 purified you** and **4.56 ounces of container mixture "cracked delight and cry"** into a pile on the floor.
13. Wait until they magically transform into a **smile**.

240 A snore

How to make a **snore** in 8 easy steps:

240.1 Materials

- 2.5 spoonful of snooze
- 1.89 ounces of doze
- 2.11 ounces of asleep

240.2 Tools

- Freezer
- Saw
- Centrifuge
- Purifier

240.3 Instructions

1. Put **2.5 spoonful of snooze** into the rotating centrifuge.
2. Use the saw to slice **2.11 ounces of asleep** into bits.
3. Purify **1.89 ounces of doze** with the purifier.
4. Speed up the centrifuge.
5. Put **2.11 ounces of sliced asleep** into the freezer for a while.
6. Stop the centrifuge and retrieve the **8.93 ounces of centrifuged mixture "snooze"**.
7. Fold the **1.89 ounces of purified doze**, **2.11 ounces of sliced and cooled asleep** and **8.93 ounces of centrifuged mixture "snooze"** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **snore**.

241 Snow

How to make **snow** in 9 easy steps:

241.1 Materials

- 4 ideas of hit
- 7 ivories
- 8.06 ounces of reindeer
- 3.43 spoonful of mountain

241.2 Tools

- Fireplace

241.3 Instructions

1. Hold **8.06 ounces of reindeer** briefly into the fireplace to burn them a bit.
2. Wait.
3. Pick up **7 ivories**. Turn them around. Look at them from every every side. Shake your head dissatisfied. Put them back.
4. Hold **8.06 ounces of slightly burned reindeer** briefly into the fireplace to burn them a bit.
5. Wait for a day.
6. Throw **7 ivories, 8.06 ounces of burned reindeer, 4 ideas of hit** and **3.43 spoonful of mountain** away.
7. Fan the flames of the fireplace.
8. Wait.
9. Turn around. You will find that **snow** was there all along.

242 A sober

How to make a **sober** in 9 easy steps:

242.1 Materials

- 97 vague notions of being drunk
- 7 seriousnesses
- 9.46 spoonful of stone
- 6 intoxications

242.2 Tools

- Fireplace
- Vessel
- Glue

242.3 Instructions

1. Put **7 seriousnesses** into the fireplace.
2. Wait for a very short time.
3. Let the vessel cool down.
4. Stir the vessel.
5. Retrieve the **9.48 ounces of ashes of "seriousness"** from the fireplace.
6. Let the vessel cool down.
7. Wait.
8. Hold **9.46 spoonful of stone** briefly into the fireplace to burn them a bit.
9. Use glue to join the **97 vague notions of being drunk, 9.46 spoonful of slightly burned stone, 6 intoxications** and **9.48 ounces of ashes of "seriousness"** together into the form of a beautiful **sober**.

243 A sock

How to make a **sock** in 9 easy steps:

243.1 Materials

- 18.54 spoonful of underwear
- 5.23 ounces of stock
- 5.05 spoonful of sneaker
- 7.94 ounces of toes

243.2 Tools

- Hammer
- Freezer
- Bucket with ionised liquid
- Tape

243.3 Instructions

1. Wait for a rather long time.
2. Crack **18.54 spoonful of underwear** with the hammer.
3. Smash **7.94 ounces of toes** with the hammer.
4. Dip **7.94 ounces of smashed toes** into the bucket with ionised liquid.
5. Wait.
6. Crack **18.54 spoonful of cracked underwear** with the hammer.
7. Put **5.23 ounces of stock** into the freezer for a while.
8. Smash **5.05 spoonful of sneaker** with the hammer.
9. Use tape to join the **18.54 spoonful of crushed underwear**, **5.23 ounces of cooled stock**, **5.05 spoonful of smashed sneaker** and **7.94 ounces of smashed and wet toes** together into the shape of a beautiful **sock**.

244 Something afraid

How to make **something afraid** in 9 easy steps:

244.1 Materials

- 22 terrors
- 4 chickens
- 5.97 ounces of coward
- 30 ideas of being scary

244.2 Tools

- Bonfire
- Crayon

244.3 Instructions

1. Fan the flames of the bonfire.
2. Wait for a rather long time.
3. Hold **30 ideas of being scary** briefly into the bonfire to burn them a bit.
4. Put **5.97 ounces of coward** into the bonfire.
5. Retrieve the **7.54 spoonful of ashes of "coward"** from the bonfire.
6. Draw a magic circle on the floor using the crayon.
7. Draw a square into the circle and place **22 terrors**, **4 chickens**, **30 slightly burned ideas of being scary** and **7.54 spoonful of ashes of "coward"** on each corner.
8. Whisper the following spell: "Claris gradicus diisio! Aevorsum solennias! Pocatio!"
9. Slowly, **something afraid** will appear inside the circle.

245 Something arrogant

How to make **something arrogant** in 10 easy steps:

245.1 Materials

- 27.7 spoonful of selfishness
- 41.0 ounces of ego
- 5.26 ounces of snotty
- 33.82 ounces of confidence

245.2 Tools

- Purifier
- Freezer
- Saw
- Pet ape

245.3 Instructions

1. Use the saw to slice **5.26 ounces of snotty** into bits.
2. Pet your pet ape.
3. Feed **41.0 ounces of ego** to your pet ape.
4. Use the saw to slice **33.82 ounces of confidence** into bits.
5. Wait for a long time.
6. Purify **33.82 ounces of sliced confidence** with the purifier.
7. Put **27.7 spoonful of selfishness** into the freezer for a while.
8. Wait until your pet ape poops. Receive **1.01 ounces of a very dirty pile of "ego"**.
9. Dump the **27.7 spoonful of cooled selfishness**, **5.26 ounces of sliced snotty**, **33.82 ounces of sliced and purified confidence** and **1.01 ounces of a very dirty pile of "ego"** into a pile on the floor.
10. Wait until they magically transform into **something arrogant**.

246 Something bashful

How to make **something bashful** in 6 easy steps:

246.1 Materials

- 3.66 ounces of shyness
- 23 blockages
- 2 clear concepts of being ashamed

246.2 Tools

- Vessel
- Mortar
- Familiar mouse

246.3 Instructions

1. Stir the vessel.
2. Pet your familiar mouse.
3. Smash **2 clear concepts of being ashamed** with the mortar.
4. Let your familiar mouse lick **3.66 ounces of shyness**.
5. Fold the **3.66 ounces of licked shyness**, **23 blockages** and **2 smashed clear concepts of being ashamed** together using advanced origami techniques.
6. If you've done it correctly, it could result in **something bashful**.

247 Something better

How to make **something better** in 12 easy steps:

247.1 Materials

- 8 benefits
- 7 medicines
- 28.27 spoonful of inferiority
- 4 heels

247.2 Tools

- Mortar
- Saw
- Centrifuge
- Silverpoint pen

247.3 Instructions

1. Put **8 benefits** into the rotating centrifuge.
2. Smash **28.27 spoonful of inferiority** with the mortar.
3. Use the saw to slice **28.27 spoonful of smashed inferiority** into bits.
4. Stop the centrifuge and retrieve the **7.55 ounces of centrifuged mixture "benefit"**.
5. Put **7.55 ounces of centrifuged mixture "benefit"** into the rotating centrifuge.
6. Crack **4 heels** with the mortar.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **26.12 spoonful of centrifuged mixture "centrifuged mixture "benefit"**.
9. Draw a magic circle on the floor using the silverpoint pen.
10. Draw a square into the circle and place **7 medicines, 28.27 spoonful of smashed and sliced inferiority, 4 cracked heels and 26.12 spoonful of centrifuged mixture "centrifuged mixture "benefit"** on each corner.

11. Intone the following spell: "Deminamatus cottutes! Conlaceo expens portismus! Inritas! Aborarium demidia muro conxus, cynacessio!"
12. Reluctantly, **something better** will appear inside the circle.

248 Something blunt

How to make **something blunt** in 8 easy steps:

248.1 Materials

- 21 clear concepts of being sharp
- 5 ideas of being subtle
- 15.69 ounces of dullness
- 4.73 spoonful of tactfulness

248.2 Tools

- Purifier
- Familiar chinchilla
- Freezer

248.3 Instructions

1. Wait.
2. Purify **21 clear concepts of being sharp** with the purifier.
3. Put **15.69 ounces of dullness** into the freezer for a while.
4. Wait.
5. Feed **21 purified clear concepts of being sharp** to your familiar chinchilla.
6. Wait until your familiar chinchilla poops. Receive **7.24 spoonful of a very dirty pile of "purified being sharp"**.
7. Dump the **5 ideas of being subtle**, **15.69 ounces of cooled dullness**, **4.73 spoonful of tactfulness** and **7.24 spoonful of a very dirty pile of "purified being sharp"** into a pile on the floor.
8. Wait until they magically transform into **something blunt**.

249 Something confident

How to make **something confident** in 5 easy steps:

249.1 Materials

- 9 surenesses
- 3 shynesses
- 106.28 spoonful of friend
- 4 clear concepts of being arrogant

249.2 Tools

- Purifier
- Bucket with hot water

249.3 Instructions

1. Dip **3 shynesses** into the bucket with hot water.
2. Wait.
3. Purify **9 surenesses** with the purifier.
4. Throw **4 clear concepts of being arrogant, 9 purified surenesses, 106.28 spoonful of friend** and **3 wet shynesses** away.
5. Realise that you never really needed **something confident**.

250 Something curious

How to make **something curious** in 9 easy steps:

250.1 Materials

- 5.57 ounces of superstition
- 4 clear concepts of wonder
- 9.23 ounces of nosy
- 10 georges

250.2 Tools

- Centrifuge
- Saw
- Freezer
- Hammer
- Vessel

250.3 Instructions

1. Let the vessel cool down.
2. Heat the vessel.
3. Put **5.57 ounces of superstition** into the freezer for a while.
4. Put **10 georges** into the rotating centrifuge.
5. Crack **9.23 ounces of nosy** with the hammer.
6. Use the saw to slice **9.23 ounces of cracked nosy** into bits.
7. Stop the centrifuge and retrieve the **2.54 ounces of centrifuged mixture "george"**.
8. Dump the **5.57 ounces of cooled superstition**, **4 clear concepts of wonder**, **9.23 ounces of cracked and sliced nosy** and **2.54 ounces of centrifuged mixture "george"** into a pile on the floor.
9. Wait until they magically transform into **something curious**.

251 Something difficult

How to make **something difficult** in 10 easy steps:

251.1 Materials

- 5.29 spoonful of situation
- 9 simplicities
- 8.87 ounces of physics
- 84 clear concepts of being complex

251.2 Tools

- Bonfire
- Graphite pencil

251.3 Instructions

1. Fan the flames of the bonfire.
2. Put **8.87 ounces of physics** into the bonfire.
3. Hold **5.29 spoonful of situation** briefly into the bonfire to burn them a bit.
4. Retrieve the **19.29 spoonful of ashes of "physics"** from the bonfire.
5. Hold **9 simplicities** briefly into the bonfire to burn them a bit.
6. Fan the flames of the bonfire.
7. Draw a magic circle on the floor using the graphite pencil.
8. Draw a square into the circle and place **5.29 spoonful of slightly burned situation, 9 slightly burned simplicities, 84 clear concepts of being complex** and **19.29 spoonful of ashes of "physics"** on each corner.
9. Intone the following spell: "Attio direpubeo citio adparachisio interule!"
10. Reluctantly, **something difficult** will appear inside the circle.

252 Something dirty

How to make **something dirty** in 15 easy steps:

252.1 Materials

- 25 homelesses
- 2 lice
- 36 nastinesses
- 20.2 ounces of wash

252.2 Tools

- Vessel
- Familiar hummingbird
- Centrifuge
- Bonfire

252.3 Instructions

1. Stir the vessel.
2. Put **20.2 ounces of wash** into the bonfire.
3. Hold **36 nastinesses** briefly into the bonfire to burn them a bit.
4. Heat the vessel.
5. Put **36 slightly burned nastinesses** into the vessel.
6. Let your familiar hummingbird lick **2 lice**.
7. Let the vessel cool down.
8. Put **25 homelesses** into the rotating centrifuge.
9. Put **2 licked lice** into the vessel.
10. Let the vessel cool down.
11. Pour out the mixture from the vessel to get the **13.94 ounces of vessel mixture "slightly burned nastiness and licked lice"**.
12. Stop the centrifuge and retrieve the **1.83 spoonful of centrifuged mixture "homeless"**.
13. Retrieve the **5.58 spoonful of ashes of "wash"** from the bonfire.

14. Dump the **13.94 ounces of vessel mixture "slightly burned nastiness and licked lice"**, **1.83 spoonful of centrifuged mixture "homeless"** and **5.58 spoonful of ashes of "wash"** into a pile on the floor.
15. Wait until they magically transform into **something dirty**.

253 Something erect

How to make **something erect** in 13 easy steps:

253.1 Materials

- 2 clear concepts of build
- 2 straightnesses

253.2 Tools

- Bonfire
- Centrifuge
- Container
- Bucket with hot liquid
- Hammer
- Ballpoint pen

253.3 Instructions

1. Hold **2 straightnesses** briefly into the bonfire to burn them a bit.
2. Put **2 slightly burned straightnesses** into the rotating centrifuge.
3. Smash **2 clear concepts of build** with the hammer.
4. Heat the container.
5. Let the container cool down.
6. Dip **2 smashed clear concepts of build** into the bucket with hot liquid.
7. Smash **2 smashed and wet clear concepts of build** with the hammer.
8. Crack **2 pulverized and wet clear concepts of build** with the hammer.
9. Stop the centrifuge and retrieve the **94.15 spoonful of centrifuged mixture "slightly burned straightness"**.
10. Draw a magic circle on the floor using the ballpoint pen.
11. Draw a line into the circle and place **2 pulverized, wet and cracked clear concepts of build** and **94.15 spoonful of centrifuged mixture "slightly burned straightness"** on each end.
12. Chant the following spell: "Mula ades constitio, exlex! Hedrumendo ar-ruptum turbitio! Adtempeto ceutrix cydon demis consilis!"
13. Suddenly, **something erect** will appear inside the circle.

254 Something everyday

How to make **something everyday** in 7 easy steps:

254.1 Materials

- 12.24 ounces of routine
- 19 vague notions of being weekly
- 7.88 spoonful of norm
- 1 vague notion of being standard

254.2 Tools

- Stone
- Purifier

254.3 Instructions

1. Wait.
2. Crack **19 vague notions of being weekly** with the stone.
3. Purify **12.24 ounces of routine** with the purifier.
4. Smash **1 vague notion of being standard** with the stone.
5. Wait for a rather long time.
6. Dump the **12.24 ounces of purified routine, 19 cracked vague notions of being weekly, 7.88 spoonful of norm** and **1 smashed vague notion of being standard** into a pile on the floor.
7. Wait until they magically transform into **something everyday**.

255 Something false

How to make **something false** in 14 easy steps:

255.1 Materials

- 4.66 spoonful of pretense
- 4.81 spoonful of fact
- 4.79 spoonful of fraud
- 2.44 spoonful of rumor

255.2 Tools

- Saw
- Centrifuge
- Stone
- Bucket with ice-cold liquid
- Cauldron
- Purifier
- Familiar mouse

255.3 Instructions

1. Let the cauldron cool down.
2. Use the saw to slice **2.44 spoonful of rumor** into bits.
3. Feed **4.79 spoonful of fraud** to your familiar mouse.
4. Purify **4.81 spoonful of fact** with the purifier.
5. Heat the cauldron.
6. Dip **4.66 spoonful of pretense** into the bucket with ice-cold liquid.
7. Put **4.66 spoonful of wet pretense** into the rotating centrifuge.
8. Crack **4.81 spoonful of purified fact** with the stone.
9. Let your familiar mouse lick **2.44 spoonful of sliced rumor**.
10. Let your familiar mouse sniff at **4.81 spoonful of purified and cracked fact**.

11. Stop the centrifuge and retrieve the **7.0 spoonful of centrifuged mixture "wet pretense"**.
12. Wait until your familiar mouse poops. Receive **5.46 spoonful of a very dirty pile of "fraud"**.
13. Dump the **4.81 spoonful of purified and cracked fact**, **2.44 spoonful of sliced and licked rumor**, **7.0 spoonful of centrifuged mixture "wet pretense"** and **5.46 spoonful of a very dirty pile of "fraud"** into a pile on the floor.
14. Wait until they magically transform into **something false**.

256 Something federal

How to make **something federal** in 5 easy steps:

256.1 Materials

- 5.84 ounces of bureau
- 9 ideas of express
- 1.17 spoonful of fortune
- 9.82 ounces of agent

256.2 Tools

- Stone
- Familiar ape
- Vessel

256.3 Instructions

1. Smash **1.17 spoonful of fortune** with the stone.
2. Pet your familiar ape.
3. Stir the vessel.
4. Dump the **5.84 ounces of bureau**, **9 ideas of express**, **1.17 spoonful of smashed fortune** and **9.82 ounces of agent** into a pile on the floor.
5. Wait until they magically transform into **something federal**.

257 Something frigid

How to make **something frigid** in 5 easy steps:

257.1 Materials

- 1 uptight
- 4.08 ounces of arctic

257.2 Tools

- Centrifuge
- Container
- Glue

257.3 Instructions

1. Put **4.08 ounces of arctic** into the rotating centrifuge.
2. Stir the container.
3. Wait.
4. Stop the centrifuge and retrieve the **4.18 ounces of centrifuged mixture "arctic"**.
5. Use glue to join the **1 uptight** and **4.18 ounces of centrifuged mixture "arctic"** together into the shape of a usable **something frigid**.

258 Something genuine

How to make **something genuine** in 8 easy steps:

258.1 Materials

- 7.19 spoonful of sincerity
- 9 realities
- 9 vague notions of being fake

258.2 Tools

- Vessel
- Centrifuge
- Fireplace
- Nails

258.3 Instructions

1. Put **9 realities** into the vessel.
2. Heat the vessel.
3. Put **7.19 spoonful of sincerity** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **4.91 ounces of centrifuged mixture "sincerity"**.
5. Hold **4.91 ounces of centrifuged mixture "sincerity"** briefly into the fireplace to burn them a bit.
6. Stir the vessel.
7. Pour out the mixture from the vessel to get the **3.48 ounces of vessel mixture "reality"**.
8. Use nails to join the **9 vague notions of being fake**, **4.91 ounces of slightly burned centrifuged mixture "sincerity"** and **3.48 ounces of vessel mixture "reality"** together into the form of a passable **something genuine**.

259 Something graceful

How to make **something graceful** in 6 easy steps:

259.1 Materials

- 82 gazelles
- 44 elegances
- 6 ballets
- 1 ballerina

259.2 Tools

- Container
- Stone

259.3 Instructions

1. Wait.
2. Put **1 ballerina** into the container.
3. Crack **6 ballets** with the stone.
4. Pour out the mixture from the container to get the **12.23 spoonful of container mixture "ballerina"**.
5. Dump the **82 gazelles**, **44 elegances**, **6 cracked ballets** and **12.23 spoonful of container mixture "ballerina"** into a pile on the floor.
6. Wait until they magically transform into **something graceful**.

260 Something great

How to make **something great** in 8 easy steps:

260.1 Materials

- 8 vague notions of being outstanding
- 5.87 spoonful of dad
- 190 ideas of being superior
- 6 ideas of being fantastic

260.2 Tools

- Bonfire
- Mortar
- Saw
- Bucket with ice-cold water

260.3 Instructions

1. Use the saw to slice **190 ideas of being superior** into bits.
2. Hold **190 sliced ideas of being superior** briefly into the bonfire to burn them a bit.
3. Dip **5.87 spoonful of dad** into the bucket with ice-cold water.
4. Fan the flames of the bonfire.
5. Crack **5.87 spoonful of wet dad** with the mortar.
6. Hold **5.87 spoonful of wet and cracked dad** briefly into the bonfire to burn them a bit.
7. Fold the **8 vague notions of being outstanding, 5.87 spoonful of wet, cracked and slightly burned dad, 190 sliced and slightly burned ideas of being superior** and **6 ideas of being fantastic** together using advanced origami techniques.
8. If you've done it correctly, it should result in **something great**.

261 Something medical

How to make **something medical** in 7 easy steps:

261.1 Materials

- 3.5 spoonful of emergency
- 4.74 ounces of anatomy
- 8 charts
- 9.24 ounces of stethoscope

261.2 Tools

- Freezer
- Vessel

261.3 Instructions

1. Put **3.5 spoonful of emergency** into the freezer for a while.
2. Wait.
3. Put **8 charts** into the vessel.
4. Let the vessel cool down.
5. Pour out the mixture from the vessel to get the **7.76 spoonful of vessel mixture "chart"**.
6. Fold the **3.5 spoonful of cooled emergency**, **4.74 ounces of anatomy**, **9.24 ounces of stethoscope** and **7.76 spoonful of vessel mixture "chart"** together using advanced origami techniques.
7. If you've done it correctly, it could result in **something medical**.

262 Something modest

How to make **something modest** in 11 easy steps:

262.1 Materials

- 14 vague notions of being ashamed
- 35.87 spoonful of humbleness

262.2 Tools

- Purifier
- Hammer
- Bonfire
- Nails

262.3 Instructions

1. Hold **14 vague notions of being ashamed** briefly into the bonfire to burn them a bit.
2. Hold **35.87 spoonful of humbleness** briefly into the bonfire to burn them a bit.
3. Smash **35.87 spoonful of slightly burned humbleness** with the hammer.
4. Wait for a second.
5. Hold **35.87 spoonful of slightly burned and smashed humbleness** briefly into the bonfire to burn them a bit.
6. Hold **14 slightly burned vague notions of being ashamed** briefly into the bonfire to burn them a bit.
7. Purify **14 burned vague notions of being ashamed** with the purifier.
8. Crack **35.87 spoonful of burned and smashed humbleness** with the hammer.
9. Smash **14 burned and purified vague notions of being ashamed** with the hammer.
10. Wait for a very long time.
11. Use nails to join the **14 burned, purified and smashed vague notions of being ashamed** and **35.87 spoonful of burned, smashed and cracked humbleness** together into the form of a beautiful **something modest**.

263 Something optimistic

How to make **something optimistic** in 6 easy steps:

263.1 Materials

- 6 vague notions of being positive
- 8.63 spoonful of possibility
- 8 vague notions of being ideal

263.2 Tools

- Centrifuge
- Freezer

263.3 Instructions

1. Wait for 7 hours.
2. Put **6 vague notions of being positive** into the rotating centrifuge.
3. Put **8.63 spoonful of possibility** into the freezer for a while.
4. Stop the centrifuge and retrieve the **4.94 ounces of centrifuged mixture "being positive"**.
5. Dump the **8.63 spoonful of cooled possibility**, **8 vague notions of being ideal** and **4.94 ounces of centrifuged mixture "being positive"** into a pile on the floor.
6. Wait until they magically transform into **something optimistic**.

264 Something rural

How to make **something rural** in 8 easy steps:

264.1 Materials

- 92.85 ounces of suburb

264.2 Tools

- Bucket with water
- Bonfire
- Vessel
- Familiar unicorn

264.3 Instructions

1. Dip **92.85 ounces of suburb** into the bucket with water.
2. Fan the flames of the bonfire.
3. Stir the vessel.
4. Hold **92.85 ounces of wet suburb** briefly into the bonfire to burn them a bit.
5. Pet your familiar unicorn.
6. Let your familiar unicorn lick **92.85 ounces of wet and slightly burned suburb**.
7. Fold the **92.85 ounces of wet, slightly burned and licked suburb** together using advanced origami techniques.
8. If you've done it correctly, it should result in **something rural**.

265 Something similar

How to make **something similar** in 7 easy steps:

265.1 Materials

- 7 relations
- 10 agreements
- 6.2 ounces of dissimilarity
- 9.69 ounces of likeness

265.2 Tools

- Bucket with water
- Fireplace
- Hammer
- Glue

265.3 Instructions

1. Wait for a very short time.
2. Throw **10 agreements** away.
3. Dip **9.69 ounces of likeness** into the bucket with water.
4. Smash **9.69 ounces of wet likeness** with the hammer.
5. Hold **6.2 ounces of dissimilarity** briefly into the fireplace to burn them a bit.
6. Wait for a long time.
7. Use glue to join the **7 relations**, **6.2 ounces of slightly burned dissimilarity** and **9.69 ounces of wet and smashed likeness** together into the shape of a perfectly functional **something similar**.

266 Something slippery

How to make **something slippery** in 9 easy steps:

266.1 Materials

- 32.64 spoonful of lubrication
- 10 soaps
- 3.71 ounces of oil
- 4.63 ounces of slimy

266.2 Tools

- Centrifuge
- Hammer
- Purifier
- Fireplace
- Tape

266.3 Instructions

1. Put **32.64 spoonful of lubrication** into the rotating centrifuge.
2. Smash **4.63 ounces of slimy** with the hammer.
3. Purify **10 soaps** with the purifier.
4. Crack **3.71 ounces of oil** with the hammer.
5. Put **4.63 ounces of smashed slimy** into the fireplace.
6. Put **10 purified soaps** into the fireplace.
7. Stop the centrifuge and retrieve the **1.68 ounces of centrifuged mixture "lubrication"**.
8. Retrieve the **3.68 spoonful of ashes of "smashed slimy and purified soap"** from the fireplace.
9. Use tape to join the **3.71 ounces of cracked oil**, **1.68 ounces of centrifuged mixture "lubrication"** and **3.68 spoonful of ashes of "smashed slimy and purified soap"** together into the shape of a perfectly functional **something slippery**.

267 Something sneaky

How to make **something sneaky** in 13 easy steps:

267.1 Materials

- 5 vague notions of being cunning
- 3 discreetnesses
- 8 vague notions of being sly
- 141.62 spoonful of scheme

267.2 Tools

- Centrifuge
- Bonfire
- Saw
- Charcoal pencil

267.3 Instructions

1. Put **141.62 spoonful of scheme** into the rotating centrifuge.
2. Use the saw to slice **3 discreetnesses** into bits.
3. Stop the centrifuge and retrieve the **4.28 ounces of centrifuged mixture "scheme"**.
4. Put **4.28 ounces of centrifuged mixture "scheme"** into the rotating centrifuge.
5. Put **5 vague notions of being cunning** into the rotating centrifuge.
6. Hold **3 sliced discreetnesses** briefly into the bonfire to burn them a bit.
7. Hold **3 sliced and slightly burned discreetnesses** briefly into the bonfire to burn them a bit.
8. Fan the flames of the bonfire.
9. Stop the centrifuge and retrieve the **28.53 ounces of centrifuged mixture "centrifuged mixture "scheme" and being cunning"**.
10. Draw a magic circle on the floor using the charcoal pencil.

11. Draw a triangle into the circle and place **3 sliced and burned discreetnesses**, **8 vague notions of being sly** and **28.53 ounces of centrifuged mixture "centrifuged mixture "scheme" and being cunning"** on each corner.
12. Intone the following spell: "Quotus solate docto rebenufex, ogdositus atter!"
13. Reluctantly, **something sneaky** will appear inside the circle.

268 Something spotless

How to make **something spotless** in 10 easy steps:

268.1 Materials

- 2 clear concepts of being clean
- 3 ideas of cleaning

268.2 Tools

- Container
- Saw

268.3 Instructions

1. Wait.
2. Use the saw to slice **3 ideas of cleaning** into bits.
3. Put **3 sliced ideas of cleaning** into the container.
4. Wait.
5. Use the saw to slice **2 clear concepts of being clean** into bits.
6. Put **2 sliced clear concepts of being clean** into the container.
7. Wait for a short time.
8. Pour out the mixture from the container to get the **2.42 spoonful of container mixture "sliced cleaning and sliced being clean"**.
9. Fold the **2.42 spoonful of container mixture "sliced cleaning and sliced being clean"** together using advanced origami techniques.
10. If you've done it correctly, it might result in **something spotless**.

269 Something stubborn

How to make **something stubborn** in 13 easy steps:

269.1 Materials

- 9.48 ounces of mule
- 6.92 ounces of meagerness
- 1 resistance
- 5 ideas of being ignorant

269.2 Tools

- Stone
- Bonfire
- Container
- Saw
- Centrifuge
- Silverpoint pen

269.3 Instructions

1. Put **9.48 ounces of mule** into the rotating centrifuge.
2. Smash **6.92 ounces of meagerness** with the stone.
3. Use the saw to slice **1 resistance** into bits.
4. Put **1 sliced resistance** into the bonfire.
5. Stir the container.
6. Hold **6.92 ounces of smashed meagerness** briefly into the bonfire to burn them a bit.
7. Crack **5 ideas of being ignorant** with the stone.
8. Retrieve the **13.18 spoonful of ashes of "sliced resistance"** from the bonfire.
9. Stop the centrifuge and retrieve the **64.51 ounces of centrifuged mixture "mule"**.
10. Draw a magic circle on the floor using the silverpoint pen.

11. Draw a cross into the circle and place **6.92 ounces of smashed and slightly burned meagerness, 5 cracked ideas of being ignorant, 13.18 spoonful of ashes of "sliced resistance"** and **64.51 ounces of centrifuged mixture "mule"** on each corner.
12. Chant the following spell: "Extentis! Patio! Por matio!"
13. Reluctantly, **something stubborn** will appear inside the circle.

270 Something that can annihilate

How to make **something that can annihilate** in 8 easy steps:

270.1 Materials

- 3.38 ounces of destroyer
- 13 clear concepts of kill

270.2 Tools

- Saw
- Freezer
- Mortar

270.3 Instructions

1. Put **3.38 ounces of destroyer** into the freezer for a while.
2. Crack **3.38 ounces of cooled destroyer** with the mortar.
3. Use the saw to slice **3.38 ounces of cooled and cracked destroyer** into bits.
4. Smash **13 clear concepts of kill** with the mortar.
5. Crack **13 smashed clear concepts of kill** with the mortar.
6. Put **3.38 ounces of cooled, cracked and sliced destroyer** into the freezer for a while.
7. Fold the **3.38 ounces of frozen, cracked and sliced destroyer** and **13 smashed and cracked clear concepts of kill** together using advanced origami techniques.
8. If you've done it correctly, it should result in **something that can annihilate**.

271 Something that can announce

How to make **something that can announce** in 11 easy steps:

271.1 Materials

- 335 notifications
- 7.18 ounces of post
- 9.03 ounces of renunciation

271.2 Tools

- Purifier
- Cauldron

271.3 Instructions

1. Let the cauldron cool down.
2. Purify **335 notifications** with the purifier.
3. Stir the cauldron.
4. Let the cauldron cool down.
5. Heat the cauldron.
6. Stir the cauldron.
7. Put **335 purified notifications** into the cauldron.
8. Let the cauldron cool down.
9. Pour out the mixture from the cauldron to get the **9.55 ounces of cauldron mixture "purified notification"**.
10. Fold the **7.18 ounces of post**, **9.03 ounces of renunciation** and **9.55 ounces of cauldron mixture "purified notification"** together using advanced origami techniques.
11. If you've done it correctly, it might result in **something that can announce**.

272 Something that can ascend

How to make **something that can ascend** in 10 easy steps:

272.1 Materials

- 4 ideas of climb
- 40 descents
- 19.41 spoonful of stairs

272.2 Tools

- Saw
- Hammer
- Centrifuge
- Vessel
- Bonfire
- Tape

272.3 Instructions

1. Wait.
2. Use the saw to slice **40 descents** into bits.
3. Fan the flames of the bonfire.
4. Stir the vessel.
5. Put **4 ideas of climb** into the rotating centrifuge.
6. Put **19.41 spoonful of stairs** into the vessel.
7. Crack **40 sliced descents** with the hammer.
8. Pour out the mixture from the vessel to get the **2.99 spoonful of vessel mixture "stairs"**.
9. Stop the centrifuge and retrieve the **17.69 spoonful of centrifuged mixture "climb"**.
10. Use tape to join the **40 sliced and cracked descents**, **2.99 spoonful of vessel mixture "stairs"** and **17.69 spoonful of centrifuged mixture "climb"** together into the shape of a usable **something that can ascend**.

273 Something that can beg

How to make **something that can beg** in 11 easy steps:

273.1 Materials

- 7.82 spoonful of pleasure
- 13 persuasions
- 7.07 ounces of implosion
- 7 ideas of pleading

273.2 Tools

- Freezer
- Container
- Stone
- Familiar unicorn
- Tape

273.3 Instructions

1. Crack **7.82 spoonful of pleasure** with the stone.
2. Let your familiar unicorn sniff at **7.82 spoonful of cracked pleasure**.
3. Stir the container.
4. Heat the container.
5. Pet your familiar unicorn.
6. Put **7.82 spoonful of cracked pleasure** into the freezer for a while.
7. Smash **7.82 spoonful of cracked and cooled pleasure** with the stone.
8. Let your familiar unicorn lick **13 persuasions**.
9. Pet your familiar unicorn.
10. Wait.
11. Use tape to join the **7.82 spoonful of cracked, cooled and smashed pleasure, 13 licked persuasions, 7.07 ounces of implosion** and **7 ideas of pleading** together into the form of a beautiful **something that can beg**.

274 Something that can betray

How to make **something that can betray** in 8 easy steps:

274.1 Materials

- 5.73 spoonful of traitor
- 2.86 ounces of deception
- 5 deceptions

274.2 Tools

- Cauldron
- Bonfire
- Glue

274.3 Instructions

1. Put **5 deceptions** into the bonfire.
2. Heat the cauldron.
3. Stir the cauldron.
4. Put **2.86 ounces of deception** into the cauldron.
5. Fan the flames of the bonfire.
6. Pour out the mixture from the cauldron to get the **9.32 ounces of cauldron mixture "deception"**.
7. Retrieve the **1.91 spoonful of ashes of "deception"** from the bonfire.
8. Use glue to join the **5.73 spoonful of traitor**, **9.32 ounces of cauldron mixture "deception"** and **1.91 spoonful of ashes of "deception"** together into the form of a perfectly functional **something that can betray**.

275 Something that can closed

How to make **something that can closed** in 11 easy steps:

275.1 Materials

- 22.22 ounces of secretive
- 8 ideas of being private
- 28.01 spoonful of withdrawal
- 7.64 spoonful of case

275.2 Tools

- Vessel
- Freezer
- Fireplace

275.3 Instructions

1. Fan the flames of the fireplace.
2. Put **22.22 ounces of secretive** into the freezer for a while.
3. Put **28.01 spoonful of withdrawal** into the fireplace.
4. Put **7.64 spoonful of case** into the vessel.
5. Let the vessel cool down.
6. Stir the vessel.
7. Fan the flames of the fireplace.
8. Retrieve the **37.89 ounces of ashes of "withdrawal"** from the fireplace.
9. Pour out the mixture from the vessel to get the **8.19 spoonful of vessel mixture "case"**.
10. Dump the **22.22 ounces of cooled secretive**, **8 ideas of being private**, **37.89 ounces of ashes of "withdrawal"** and **8.19 spoonful of vessel mixture "case"** into a pile on the floor.
11. Wait until they magically transform into **something that can closed**.

276 Something that can compose

How to make **something that can compose** in 10 easy steps:

276.1 Materials

- 10.77 spoonful of sentence
- 4.83 spoonful of decomposition
- 12.46 spoonful of writer

276.2 Tools

- Vessel
- Bucket with ionised liquid
- Centrifuge
- Pet dog

276.3 Instructions

1. Pet your pet dog.
2. Heat the vessel.
3. Dip **4.83 spoonful of decomposition** into the bucket with ionised liquid.
4. Stir the vessel.
5. Let the vessel cool down.
6. Heat the vessel.
7. Put **12.46 spoonful of writer** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **1.98 ounces of centrifuged mixture "writer"**.
9. Dump the **10.77 spoonful of sentence**, **4.83 spoonful of wet decomposition** and **1.98 ounces of centrifuged mixture "writer"** into a pile on the floor.
10. Wait until they magically transform into **something that can compose**.

277 Something that can comprehend

How to make **something that can comprehend** in 8 easy steps:

277.1 Materials

- 36 perceptions
- 1 vague notion of know
- 4 ideas of read

277.2 Tools

- Purifier
- Hammer
- Fireplace

277.3 Instructions

1. Crack **36 perceptions** with the hammer.
2. Smash **36 cracked perceptions** with the hammer.
3. Hold **36 cracked and smashed perceptions** briefly into the fireplace to burn them a bit.
4. Purify **36 cracked, smashed and slightly burned perceptions** with the purifier.
5. Crack **1 vague notion of know** with the hammer.
6. Smash **1 cracked vague notion of know** with the hammer.
7. Dump the **36 cracked, smashed, slightly burned and purified perceptions, 1 cracked and smashed vague notion of know** and **4 ideas of read** into a pile on the floor.
8. Wait until they magically transform into **something that can comprehend**.

278 Something that can condemn

How to make **something that can condemn** in 11 easy steps:

278.1 Materials

- 8.07 spoonful of renunciation
- 1 clear concept of being damn

278.2 Tools

- Centrifuge
- Container
- Fireplace
- Pet dog

278.3 Instructions

1. Hold **1 clear concept of being damn** briefly into the fireplace to burn it a bit.
2. Let your pet dog lick **8.07 spoonful of renunciation**.
3. Stir the container.
4. Put **8.07 spoonful of licked renunciation** into the fireplace.
5. Put **1 slightly burned clear concept of being damn** into the rotating centrifuge.
6. Stir the container.
7. Fan the flames of the fireplace.
8. Stop the centrifuge and retrieve the **22.9 spoonful of centrifuged mixture "slightly burned being damn"**.
9. Retrieve the **7.31 ounces of ashes of "licked renunciation"** from the fireplace.
10. Dump the **22.9 spoonful of centrifuged mixture "slightly burned being damn"** and **7.31 ounces of ashes of "licked renunciation"** into a pile on the floor.
11. Wait until they magically transform into **something that can condemn**.

279 Something that can depressed

How to make **something that can depressed** in 11 easy steps:

279.1 Materials

- 15 feelings
- 24 clear concepts of bore
- 7 ideas of being lonely
- 6 ideas of upset

279.2 Tools

- Bucket with liquid
- Stone
- Bonfire
- Centrifuge
- Container
- Glue

279.3 Instructions

1. Put **7 ideas of being lonely** into the rotating centrifuge.
2. Hold **6 ideas of upset** briefly into the bonfire to burn them a bit.
3. Stir the container.
4. Dip **15 feelings** into the bucket with liquid.
5. Crack **6 slightly burned ideas of upset** with the stone.
6. Put **24 clear concepts of bore** into the bonfire.
7. Retrieve the **4.01 ounces of ashes of "bore"** from the bonfire.
8. Wait for a second.
9. Stop the centrifuge and retrieve the **5.32 ounces of centrifuged mixture "being lonely"**.
10. Hold **5.32 ounces of centrifuged mixture "being lonely"** briefly into the bonfire to burn them a bit.

11. Use glue to join the **15 wet feelings, 6 slightly burned and cracked ideas of upset, 4.01 ounces of ashes of "bore" and 5.32 ounces of slightly burned centrifuged mixture "being lonely"** together into the shape of a beautiful **something that can depressed**.

280 Something that can develop

How to make **something that can develop** in 4 easy steps:

280.1 Materials

- 8.58 ounces of invention
- 38.44 ounces of creation

280.2 Tools

- Vessel
- Freezer

280.3 Instructions

1. Stir the vessel.
2. Put **8.58 ounces of invention** into the freezer for a while.
3. Dump the **8.58 ounces of cooled invention** and **38.44 ounces of creation** into a pile on the floor.
4. Wait until they magically transform into **something that can develop**.

281 Something that can fasten

How to make **something that can fasten** in 10 easy steps:

281.1 Materials

- 7.18 spoonful of security
- 20 hooks
- 7.93 ounces of staple
- 1.12 spoonful of paperclip

281.2 Tools

- Centrifuge
- Bucket with ionised water
- Saw
- Stone
- Graphite pencil

281.3 Instructions

1. Use the saw to slice **20 hooks** into bits.
2. Dip **7.93 ounces of staple** into the bucket with ionised water.
3. Put **20 sliced hooks** into the rotating centrifuge.
4. Put **7.93 ounces of wet staple** into the rotating centrifuge.
5. Crack **7.18 spoonful of security** with the stone.
6. Stop the centrifuge and retrieve the **26.89 spoonful of centrifuged mixture "sliced hook and wet staple"**.
7. Draw a magic circle on the floor using the graphite pencil.
8. Draw a triangle into the circle and place **7.18 spoonful of cracked security**, **1.12 spoonful of paperclip** and **26.89 spoonful of centrifuged mixture "sliced hook and wet staple"** on each corner.
9. Whisper the following spell: "Metex!"
10. Suddenly, **something that can fasten** will appear inside the circle.

282 Something that can fried

How to make **something that can fried** in 4 easy steps:

282.1 Materials

- 9.04 ounces of rice
- 187.18 ounces of baker
- 265.93 ounces of shrimp
- 1.27 spoonful of chicken

282.2 Tools

- Fireplace
- Hammer
- Glue

282.3 Instructions

1. Crack **1.27 spoonful of chicken** with the hammer.
2. Hold **1.27 spoonful of cracked chicken** briefly into the fireplace to burn them a bit.
3. Smash **187.18 ounces of baker** with the hammer.
4. Use glue to join the **9.04 ounces of rice**, **187.18 ounces of smashed baker**, **265.93 ounces of shrimp** and **1.27 spoonful of cracked and slightly burned chicken** together into the form of a usable **something that can fried**.

283 Something that can frown

How to make **something that can frown** in 10 easy steps:

283.1 Materials

- 16.99 spoonful of smile
- 6.66 ounces of confutation
- 6 vague notions of worry
- 2.09 ounces of seriousness

283.2 Tools

- Centrifuge
- Freezer
- Bonfire
- Stone
- Screws

283.3 Instructions

1. Crack **6.66 ounces of confutation** with the stone.
2. Smash **6 vague notions of worry** with the stone.
3. Put **6 smashed vague notions of worry** into the bonfire.
4. Put **6.66 ounces of cracked confutation** into the bonfire.
5. Put **16.99 spoonful of smile** into the rotating centrifuge.
6. Put **2.09 ounces of seriousness** into the freezer for a while.
7. Smash **2.09 ounces of cooled seriousness** with the stone.
8. Stop the centrifuge and retrieve the **8.41 spoonful of centrifuged mixture "smile"**.
9. Retrieve the **6.89 spoonful of ashes of "smashed worry and cracked confutation"** from the bonfire.
10. Use screws to join the **2.09 ounces of cooled and smashed seriousness, 8.41 spoonful of centrifuged mixture "smile" and 6.89 spoonful of ashes of "smashed worry and cracked confutation"** together into the shape of a beautiful **something that can frown**.

284 Something that can graze

How to make **something that can graze** in 12 easy steps:

284.1 Materials

- 2.24 spoonful of pasture
- 9.51 ounces of cattle

284.2 Tools

- Bucket with clean water
- Fireplace
- Hammer
- Vessel
- Paintbrush

284.3 Instructions

1. Stir the vessel.
2. Dip **2.24 spoonful of pasture** into the bucket with clean water.
3. Wait for a very long time.
4. Put **9.51 ounces of cattle** into the fireplace.
5. Smash **2.24 spoonful of wet pasture** with the hammer.
6. Fan the flames of the fireplace.
7. Heat the vessel.
8. Retrieve the **2.45 spoonful of ashes of "cattle"** from the fireplace.
9. Draw a magic circle on the floor using the paintbrush.
10. Draw a line into the circle and place **2.24 spoonful of wet and smashed pasture** and **2.45 spoonful of ashes of "cattle"** on each end.
11. Chant the following spell: "Venestitia! Gabilis incturion subulum! Dillum forma fulcitrix chortoritas ave globitas, contia! Hydracta concorceo defacio dictio telerium! Lanimulo ineo collusculum cyanescio!"
12. Slowly, **something that can graze** will appear inside the circle.

285 Something that can grown

How to make **something that can grown** in 12 easy steps:

285.1 Materials

- 19.95 spoonful of matureness
- 6.56 ounces of adult
- 3 formalities

285.2 Tools

- Bucket with ionised water
- Saw
- Bonfire
- Cauldron

285.3 Instructions

1. Dip **6.56 ounces of adult** into the bucket with ionised water.
2. Put **19.95 spoonful of matureness** into the cauldron.
3. Fan the flames of the bonfire.
4. Stir the cauldron.
5. Put **6.56 ounces of wet adult** into the cauldron.
6. Fan the flames of the bonfire.
7. Use the saw to slice **3 formalities** into bits.
8. Put **3 sliced formalities** into the bonfire.
9. Retrieve the **1.13 ounces of ashes of "sliced formality"** from the bonfire.
10. Pour out the mixture from the cauldron to get the **15.9 ounces of cauldron mixture "matureness and wet adult"**.
11. Dump the **1.13 ounces of ashes of "sliced formality"** and **15.9 ounces of cauldron mixture "matureness and wet adult"** into a pile on the floor.
12. Wait until they magically transform into **something that can grown**.

286 Something that can hidden

How to make **something that can hidden** in 8 easy steps:

286.1 Materials

- 36 vague notions of disguise
- 9.63 ounces of scarcity
- 24.33 spoonful of secretive
- 2.72 spoonful of fog

286.2 Tools

- Mortar
- Freezer
- Bonfire
- Glue

286.3 Instructions

1. Put **36 vague notions of disguise** into the bonfire.
2. Fan the flames of the bonfire.
3. Retrieve the **5.98 spoonful of ashes of "disguise"** from the bonfire.
4. Put **9.63 ounces of scarcity** into the freezer for a while.
5. Crack **24.33 spoonful of secretive** with the mortar.
6. Put **9.63 ounces of cooled scarcity** into the bonfire.
7. Retrieve the **1.97 spoonful of ashes of "cooled scarcity"** from the bonfire.
8. Use glue to join the **24.33 spoonful of cracked secretive, 2.72 spoonful of fog, 5.98 spoonful of ashes of "disguise"** and **1.97 spoonful of ashes of "cooled scarcity"** together into the form of a perfectly functional **something that can hidden**.

287 Something that can learn

How to make **something that can learn** in 10 easy steps:

287.1 Materials

- 2.13 ounces of lesson
- 4.68 ounces of value
- 2.64 ounces of class
- 6.23 spoonful of retention

287.2 Tools

- Centrifuge
- Stone
- Fireplace
- Pet dog
- Tape

287.3 Instructions

1. Let your pet dog lick **4.68 ounces of value**.
2. Hold **2.13 ounces of lesson** briefly into the fireplace to burn them a bit.
3. Put **2.64 ounces of class** into the rotating centrifuge.
4. Smash **2.13 ounces of slightly burned lesson** with the stone.
5. Put **6.23 spoonful of retention** into the rotating centrifuge.
6. Put **4.68 ounces of licked value** into the fireplace.
7. Wait.
8. Stop the centrifuge and retrieve the **2.57 spoonful of centrifuged mixture "class and retention"**.
9. Retrieve the **4.91 ounces of ashes of "licked value"** from the fireplace.
10. Use tape to join the **2.13 ounces of slightly burned and smashed lesson, 2.57 spoonful of centrifuged mixture "class and retention"** and **4.91 ounces of ashes of "licked value"** together into the form of a perfectly functional **something that can learn**.

288 Something that can listen

How to make **something that can listen** in 13 easy steps:

288.1 Materials

- 10 clear concepts of call
- 17.63 spoonful of speaker
- 1.53 ounces of instructions
- 1 instruction

288.2 Tools

- Bucket with ice-cold liquid
- Saw
- Cauldron
- Centrifuge
- Bonfire
- Purifier

288.3 Instructions

1. Pick up **1.53 ounces of instructions**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
2. Use the saw to slice **1.53 ounces of instructions** into bits.
3. Dip **10 clear concepts of call** into the bucket with ice-cold liquid.
4. Put **10 wet clear concepts of call** into the cauldron.
5. Heat the cauldron.
6. Put **17.63 spoonful of speaker** into the rotating centrifuge.
7. Hold **1.53 ounces of sliced instructions** briefly into the bonfire to burn them a bit.
8. Fan the flames of the bonfire.
9. Purify **1.53 ounces of sliced and slightly burned instructions** with the purifier.
10. Pour out the mixture from the cauldron to get the **7.56 spoonful of cauldron mixture "wet call"**.

11. Stop the centrifuge and retrieve the **1.25 spoonful of centrifuged mixture "speaker"**.
12. Dump the **1.53 ounces of sliced, slightly burned and purified instructions, 1 instruction, 7.56 spoonful of cauldron mixture "wet call"** and **1.25 spoonful of centrifuged mixture "speaker"** into a pile on the floor.
13. Wait until they magically transform into **something that can listen**.

289 Something that can paddle

How to make **something that can paddle** in 12 easy steps:

289.1 Materials

- 91.22 ounces of spank
- 7 canoes
- 5.33 spoonful of tread
- 49.12 ounces of upstream

289.2 Tools

- Centrifuge
- Mortar
- Container
- Fireplace
- Familiar unicorn

289.3 Instructions

1. Put **49.12 ounces of upstream** into the rotating centrifuge.
2. Fan the flames of the fireplace.
3. Heat the container.
4. Put **91.22 ounces of spank** into the rotating centrifuge.
5. Smash **7 canoes** with the mortar.
6. Wait for a rather long time.
7. Heat the container.
8. Pet your familiar unicorn.
9. Let your familiar unicorn lick **5.33 spoonful of tread**.
10. Stop the centrifuge and retrieve the **5.22 ounces of centrifuged mixture "upstream and spank"**.
11. Dump the **7 smashed canoes**, **5.33 spoonful of licked tread** and **5.22 ounces of centrifuged mixture "upstream and spank"** into a pile on the floor.
12. Wait until they magically transform into **something that can paddle**.

290 Something that can possess

How to make **something that can possess** in 14 easy steps:

290.1 Materials

- 4.63 spoonful of material
- 5 obtentions
- 3 owners

290.2 Tools

- Centrifuge
- Freezer
- Vessel
- Bonfire
- Hammer
- Graphite pencil

290.3 Instructions

1. Fan the flames of the bonfire.
2. Put **4.63 spoonful of material** into the rotating centrifuge.
3. Put **5 obtentions** into the bonfire.
4. Crack **3 owners** with the hammer.
5. Stir the vessel.
6. Put **3 cracked owners** into the freezer for a while.
7. Heat the vessel.
8. Retrieve the **1.18 ounces of ashes of "obtention"** from the bonfire.
9. Wait for a minute.
10. Stop the centrifuge and retrieve the **3.24 spoonful of centrifuged mixture "material"**.
11. Draw a magic circle on the floor using the graphite pencil.

12. Draw a triangle into the circle and place **3 cracked and cooled owners, 1.18 ounces of ashes of "obtention"** and **3.24 spoonful of centrifuged mixture "material"** on each corner.
13. Chant the following spell: "Heroinarius canus au fensio exsticium capinus dilucrinus!"
14. Slowly, **something that can possess** will appear inside the circle.

291 Something that can prefer

How to make **something that can prefer** in 10 easy steps:

291.1 Materials

- 2 favors
- 13.69 ounces of preference
- 4 ideas of being favorite

291.2 Tools

- Vessel
- Centrifuge
- Pet mouse

291.3 Instructions

1. Put **13.69 ounces of preference** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Stir the vessel.
4. Stop the centrifuge and retrieve the **9.57 ounces of centrifuged mixture "preference"**.
5. Put **4 ideas of being favorite** into the rotating centrifuge.
6. Let your pet mouse sniff at **2 favors**.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **15.22 ounces of centrifuged mixture "being favorite"**.
9. Fold the **2 favors**, **9.57 ounces of centrifuged mixture "preference"** and **15.22 ounces of centrifuged mixture "being favorite"** together using advanced origami techniques.
10. If you've done it correctly, it should result in **something that can prefer**.

292 Something that can prohibit

How to make **something that can prohibit** in 9 easy steps:

292.1 Materials

- 3 forbiddances
- 31.88 spoonful of forbiddance
- 7 bans
- 4 forbiddances

292.2 Tools

- Bonfire
- Hammer
- Silverpoint pen

292.3 Instructions

1. Smash **7 bans** with the hammer.
2. Fan the flames of the bonfire.
3. Wait.
4. Hold **31.88 spoonful of forbiddance** briefly into the bonfire to burn them a bit.
5. Crack **4 forbiddances** with the hammer.
6. Draw a magic circle on the floor using the silverpoint pen.
7. Draw a square into the circle and place **3 forbiddances, 31.88 spoonful of slightly burned forbiddance, 7 smashed bans** and **4 cracked forbiddances** on each corner.
8. Whisper the following spell: "Hypothorus crebrositas congressus patus! Consentia!"
9. Slowly, **something that can prohibit** will appear inside the circle.

293 Something that can rationalize

How to make **something that can rationalize** in 6 easy steps:

293.1 Materials

- 32.43 spoonful of justification

293.2 Tools

- Fireplace

293.3 Instructions

1. Hold **32.43 spoonful of justification** briefly into the fireplace to burn them a bit.
2. Put **32.43 spoonful of slightly burned justification** into the fireplace.
3. Fan the flames of the fireplace.
4. Retrieve the **2.68 spoonful of ashes of "slightly burned justification"** from the fireplace.
5. Fold the **2.68 spoonful of ashes of "slightly burned justification"** together using advanced origami techniques.
6. If you've done it correctly, it could result in **something that can rationalize**.

294 Something that can recommend

How to make **something that can recommend** in 14 easy steps:

294.1 Materials

- 10 suggestions

294.2 Tools

- Vessel
- Bonfire
- Centrifuge
- Pet mouse
- Crayon

294.3 Instructions

1. Put **10 suggestions** into the rotating centrifuge.
2. Heat the vessel.
3. Fan the flames of the bonfire.
4. Let the vessel cool down.
5. Heat the vessel.
6. Stir the vessel.
7. Let the vessel cool down.
8. Heat the vessel.
9. Pet your pet mouse.
10. Stop the centrifuge and retrieve the **9.36 ounces of centrifuged mixture "suggestion"**.
11. Draw a magic circle on the floor using the crayon.
12. Place **9.36 ounces of centrifuged mixture "suggestion"** into the circle.
13. Whisper the following spell: "Fedetum! Cisum vicio valea censum arca! Laudex bucco araudiosus, superitas!"
14. Suddenly, **something that can recommend** will appear inside the circle.

295 Something that can seem

How to make **something that can seem** in 13 easy steps:

295.1 Materials

- 10 appearances

295.2 Tools

- Purifier
- Container
- Paintbrush

295.3 Instructions

1. Purify **10 appearances** with the purifier.
2. Heat the container.
3. Let the container cool down.
4. Put **10 purified appearances** into the container.
5. Wait for 4 hours.
6. Let the container cool down.
7. Heat the container.
8. Stir the container.
9. Pour out the mixture from the container to get the **39.1 ounces of container mixture "purified appearance"**.
10. Draw a magic circle on the floor using the paintbrush.
11. Place **39.1 ounces of container mixture "purified appearance"** into the circle.
12. Chant the following spell: "Travesarius violum clum dum adclinus! Lax correus ludium fatus, intecedo! Macutio!"
13. Slowly, **something that can seem** will appear inside the circle.

296 Something that can skate

How to make **something that can skate** in 10 easy steps:

296.1 Materials

- 29 ideas of glide
- 5.24 spoonful of grace
- 47.18 ounces of figure
- 8 boards

296.2 Tools

- Stone
- Bucket with clean liquid
- Paintbrush

296.3 Instructions

1. Smash **8 boards** with the stone.
2. Crack **8 smashed boards** with the stone.
3. Wait for a second.
4. Smash **8 smashed and cracked boards** with the stone.
5. Dip **5.24 spoonful of grace** into the bucket with clean liquid.
6. Crack **29 ideas of glide** with the stone.
7. Draw a magic circle on the floor using the paintbrush.
8. Draw a cross into the circle and place **29 cracked ideas of glide, 5.24 spoonful of wet grace, 47.18 ounces of figure** and **8 pulverized and cracked boards** on each corner.
9. Chant the following spell: "Indignes!"
10. Suddenly, **something that can skate** will appear inside the circle.

297 Something that can veer

How to make **something that can veer** in 6 easy steps:

297.1 Materials

- 9.6 spoonful of steer

297.2 Tools

- Fireplace
- Vessel
- Centrifuge

297.3 Instructions

1. Let the vessel cool down.
2. Put **9.6 spoonful of steer** into the rotating centrifuge.
3. Fan the flames of the fireplace.
4. Stop the centrifuge and retrieve the **25.02 ounces of centrifuged mixture "steer"**.
5. Dump the **25.02 ounces of centrifuged mixture "steer"** into a pile on the floor.
6. Wait until they magically transform into **something that can veer**.

298 Something that can wasted

How to make **something that can wasted** in 9 easy steps:

298.1 Materials

- 26 ideas of being drunk
- 2.33 spoonful of party
- 4 deaths
- 10 ideas of being unused

298.2 Tools

- Cauldron
- Bucket with hot liquid
- Freezer
- Centrifuge

298.3 Instructions

1. Put **10 ideas of being unused** into the rotating centrifuge.
2. Wait for a very short time.
3. Put **26 ideas of being drunk** into the freezer for a while.
4. Heat the cauldron.
5. Dip **4 deaths** into the bucket with hot liquid.
6. Wait for 4 minutes.
7. Stop the centrifuge and retrieve the **57.13 ounces of centrifuged mixture "being unused"**.
8. Fold the **26 cooled ideas of being drunk**, **2.33 spoonful of party**, **4 wet deaths** and **57.13 ounces of centrifuged mixture "being unused"** together using advanced origami techniques.
9. If you've done it correctly, it could result in **something that can wasted**.

299 Something that can weed

How to make **something that can weed** in 12 easy steps:

299.1 Materials

- 6 marshes
- 1.9 ounces of swamp
- 40 herbs
- 33.45 ounces of marijuana

299.2 Tools

- Fireplace
- Hammer
- Bucket with clean liquid
- Freezer
- Tape

299.3 Instructions

1. Dip **33.45 ounces of marijuana** into the bucket with clean liquid.
2. Put **1.9 ounces of swamp** into the fireplace.
3. Put **33.45 ounces of wet marijuana** into the freezer for a while.
4. Crack **33.45 ounces of wet and cooled marijuana** with the hammer.
5. Dip **6 marshes** into the bucket with clean liquid.
6. Smash **33.45 ounces of wet, cooled and cracked marijuana** with the hammer.
7. Put **33.45 ounces of wet, cooled, cracked and smashed marijuana** into the fireplace.
8. Crack **40 herbs** with the hammer.
9. Smash **6 wet marshes** with the hammer.
10. Dip **40 cracked herbs** into the bucket with clean liquid.
11. Retrieve the **16.1 spoonful of ashes of "swamp and wet, cooled, cracked and smashed marijuana"** from the fireplace.

12. Use tape to join the **6 wet and smashed marshes, 40 cracked and wet herbs** and **16.1 spoonful of ashes of "swamp and wet, cooled, cracked and smashed marijuana"** together into the shape of a passable something that can weed.

300 Something touchy

How to make **something touchy** in 7 easy steps:

300.1 Materials

- 42 pushies
- 8.48 ounces of jolt
- 19.74 spoonful of sensitiveness

300.2 Tools

- Freezer
- Bonfire
- Bucket with clean liquid

300.3 Instructions

1. Dip **42 pushies** into the bucket with clean liquid.
2. Put **19.74 spoonful of sensitiveness** into the freezer for a while.
3. Hold **8.48 ounces of jolt** briefly into the bonfire to burn them a bit.
4. Fan the flames of the bonfire.
5. Hold **42 wet pushies** briefly into the bonfire to burn them a bit.
6. Fold the **42 wet and slightly burned pushies**, **8.48 ounces of slightly burned jolt** and **19.74 spoonful of cooled sensitiveness** together using advanced origami techniques.
7. If you've done it correctly, it should result in **something touchy**.

301 Something uncommon

How to make **something uncommon** in 7 easy steps:

301.1 Materials

- 98.46 ounces of valor
- 24 clear concepts of being rare
- 9.38 spoonful of abnormality
- 30 clear concepts of being common

301.2 Tools

- Fireplace
- Purifier
- Vessel

301.3 Instructions

1. Hold **30 clear concepts of being common** briefly into the fireplace to burn them a bit.
2. Let the vessel cool down.
3. Wait for 9 minutes.
4. Stir the vessel.
5. Purify **9.38 spoonful of abnormality** with the purifier.
6. Fold the **98.46 ounces of valor**, **24 clear concepts of being rare**, **9.38 spoonful of purified abnormality** and **30 slightly burned clear concepts of being common** together using advanced origami techniques.
7. If you've done it correctly, it could result in **something uncommon**.

302 Something unique

How to make **something unique** in 11 easy steps:

302.1 Materials

- 8 styles
- 10 vague notions of being special
- 8 ideas of differ
- 5 unusualnesses

302.2 Tools

- Bonfire
- Bucket with ice-cold water
- Freezer
- Centrifuge
- Cauldron
- Mortar
- Nails

302.3 Instructions

1. Put **5 unusualnesses** into the rotating centrifuge.
2. Dip **8 ideas of differ** into the bucket with ice-cold water.
3. Put **10 vague notions of being special** into the freezer for a while.
4. Hold **10 cooled vague notions of being special** briefly into the bonfire to burn them a bit.
5. Crack **10 cooled and slightly burned vague notions of being special** with the mortar.
6. Put **10 cooled, slightly burned and cracked vague notions of being special** into the freezer for a while.
7. Smash **8 wet ideas of differ** with the mortar.
8. Heat the cauldron.
9. Crack **10 frozen, slightly burned and cracked vague notions of being special** with the mortar.

10. Stop the centrifuge and retrieve the **42.79 spoonful of centrifuged mixture "unusualness"**.
11. Use nails to join the **8 styles, 10 frozen, slightly burned and crushed vague notions of being special, 8 wet and smashed ideas of differ** and **42.79 spoonful of centrifuged mixture "unusualness"** together into the form of a usable **something unique**.

303 Something useless

How to make **something useless** in 14 easy steps:

303.1 Materials

- 7 clear concepts of being feeble
- 8.22 spoonful of hopelessness
- 9 worthlessnesses
- 6.87 ounces of booze

303.2 Tools

- Centrifuge
- Bonfire
- Ballpoint pen

303.3 Instructions

1. Wait.
2. Put **8.22 spoonful of hopelessness** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Wait.
5. Put **9 worthlessnesses** into the rotating centrifuge.
6. Put **7 clear concepts of being feeble** into the rotating centrifuge.
7. Wait for a day.
8. Hold **6.87 ounces of booze** briefly into the bonfire to burn them a bit.
9. Fan the flames of the bonfire.
10. Stop the centrifuge and retrieve the **1.23 spoonful of centrifuged mixture "hopelessness, worthlessness and being feeble"**.
11. Draw a magic circle on the floor using the ballpoint pen.
12. Draw a line into the circle and place **6.87 ounces of slightly burned booze** and **1.23 spoonful of centrifuged mixture "hopelessness, worthlessness and being feeble"** on each end.
13. Chant the following spell: "Depulatio! Tetrimeo inculus inulatus tempes, nuncubinus danus!"
14. Suddenly, **something useless** will appear inside the circle.

304 Something usual

How to make **something usual** in 11 easy steps:

304.1 Materials

- 3.08 ounces of norm
- 14.72 ounces of routine
- 16 normalities
- 6.35 spoonful of regularity

304.2 Tools

- Centrifuge
- Purifier
- Container
- Bucket with ice-cold water
- Hammer
- Screws

304.3 Instructions

1. Stir the container.
2. Purify **14.72 ounces of routine** with the purifier.
3. Put **16 normalities** into the rotating centrifuge.
4. Stir the container.
5. Smash **6.35 spoonful of regularity** with the hammer.
6. Dip **6.35 spoonful of smashed regularity** into the bucket with ice-cold water.
7. Wait for a second.
8. Let the container cool down.
9. Speed up the centrifuge.
10. Stop the centrifuge and retrieve the **2.72 ounces of centrifuged mixture "normality"**.

11. Use screws to join the **3.08 ounces of norm**, **14.72 ounces of purified routine**, **6.35 spoonful of smashed and wet regularity** and **2.72 ounces of centrifuged mixture "normality"** together into the form of a beautiful **something usual**.

305 Something vulgar

How to make **something vulgar** in 11 easy steps:

305.1 Materials

- 34.77 spoonful of disgust

305.2 Tools

- Cauldron
- Familiar cat
- Charcoal pencil

305.3 Instructions

1. Heat the cauldron.
2. Put **34.77 spoonful of disgust** into the cauldron.
3. Wait for 10 days.
4. Let the cauldron cool down.
5. Pet your familiar cat.
6. Stir the cauldron.
7. Pour out the mixture from the cauldron to get the **14.98 ounces of cauldron mixture "disgust"**.
8. Draw a magic circle on the floor using the charcoal pencil.
9. Place **14.98 ounces of cauldron mixture "disgust"** into the circle.
10. Intone the following spell: "Defio! Lino candabile poracho, inno!"
11. Slowly, **something vulgar** will appear inside the circle.

306 Something weak

How to make **something weak** in 13 easy steps:

306.1 Materials

- 2.19 spoonful of courage
- 18 ideas of being brave
- 29 timidnesses
- 7.92 ounces of wariness

306.2 Tools

- Stone
- Bonfire

306.3 Instructions

1. Put **2.19 spoonful of courage** into the bonfire.
2. Hold **29 timidnesses** briefly into the bonfire to burn them a bit.
3. Hold **7.92 ounces of wariness** briefly into the bonfire to burn them a bit.
4. Retrieve the **1.72 spoonful of ashes of "courage"** from the bonfire.
5. Hold **29 slightly burned timidnesses** briefly into the bonfire to burn them a bit.
6. Fan the flames of the bonfire.
7. Put **18 ideas of being brave** into the bonfire.
8. Smash **29 burned timidnesses** with the stone.
9. Put **1.72 spoonful of ashes of "courage"** into the bonfire.
10. Crack **29 burned and smashed timidnesses** with the stone.
11. Retrieve the **4.46 spoonful of ashes of "being brave and ashes of "courage" from the bonfire.**
12. Fold the **29 burned, smashed and cracked timidnesses, 7.92 ounces of slightly burned wariness and 4.46 spoonful of ashes of "being brave and ashes of "courage" together using advanced origami techniques.**
13. If you've done it correctly, it might result in **something weak**.

307 Something willing

How to make **something willing** in 15 easy steps:

307.1 Materials

- 2 vague notions of volunteer
- 8 readinesses
- 9.81 spoonful of ability
- 9.87 ounces of eagerness

307.2 Tools

- Pet mouse
- Centrifuge
- Cauldron
- Fireplace
- Graphite pencil

307.3 Instructions

1. Stir the cauldron.
2. Wait for a short time.
3. Put **9.81 spoonful of ability** into the fireplace.
4. Pet your pet mouse.
5. Put **8 readinesses** into the fireplace.
6. Feed **9.87 ounces of eagerness** to your pet mouse.
7. Wait.
8. Put **2 vague notions of volunteer** into the rotating centrifuge.
9. Wait until your pet mouse poops. Receive **9.12 ounces of a very dirty pile of "eagerness"**.
10. Stop the centrifuge and retrieve the **1.6 spoonful of centrifuged mixture "volunteer"**.
11. Retrieve the **1.06 ounces of ashes of "ability and readiness"** from the fireplace.

12. Draw a magic circle on the floor using the graphite pencil.
13. Draw a triangle into the circle and place **9.12 ounces of a very dirty pile of "eagerness"**, **1.6 spoonful of centrifuged mixture "volunteer"** and **1.06 ounces of ashes of "ability and readiness"** on each corner.
14. Whisper the following spell: "Desuscus atlutatio inlus baerius catus inatus!"
15. Suddenly, **something willing** will appear inside the circle.

308 A spine

How to make a **spine** in 4 easy steps:

308.1 Materials

- 29.93 spoonful of back
- 3.97 spoonful of cactus
- 8.06 spoonful of backbone
- 7.73 spoonful of shiver

308.2 Tools

- Container
- Freezer

308.3 Instructions

1. Put **29.93 spoonful of back** into the freezer for a while.
2. Let the container cool down.
3. Dump the **29.93 spoonful of cooled back**, **3.97 spoonful of cactus**, **8.06 spoonful of backbone** and **7.73 spoonful of shiver** into a pile on the floor.
4. Wait until they magically transform into a **spine**.

309 A squeal

How to make a **squeal** in 6 easy steps:

309.1 Materials

- 15 squeaks

309.2 Tools

- Hammer

309.3 Instructions

1. Wait for a long time.
2. Grind a little bit of bat wings to dust and add it. It's not strictly needed, but doesn't hurt I guess?
3. Smash **15 squeaks** with the hammer.
4. Wait.
5. Fold the **15 smashed squeaks** together using advanced origami techniques.
6. If you've done it correctly, it could result in a **squeal**.

310 A squid

How to make a **squid** in 8 easy steps:

310.1 Materials

- 8.4 spoonful of octopus
- 5 escargots

310.2 Tools

- Stone
- Bonfire
- Saw
- Bucket with hot liquid
- Nails

310.3 Instructions

1. Smash **8.4 spoonful of octopus** with the stone.
2. Wait for 8 minutes.
3. Use the saw to slice **5 escargots** into bits.
4. Smash **8.4 spoonful of smashed octopus** with the stone.
5. Hold **5 sliced escargots** briefly into the bonfire to burn them a bit.
6. Dip **8.4 spoonful of pulverized octopus** into the bucket with hot liquid.
7. Hold **5 sliced and slightly burned escargots** briefly into the bonfire to burn them a bit.
8. Use nails to join the **8.4 spoonful of pulverized and wet octopus** and **5 sliced and burned escargots** together into the shape of a beautiful **squid**.

311 Steam

How to make **steam** in 12 easy steps:

311.1 Materials

- 7.39 ounces of teapot
- 15 vapors
- 9.45 spoonful of vegetables
- 14 mists

311.2 Tools

- Cauldron
- Fireplace
- Centrifuge
- Glue

311.3 Instructions

1. Heat the cauldron.
2. Put **7.39 ounces of teapot** into the rotating centrifuge.
3. Let the cauldron cool down.
4. Heat the cauldron.
5. Stop the centrifuge and retrieve the **13.11 spoonful of centrifuged mixture "teapot"**.
6. Wait for a rather long time.
7. Stir the cauldron.
8. Hold **9.45 spoonful of vegetables** briefly into the fireplace to burn them a bit.
9. Heat the cauldron.
10. Put **9.45 spoonful of slightly burned vegetables** into the rotating centrifuge.
11. Stop the centrifuge and retrieve the **21.03 ounces of centrifuged mixture "slightly burned vegetables"**.

12. Use glue to join the **15 vapors, 14 mists, 13.11 spoonful of centrifuged mixture "teapot"** and **21.03 ounces of centrifuged mixture "slightly burned vegetables"** together into the form of a beautiful steam.

312 A stink

How to make a **stink** in 9 easy steps:

312.1 Materials

- 7.31 spoonful of garage
- 14.7 spoonful of rot
- 10 clear concepts of suck
- 4.61 spoonful of skunk

312.2 Tools

- Stone
- Purifier
- Centrifuge

312.3 Instructions

1. Purify **10 clear concepts of suck** with the purifier.
2. Put **14.7 spoonful of rot** into the rotating centrifuge.
3. Put **7.31 spoonful of garage** into the rotating centrifuge.
4. Wait.
5. Purify **4.61 spoonful of skunk** with the purifier.
6. Smash **4.61 spoonful of purified skunk** with the stone.
7. Stop the centrifuge and retrieve the **2.74 spoonful of centrifuged mixture "rot and garage"**.
8. Fold the **10 purified clear concepts of suck**, **4.61 spoonful of purified and smashed skunk** and **2.74 spoonful of centrifuged mixture "rot and garage"** together using advanced origami techniques.
9. If you've done it correctly, it should result in a **stink**.

313 A straw

How to make a **straw** in 12 easy steps:

313.1 Materials

- 1 hut
- 8 baskets
- 5 haystacks
- 4.42 ounces of slurp

313.2 Tools

- Centrifuge
- Cauldron
- Freezer
- Pet hummingbird

313.3 Instructions

1. Let your pet hummingbird sniff at **4.42 ounces of slurp**.
2. Let your pet hummingbird lick **5 haystacks**.
3. Put **5 licked haystacks** into the rotating centrifuge.
4. Put **8 baskets** into the cauldron.
5. Let the cauldron cool down.
6. Stir the cauldron.
7. Let your pet hummingbird sniff at **4.42 ounces of slurp**.
8. Put **4.42 ounces of slurp** into the freezer for a while.
9. Stop the centrifuge and retrieve the **49.08 spoonful of centrifuged mixture "licked haystack"**.
10. Pour out the mixture from the cauldron to get the **2.53 ounces of cauldron mixture "basket"**.
11. Fold the **1 hut, 4.42 ounces of cooled slurp, 49.08 spoonful of centrifuged mixture "licked haystack"** and **2.53 ounces of cauldron mixture "basket"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **straw**.

314 A suede

How to make a **suede** in 9 easy steps:

314.1 Materials

- 5.36 spoonful of leather
- 7.04 ounces of velvet

314.2 Tools

- Fireplace
- Freezer
- Centrifuge
- Hammer
- Glue

314.3 Instructions

1. Hold **7.04 ounces of velvet** briefly into the fireplace to burn them a bit.
2. Put **5.36 spoonful of leather** into the fireplace.
3. Put **7.04 ounces of slightly burned velvet** into the freezer for a while.
4. Retrieve the **2.22 ounces of ashes of "leather"** from the fireplace.
5. Crack **7.04 ounces of slightly burned and cooled velvet** with the hammer.
6. Put **2.22 ounces of ashes of "leather"** into the rotating centrifuge.
7. Put **7.04 ounces of slightly burned, cooled and cracked velvet** into the freezer for a while.
8. Stop the centrifuge and retrieve the **4.25 spoonful of centrifuged mixture "ashes of "leather""**.
9. Use glue to join the **7.04 ounces of slightly burned, frozen and cracked velvet** and **4.25 spoonful of centrifuged mixture "ashes of "leather""** together into the form of a beautiful **suede**.

315 A suicide

How to make a **suicide** in 8 easy steps:

315.1 Materials

- 9.87 ounces of tendency
- 2 hopelessnesses
- 10 nooses
- 9.3 spoonful of attempt

315.2 Tools

- Container
- Saw
- Stone

315.3 Instructions

1. Put **10 nooses** into the container.
2. Stir the container.
3. Use the saw to slice **9.3 spoonful of attempt** into bits.
4. Smash **9.3 spoonful of sliced attempt** with the stone.
5. Put **9.3 spoonful of sliced and smashed attempt** into the container.
6. Pour out the mixture from the container to get the **5.64 ounces of container mixture "noose and sliced and smashed attempt"**.
7. Dump the **9.87 ounces of tendency, 2 hopelessnesses and 5.64 ounces of container mixture "noose and sliced and smashed attempt"** into a pile on the floor.
8. Wait until they magically transform into a **suicide**.

316 A summit

How to make a **summit** in 13 easy steps:

316.1 Materials

- 5.18 spoonful of apex
- 3.53 ounces of peak

316.2 Tools

- Centrifuge
- Bucket with ionised water
- Bonfire
- Freezer
- Silverpoint pen

316.3 Instructions

1. Put **5.18 spoonful of apex** into the rotating centrifuge.
2. Dip **3.53 ounces of peak** into the bucket with ionised water.
3. Put **3.53 ounces of wet peak** into the freezer for a while.
4. Hold **3.53 ounces of wet and cooled peak** briefly into the bonfire to burn them a bit.
5. Put **3.53 ounces of wet, cooled and slightly burned peak** into the bonfire.
6. Fan the flames of the bonfire.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **4.04 ounces of centrifuged mixture "apex"**.
9. Retrieve the **9.26 ounces of ashes of "wet, cooled and slightly burned peak"** from the bonfire.
10. Draw a magic circle on the floor using the silverpoint pen.
11. Draw a line into the circle and place **4.04 ounces of centrifuged mixture "apex"** and **9.26 ounces of ashes of "wet, cooled and slightly burned peak"** on each end.

12. Whisper the following spell: "Teresvir! Factia convenium!"
13. Reluctantly, a **summit** will appear inside the circle.

317 A sun

How to make a **sun** in 11 easy steps:

317.1 Materials

- 17.57 spoonful of shade
- 4 fades
- 39.51 ounces of warmness
- 18.03 spoonful of light

317.2 Tools

- Container
- Freezer
- Stone

317.3 Instructions

1. Crack **18.03 spoonful of light** with the stone.
2. Put **17.57 spoonful of shade** into the freezer for a while.
3. Let the container cool down.
4. Put **4 fades** into the container.
5. Crack **18.03 spoonful of cracked light** with the stone.
6. Put **39.51 ounces of warmness** into the freezer for a while.
7. Put **39.51 ounces of cooled warmness** into the container.
8. Heat the container.
9. Pour out the mixture from the container to get the **5.11 ounces of container mixture "fade and cooled warmness"**.
10. Fold the **17.57 spoonful of cooled shade**, **18.03 spoonful of crushed light** and **5.11 ounces of container mixture "fade and cooled warmness"** together using advanced origami techniques.
11. If you've done it correctly, it should result in a **sun**.

318 A surface

How to make a **surface** in 13 easy steps:

318.1 Materials

- 7 clear concepts of being flat
- 22 smoothnesses
- 31 pavements
- 8.93 ounces of floatation

318.2 Tools

- Bucket with clean liquid
- Centrifuge
- Paintbrush

318.3 Instructions

1. Put **22 smoothnesses** into the rotating centrifuge.
2. Throw **8.93 ounces of floatation**, **7 clear concepts of being flat** and **31 pavements** away.
3. Stop the centrifuge and retrieve the **17.11 spoonful of centrifuged mixture "smoothness"**.
4. Dip **17.11 spoonful of centrifuged mixture "smoothness"** into the bucket with clean liquid.
5. Put **17.11 spoonful of wet centrifuged mixture "smoothness"** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **77.67 spoonful of centrifuged mixture "wet centrifuged mixture "smoothness"**.
7. Put **77.67 spoonful of centrifuged mixture "wet centrifuged mixture "smoothness"** into the rotating centrifuge.
8. Wait for a long time.
9. Stop the centrifuge and retrieve the **28.69 spoonful of centrifuged mixture "centrifuged mixture "wet centrifuged mixture "smoothness"**.
10. Draw a magic circle on the floor using the paintbrush.

11. Place **28.69 spoonful of centrifuged mixture "centrifuged mixture "wet centrifuged mixture "smoothness""** into the circle.
12. Chant the following spell: "Adjutus pugnasiuncio axistallium dipsalsus illula, cauditiolo! Virabilites! Modus argenatus delicius doctatitio biso!"
13. Slowly, a **surface** will appear inside the circle.

319 A survey

How to make a **survey** in 9 easy steps:

319.1 Materials

- 16 samples
- 6 ideas of being endless
- 4 analyses

319.2 Tools

- Cauldron
- Saw
- Purifier
- Tape

319.3 Instructions

1. Purify **4 analyses** with the purifier.
2. Let the cauldron cool down.
3. Stir the cauldron.
4. Use the saw to slice **16 samples** into bits.
5. Heat the cauldron.
6. Put **6 ideas of being endless** into the cauldron.
7. Let the cauldron cool down.
8. Pour out the mixture from the cauldron to get the **8.26 ounces of cauldron mixture "being endless"**.
9. Use tape to join the **16 sliced samples**, **4 purified analyses** and **8.26 ounces of cauldron mixture "being endless"** together into the form of a usable **survey**.

320 A swallow

How to make a **swallow** in 11 easy steps:

320.1 Materials

- 4 gulps
- 6 clear concepts of spit
- 5 intakes
- 1 digestion

320.2 Tools

- Hammer
- Centrifuge
- Saw
- Vessel

320.3 Instructions

1. Heat the vessel.
2. Stir the vessel.
3. Put **1 digestion** into the vessel.
4. Use the saw to slice **6 clear concepts of spit** into bits.
5. Heat the vessel.
6. Smash **6 sliced clear concepts of spit** with the hammer.
7. Put **6 sliced and smashed clear concepts of spit** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **2.58 ounces of centrifuged mixture "sliced and smashed spit"**.
9. Pour out the mixture from the vessel to get the **28.13 ounces of vessel mixture "digestion"**.
10. Dump the **4 gulps, 5 intakes, 2.58 ounces of centrifuged mixture "sliced and smashed spit"** and **28.13 ounces of vessel mixture "digestion"** into a pile on the floor.
11. Wait until they magically transform into a **swallow**.

321 A swamp

How to make a **swamp** in 12 easy steps:

321.1 Materials

- 2.04 spoonful of moat
- 4.35 ounces of gully
- 31.61 ounces of alligator
- 4 crocodiles

321.2 Tools

- Stone
- Purifier
- Container
- Centrifuge
- Pet hummingbird

321.3 Instructions

1. Put **2.04 spoonful of moat** into the rotating centrifuge.
2. Crack **4.35 ounces of gully** with the stone.
3. Put **4.35 ounces of cracked gully** into the container.
4. Pet your pet hummingbird.
5. Purify **31.61 ounces of alligator** with the purifier.
6. Let your pet hummingbird lick **31.61 ounces of purified alligator**.
7. Feed **31.61 ounces of purified and licked alligator** to your pet hummingbird.
8. Pour out the mixture from the container to get the **8.65 ounces of container mixture "cracked gully"**.
9. Stop the centrifuge and retrieve the **1.8 ounces of centrifuged mixture "moat"**.
10. Wait until your pet hummingbird poops. Receive **6.91 spoonful of a very dirty pile of "purified and licked alligator"**.

11. Dump the **4 crocodiles**, **8.65 ounces of container mixture "cracked gully"**, **1.8 ounces of centrifuged mixture "moat"** and **6.91 spoonful of a very dirty pile of "purified and licked alligator"** into a pile on the floor.
12. Wait until they magically transform into a **swamp**.

322 A sweat

How to make a **sweat** in 8 easy steps:

322.1 Materials

- 8.1 spoonful of relaxation
- 1.66 spoonful of athlete
- 6 foreheads
- 26.15 ounces of body

322.2 Tools

- Bonfire
- Vessel
- Screws

322.3 Instructions

1. Heat the vessel.
2. Put **26.15 ounces of body** into the vessel.
3. Wait.
4. Throw **8.1 spoonful of relaxation**, **1.66 spoonful of athlete** and **6 foreheads** away.
5. Heat the vessel.
6. Fan the flames of the bonfire.
7. Pour out the mixture from the vessel to get the **5.27 spoonful of vessel mixture "body"**.
8. Use screws to join the **5.27 spoonful of vessel mixture "body"** together into the form of a perfectly functional **sweat**.

323 A symbol

How to make a **symbol** in 12 easy steps:

323.1 Materials

- 125.79 ounces of infinity
- 7.38 ounces of eagle
- 9.56 spoonful of status
- 10 clear concepts of cross

323.2 Tools

- Mortar
- Freezer
- Purifier
- Container

323.3 Instructions

1. Stir the container.
2. Let the container cool down.
3. Put **125.79 ounces of infinity** into the container.
4. Purify **10 clear concepts of cross** with the purifier.
5. Stir the container.
6. Smash **10 purified clear concepts of cross** with the mortar.
7. Put **9.56 spoonful of status** into the freezer for a while.
8. Wait for 6 days.
9. Let the container cool down.
10. Pour out the mixture from the container to get the **13.85 ounces of container mixture "infinity"**.
11. Dump the **7.38 ounces of eagle, 9.56 spoonful of cooled status, 10 purified and smashed clear concepts of cross** and **13.85 ounces of container mixture "infinity"** into a pile on the floor.
12. Wait until they magically transform into a **symbol**.

324 A taboo

How to make a **taboo** in 4 easy steps:

324.1 Materials

- 8.03 spoonful of voodoo
- 7 forbiddances
- 14.41 spoonful of forbiddance

324.2 Tools

- Fireplace

324.3 Instructions

1. Hold **8.03 spoonful of voodoo** briefly into the fireplace to burn them a bit.
2. Hold **14.41 spoonful of forbiddance** briefly into the fireplace to burn them a bit.
3. Dump the **8.03 spoonful of slightly burned voodoo**, **7 forbiddances** and **14.41 spoonful of slightly burned forbiddance** into a pile on the floor.
4. Wait until they magically transform into a **taboo**.

325 A tack

How to make a **tack** in 6 easy steps:

325.1 Materials

- 15.74 spoonful of staple
- 124 vague notions of tick
- 25.89 spoonful of thumb
- 2.26 spoonful of tie

325.2 Tools

- Cauldron
- Hammer
- Bonfire
- Purifier
- Pet unicorn
- Glue

325.3 Instructions

1. Purify **124 vague notions of tick** with the purifier.
2. Fan the flames of the bonfire.
3. Crack **15.74 spoonful of staple** with the hammer.
4. Heat the cauldron.
5. Let your pet unicorn lick **124 purified vague notions of tick**.
6. Use glue to join the **15.74 spoonful of cracked staple**, **124 purified and licked vague notions of tick**, **25.89 spoonful of thumb** and **2.26 spoonful of tie** together into the form of a usable **tack**.

326 A tank

How to make a **tank** in 9 easy steps:

326.1 Materials

- 1.44 spoonful of scuba
- 8 clear concepts of fill
- 4.69 spoonful of dive
- 8.72 ounces of gallon

326.2 Tools

- Fireplace
- Centrifuge
- Electric paint

326.3 Instructions

1. Put **4.69 spoonful of dive** into the fireplace.
2. Put **1.44 spoonful of scuba** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Retrieve the **9.65 ounces of ashes of "dive"** from the fireplace.
5. Stop the centrifuge and retrieve the **26.36 ounces of centrifuged mixture "scuba"**.
6. Draw a magic circle on the floor using the electric paint.
7. Draw a square into the circle and place **8 clear concepts of fill, 8.72 ounces of gallon, 9.65 ounces of ashes of "dive"** and **26.36 ounces of centrifuged mixture "scuba"** on each corner.
8. Whisper the following spell: "Magio lecto tae fulla!"
9. Reluctantly, a **tank** will appear inside the circle.

327 A tax

How to make a **tax** in 4 easy steps:

327.1 Materials

- 9.87 spoonful of luxury
- 5 suites
- 8.62 spoonful of excise
- 4.06 ounces of income

327.2 Tools

- Fireplace
- Bucket with ice-cold water
- Glue

327.3 Instructions

1. Wait.
2. Hold **5 suites** briefly into the fireplace to burn them a bit.
3. Dip **8.62 spoonful of excise** into the bucket with ice-cold water.
4. Use glue to join the **9.87 spoonful of luxury**, **5 slightly burned suites**, **8.62 spoonful of wet excise** and **4.06 ounces of income** together into the shape of a perfectly functional **tax**.

328 A teacher

How to make a **teacher** in 6 easy steps:

328.1 Materials

- 8.01 ounces of conductor
- 43 helpers
- 31.15 spoonful of principle
- 28.18 ounces of lesson

328.2 Tools

- Bucket with water
- Freezer
- Centrifuge
- Tape

328.3 Instructions

1. Put **43 helpers** into the rotating centrifuge.
2. Put **8.01 ounces of conductor** into the freezer for a while.
3. Dip **8.01 ounces of cooled conductor** into the bucket with water.
4. Stop the centrifuge and retrieve the **18.64 spoonful of centrifuged mixture "helper"**.
5. Wait.
6. Use tape to join the **8.01 ounces of cooled and wet conductor**, **31.15 spoonful of principle**, **28.18 ounces of lesson** and **18.64 spoonful of centrifuged mixture "helper"** together into the form of a usable **teacher**.

329 A tendency

How to make a **tendency** in 8 easy steps:

329.1 Materials

- 5 compulsions
- 8.08 spoonful of center

329.2 Tools

- Centrifuge
- Container
- Bonfire

329.3 Instructions

1. Stir the container.
2. Put **8.08 spoonful of center** into the bonfire.
3. Put **5 compulsions** into the rotating centrifuge.
4. Fan the flames of the bonfire.
5. Stop the centrifuge and retrieve the **3.07 ounces of centrifuged mixture "compulsion"**.
6. Retrieve the **4.29 spoonful of ashes of "center"** from the bonfire.
7. Dump the **3.07 ounces of centrifuged mixture "compulsion"** and **4.29 spoonful of ashes of "center"** into a pile on the floor.
8. Wait until they magically transform into a **tendency**.

330 A test tube

How to make a **test tube** in 5 easy steps:

330.1 Materials

- 9 chemistries
- 34 beakers
- 9.01 spoonful of lab
- 74.88 spoonful of cylinder

330.2 Tools

- Purifier
- Cauldron

330.3 Instructions

1. Put **34 beakers** into the cauldron.
2. Purify **74.88 spoonful of cylinder** with the purifier.
3. Pour out the mixture from the cauldron to get the **2.3 ounces of cauldron mixture "beaker"**.
4. Fold the **9 chemistries**, **9.01 spoonful of lab**, **74.88 spoonful of purified cylinder** and **2.3 ounces of cauldron mixture "beaker"** together using advanced origami techniques.
5. If you've done it correctly, it should result in a **test tube**.

331 A thesis

How to make a **thesis** in 7 easy steps:

331.1 Materials

- 3.08 spoonful of theory
- 11.08 spoonful of hypothesis
- 7 summaries
- 7 topics

331.2 Tools

- Cauldron
- Hammer
- Freezer
- Bonfire

331.3 Instructions

1. Put **11.08 spoonful of hypothesis** into the freezer for a while.
2. Let the cauldron cool down.
3. Crack **7 topics** with the hammer.
4. Put **11.08 spoonful of cooled hypothesis** into the bonfire.
5. Retrieve the **9.76 ounces of ashes of "cooled hypothesis"** from the bonfire.
6. Dump the **3.08 spoonful of theory**, **7 summaries**, **7 cracked topics** and **9.76 ounces of ashes of "cooled hypothesis"** into a pile on the floor.
7. Wait until they magically transform into a **thesis**.

332 A thick

How to make a **thick** in 7 easy steps:

332.1 Materials

- 12 syrups
- 5.57 spoonful of smog
- 30 ideas of being dense
- 6.98 spoonful of thicket

332.2 Tools

- None

332.3 Instructions

1. Wait for 3 hours.
2. Throw **30 ideas of being dense**, **5.57 spoonful of smog**, **6.98 spoonful of thicket** and **12 syrups** away.
3. Grind a little bit of hair from a president to dust and add it. It's not strictly needed, but doesn't hurt I guess?
4. Wait.
5. Wait until it rings on the door.
6. Open the door. You will find a **thick** just lying there.
7. Don't ask how it got there. Take it. It's yours now.

333 Time

How to make **time** in 13 easy steps:

333.1 Materials

- 7 clocks
- 76.39 spoonful of chance
- 42.31 ounces of punctuation
- 7.07 spoonful of schedule

333.2 Tools

- Freezer
- Vessel
- Charcoal pencil

333.3 Instructions

1. Let the vessel cool down.
2. Heat the vessel.
3. Put **7.07 spoonful of schedule** into the freezer for a while.
4. Stir the vessel.
5. Heat the vessel.
6. Let the vessel cool down.
7. Wait for a rather long time.
8. Heat the vessel.
9. Let the vessel cool down.
10. Draw a magic circle on the floor using the charcoal pencil.
11. Draw a cross into the circle and place **7 clocks, 76.39 spoonful of chance, 42.31 ounces of punctuation** and **7.07 spoonful of cooled schedule** on each corner.
12. Chant the following spell: "Qua perbarchilis totantia! Ausatus depe! Chrismus reus argyra nigerarius! Liniosus!"
13. Suddendly, **time** will appear inside the circle.

334 A toenail

How to make a **toenail** in 10 easy steps:

334.1 Materials

- 6.14 ounces of fingernail
- 5 clippers

334.2 Tools

- Vessel
- Freezer
- Mortar

334.3 Instructions

1. Crack **6.14 ounces of fingernail** with the mortar.
2. Put **5 clippers** into the freezer for a while.
3. Stir the vessel.
4. Put **6.14 ounces of cracked fingernail** into the vessel.
5. Pour out the mixture from the vessel to get the **7.09 spoonful of vessel mixture "cracked fingernail"**.
6. Let the vessel cool down.
7. Heat the vessel.
8. Stir the vessel.
9. Dump the **5 cooled clippers** and **7.09 spoonful of vessel mixture "cracked fingernail"** into a pile on the floor.
10. Wait until they magically transform into a **toenail**.

335 A together

How to make a **together** in 15 easy steps:

335.1 Materials

- 19 connections
- 1 idea of being intimate
- 10 vague notions of break
- 2.23 ounces of composition

335.2 Tools

- Centrifuge
- Hammer
- Bonfire
- Charcoal pencil

335.3 Instructions

1. Fan the flames of the bonfire.
2. Put **19 connections** into the rotating centrifuge.
3. Put **1 idea of being intimate** into the bonfire.
4. Crack **2.23 ounces of composition** with the hammer.
5. Hold **10 vague notions of break** briefly into the bonfire to burn them a bit.
6. Smash **2.23 ounces of cracked composition** with the hammer.
7. Put **2.23 ounces of cracked and smashed composition** into the bonfire.
8. Put **10 slightly burned vague notions of break** into the bonfire.
9. Speed up the centrifuge.
10. Stop the centrifuge and retrieve the **7.07 ounces of centrifuged mixture "connection"**.
11. Retrieve the **7.23 ounces of ashes of "being intimate, cracked and smashed composition and slightly burned break"** from the bonfire.

12. Draw a magic circle on the floor using the charcoal pencil.
13. Draw a line into the circle and place **7.07 ounces of centrifuged mixture "connection"** and **7.23 ounces of ashes of "being intimate, cracked and smashed composition and slightly burned break"** on each end.
14. Intone the following spell: "Lucius salticus deductifo, amplicus dimipo cum!"
15. Suddenly, a **together** will appear inside the circle.

336 A tomorrow

How to make a **tomorrow** in 13 easy steps:

336.1 Materials

- 6 todays
- 22.29 ounces of search
- 6 tonights
- 2.22 ounces of future

336.2 Tools

- Freezer
- Bonfire
- Centrifuge
- Familiar cat
- Charcoal pencil

336.3 Instructions

1. Fan the flames of the bonfire.
2. Put **6 tonights** into the rotating centrifuge.
3. Let your familiar cat sniff at **6 todays**.
4. Hold **6 todays** briefly into the bonfire to burn them a bit.
5. Feed **6 slightly burned todays** to your familiar cat.
6. Put **2.22 ounces of future** into the freezer for a while.
7. Wait for a short time.
8. Wait until your familiar cat poops. Receive **37.01 ounces of a very dirty pile of "slightly burned today"**.
9. Stop the centrifuge and retrieve the **4.66 spoonful of centrifuged mixture "tonight"**.
10. Draw a magic circle on the floor using the charcoal pencil.

11. Draw a cross into the circle and place **22.29 ounces of search, 2.22 ounces of cooled future, 37.01 ounces of a very dirty pile of "slightly burned today"** and **4.66 spoonful of centrifuged mixture "tonight"** on each corner.
12. Chant the following spell: "Bucessa onum! Enumentiper lytinum subitium!"
13. Slowly, a **tomorrow** will appear inside the circle.

337 A tow

How to make a **tow** in 8 easy steps:

337.1 Materials

- 28 trailers
- 3.52 spoonful of zone
- 1.67 spoonful of clamp
- 8 vague notions of haul

337.2 Tools

- Stone
- Vessel
- Charcoal pencil

337.3 Instructions

1. Stir the vessel.
2. Crack **3.52 spoonful of zone** with the stone.
3. Let the vessel cool down.
4. Stir the vessel.
5. Draw a magic circle on the floor using the charcoal pencil.
6. Draw a square into the circle and place **28 trailers, 3.52 spoonful of cracked zone, 1.67 spoonful of clamp** and **8 vague notions of haul** on each corner.
7. Chant the following spell: "Vaccesidia! Caferiplego!"
8. Reluctantly, a **tow** will appear inside the circle.

338 A treason

How to make a **treason** in 8 easy steps:

338.1 Materials

- 2.2 ounces of traitor

338.2 Tools

- Container
- Centrifuge
- Bonfire

338.3 Instructions

1. Fan the flames of the bonfire.
2. Put **2.2 ounces of traitor** into the rotating centrifuge.
3. Wait for a long time.
4. Speed up the centrifuge.
5. Stir the container.
6. Stop the centrifuge and retrieve the **4.56 spoonful of centrifuged mixture "traitor"**.
7. Fold the **4.56 spoonful of centrifuged mixture "traitor"** together using advanced origami techniques.
8. If you've done it correctly, it could result in a **treason**.

339 A treatment

How to make a **treatment** in 9 easy steps:

339.1 Materials

- 30.91 ounces of therapy
- 4.98 ounces of unfairness
- 1 shock

339.2 Tools

- Centrifuge
- Vessel

339.3 Instructions

1. Let the vessel cool down.
2. Put **1 shock** into the rotating centrifuge.
3. Put **30.91 ounces of therapy** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **22.37 ounces of centrifuged mixture "shock and therapy"**.
5. Put **22.37 ounces of centrifuged mixture "shock and therapy"** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **4.73 spoonful of centrifuged mixture "centrifuged mixture "shock and therapy" "**.
8. Fold the **4.98 ounces of unfairness** and **4.73 spoonful of centrifuged mixture "centrifuged mixture "shock and therapy" "** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **treatment**.

340 A trial

How to make a **trial** in 11 easy steps:

340.1 Materials

- 20.67 ounces of example
- 17.4 ounces of case
- 23.25 spoonful of perjury
- 4.82 spoonful of jury

340.2 Tools

- Freezer
- Saw
- Purifier
- Electric paint

340.3 Instructions

1. Purify **17.4 ounces of case** with the purifier.
2. Put **23.25 spoonful of perjury** into the freezer for a while.
3. Use the saw to slice **4.82 spoonful of jury** into bits.
4. Wait for a second.
5. Purify **4.82 spoonful of sliced jury** with the purifier.
6. Use the saw to slice **4.82 spoonful of sliced and purified jury** into bits.
7. Wait for a second.
8. Draw a magic circle on the floor using the electric paint.
9. Draw a square into the circle and place **20.67 ounces of example, 17.4 ounces of purified case, 23.25 spoonful of cooled perjury and 4.82 spoonful of fragmented and purified jury** on each corner.
10. Whisper the following spell: "Supergia carparator patus gallatrix certicus, trabilis aulinia neraledictio! Protalis! Elebritas duus tranabilis!"
11. Suddendly, a **trial** will appear inside the circle.

341 A truck

How to make a **truck** in 13 easy steps:

341.1 Materials

- 4 panels
- 1.59 spoonful of crane
- 6 tires
- 3.37 ounces of driver

341.2 Tools

- Vessel
- Fireplace
- Familiar ape
- Freezer

341.3 Instructions

1. Fan the flames of the fireplace.
2. Put **6 tires** into the fireplace.
3. Put **1.59 spoonful of crane** into the freezer for a while.
4. Retrieve the **3.15 spoonful of ashes of "tire"** from the fireplace.
5. Put **3.15 spoonful of ashes of "tire"** into the fireplace.
6. Put **3.37 ounces of driver** into the fireplace.
7. Put **1.59 spoonful of cooled crane** into the fireplace.
8. Feed **4 panels** to your familiar ape.
9. Heat the vessel.
10. Retrieve the **8.48 ounces of ashes of "ashes of "tire", driver and cooled crane"** from the fireplace.
11. Wait until your familiar ape poops. Receive **6.26 spoonful of a very dirty pile of "panel"**.
12. Fold the **8.48 ounces of ashes of "ashes of "tire", driver and cooled crane"** and **6.26 spoonful of a very dirty pile of "panel"** together using advanced origami techniques.
13. If you've done it correctly, it might result in a **truck**.

342 Trust

How to make **trust** in 11 easy steps:

342.1 Materials

- 27.57 spoonful of disbeliever
- 3.96 spoonful of reliance
- 65 ideas of being secret
- 3 hopes

342.2 Tools

- Freezer
- Purifier
- Bonfire
- Container
- Screws

342.3 Instructions

1. Purify **3 hopes** with the purifier.
2. Let the container cool down.
3. Put **65 ideas of being secret** into the freezer for a while.
4. Heat the container.
5. Wait for a rather short time.
6. Put **65 cooled ideas of being secret** into the bonfire.
7. Put **3 purified hopes** into the freezer for a while.
8. Put **3 purified and cooled hopes** into the container.
9. Retrieve the **55.73 spoonful of ashes of "cooled being secret"** from the bonfire.
10. Pour out the mixture from the container to get the **6.65 ounces of container mixture "purified and cooled hope"**.
11. Use screws to join the **27.57 spoonful of disbeliever**, **3.96 spoonful of reliance**, **55.73 spoonful of ashes of "cooled being secret"** and **6.65 ounces of container mixture "purified and cooled hope"** together into the form of a usable **trust**.

343 An upset

How to make an **upset** in 3 easy steps:

343.1 Materials

- 8 enrages
- 5 troubles
- 1 excitement
- 2 clear concepts of being ashamed

343.2 Tools

- Stone
- Vessel
- Tape

343.3 Instructions

1. Crack **1 excitement** with the stone.
2. Stir the vessel.
3. Use tape to join the **8 enrages**, **5 troubles**, **1 cracked excitement** and **2 clear concepts of being ashamed** together into the shape of a perfectly functional **upset**.

344 An upstairs

How to make an **upstairs** in 13 easy steps:

344.1 Materials

- 5.84 spoonful of downstairs
- 4.1 spoonful of attic
- 27 stairways
- 14.7 spoonful of balcony

344.2 Tools

- Fireplace
- Hammer

344.3 Instructions

1. Wait for a second.
2. Smash **5.84 spoonful of downstairs** with the hammer.
3. Crack **14.7 spoonful of balcony** with the hammer.
4. Wait for 6 days.
5. Put **5.84 spoonful of smashed downstairs** into the fireplace.
6. Smash **27 stairways** with the hammer.
7. Hold **14.7 spoonful of cracked balcony** briefly into the fireplace to burn them a bit.
8. Put **14.7 spoonful of cracked and slightly burned balcony** into the fireplace.
9. Put **27 smashed stairways** into the fireplace.
10. Wait.
11. Retrieve the **1.57 ounces of ashes of "smashed downstairs, cracked and slightly burned balcony and smashed stairway"** from the fireplace.
12. Fold the **4.1 spoonful of attic** and **1.57 ounces of ashes of "smashed downstairs, cracked and slightly burned balcony and smashed stairway"** together using advanced origami techniques.
13. If you've done it correctly, it could result in an **upstairs**.

345 A vacancy

How to make a **vacancy** in 6 easy steps:

345.1 Materials

- 23.21 spoonful of motel
- 7.71 spoonful of occupation

345.2 Tools

- Freezer
- Bonfire

345.3 Instructions

1. Hold **7.71 spoonful of occupation** briefly into the bonfire to burn them a bit.
2. Put **7.71 spoonful of slightly burned occupation** into the freezer for a while.
3. Wait for an hour.
4. Fan the flames of the bonfire.
5. Dump the **23.21 spoonful of motel** and **7.71 spoonful of slightly burned and cooled occupation** into a pile on the floor.
6. Wait until they magically transform into a **vacancy**.

346 A voyage

How to make a **voyage** in 15 easy steps:

346.1 Materials

- 8 travels
- 3 journeys
- 9 maidens

346.2 Tools

- Bonfire
- Centrifuge
- Saw
- Bucket with clean water
- Container
- Pet hummingbird
- Electric paint

346.3 Instructions

1. Let your pet hummingbird sniff at **9 maidens**.
2. Feed **8 travels** to your pet hummingbird.
3. Dip **3 journeys** into the bucket with clean water.
4. Stir the container.
5. Use the saw to slice **9 maidens** into bits.
6. Put **3 wet journeys** into the container.
7. Put **9 sliced maidens** into the rotating centrifuge.
8. Fan the flames of the bonfire.
9. Stop the centrifuge and retrieve the **9.53 ounces of centrifuged mixture "sliced maiden"**.
10. Pour out the mixture from the container to get the **9.02 ounces of container mixture "wet journey"**.

11. Wait until your pet hummingbird poops. Receive **9.51 spoonful of a very dirty pile of "travel"**.
12. Draw a magic circle on the floor using the electric paint.
13. Draw a triangle into the circle and place **9.53 ounces of centrifuged mixture "sliced maiden"**, **9.02 ounces of container mixture "wet journey"** and **9.51 spoonful of a very dirty pile of "travel"** on each corner.
14. Chant the following spell: "Obaltuor!"
15. Slowly, a **voyage** will appear inside the circle.

347 A walk

How to make a **walk** in 5 easy steps:

347.1 Materials

- 8.76 spoonful of foot
- 6 ideas of following
- 2.76 spoonful of legs
- 11 slownesses

347.2 Tools

- Vessel
- Freezer

347.3 Instructions

1. Heat the vessel.
2. Wait for a short time.
3. Put **8.76 spoonful of foot** into the freezer for a while.
4. Dump the **8.76 spoonful of cooled foot**, **6 ideas of following**, **2.76 spoonful of legs** and **11 slownesses** into a pile on the floor.
5. Wait until they magically transform into a **walk**.

348 A wallet

How to make a **wallet** in 7 easy steps:

348.1 Materials

- 15.69 ounces of handbag
- 33.53 spoonful of pocketbook
- 14.03 spoonful of purse
- 2.29 ounces of pocket

348.2 Tools

- Mortar
- Saw
- Vessel
- Nails

348.3 Instructions

1. Put **14.03 spoonful of purse** into the vessel.
2. Wait.
3. Crack **33.53 spoonful of pocketbook** with the mortar.
4. Put **15.69 ounces of handbag** into the vessel.
5. Use the saw to slice **2.29 ounces of pocket** into bits.
6. Pour out the mixture from the vessel to get the **1.22 ounces of vessel mixture "purse and handbag"**.
